Mineral Resources and Energy Olivier Vidal,2017-11-25 Increasing the world's population to 9 billion by 2050 will lead to an increase in the need for raw materials that

support basic human activities, as well as all developments in new technologies, mobility, energy. If current trends continue, projections indicate that to meet global needs by 2050, we will have to extract more metals from the subsoil than mankind has extracted since the inception. It is against this backdrop of strong demand for metals that energy and the transition to decarbonized energy production arise. The stakes associated with energy and mineral raw materials are indissociable because metals are necessary to build the infrastructures of production of energy, its storage and its distribution, but also because the energy is necessary to produce the raw materials. The offshoring of production weighs on the adaptive capacities of Western non-producing countries, which are currently confronted with the economic, political and technological emergence of producer countries such as China. Industries in developed non-producing countries are thus placed in a situation of great dependence on imports of fossil energy, but also mineral resources. In this highly competitive context, the stakes in raw materials and energy are considerable. Mineral Resources and Energy addresses these topics from the point-of-view of needs, notably to ensure the energy transition and primary production, recycling, technological innovation, economic and social issues. A chapter is devoted to modeling in order to understand and integrate these couplings in a global model. Hit Refresh Satya Nadella,2018-09-28 Microsoft dikenal sebagai salah satu penyokong besar revolusi digital. Tanpanya, kita semua tak akan menikmati betapa cepat dan nyamannya bekerja menggunakan personal computer. Namun, seiring berjalannya waktu, dunia komputasi mengalami perubahan yang luar biasa cepat. Tanpa inovasi yang benar-benar spektakuler, perusahaan ini diramalkan tak akan mampu mempertahankan popularitasnya. Inovasi tergantikan birokrasi. Kerja tim tergantikan politik internal. Microsoft mulai tertinggal. Hit Refresh berkisah tentang transformasi terbesar yang tengah berlangsung dalam tubuh Microsoft di bawah kepemimpinan Satya Nadella, sang CEO. Selama ini, ketika mendengar kata Microsoft, orang akan langsung mengaitkannya dengan Bill Gates yang cemerlang atau Steve Ballmer yang super energik. Nadella nyaris tak masuk ke radar para selebritas teknologi. Namun dalam tahun-tahun pertamanya memimpin, Nadella melakukan banyak gebrakan baru. Salah satunya adalah menciptakan budaya perusahaan yang menggabungkan antara empati dan teknologi. Dia juga membuat pertaruhan besar dalam beberapa teknologi kunci, seperti artificial intelligence (AI atau kecerdasan buatan) dan cloud computing (komputasi awan), yang membuat Microsoft

menjadi unik. Di tangan Nadella, Microsoft mengubah fokusnya dari sekadar perusahaan pencari keuntungan menjadi perusahaan humanis yang berkontribusi bagi masa depan umat manusia. [Mizan, Bentang Pustaka, Pengembangan Diri, Motivasi, Inovasi, Remaja, Dewasa, Indonesia]

Males With Eating Disorders Arnold E. Andersen,2014-06-17 First published in 1990. The subject of anorexia nervosa and, more recently, bulimia nervosa in males has been a source of interest and controversy in the fields of psychiatry and medicine for more than 300 years. These disorders, sometimes called eating disorders, raise basic questions concerning the nature of abnormalities of the motivated behaviors: Are they subsets of more widely recognized illnesses such as mood disorders? Are they understandable by reference to underlying abnormalities of biochemistry or brain function? In what ways are they similar to and in what ways do they differ from anorexia nervosa and bulimia nervosa in females? This book will be of interest to a wide variety of people—physicians, psychologists, nurses, social workers, occupational therapists, nutritionists, educators, and all others who may be interested for personal or professional reasons.
