The Diffused Story of the Footwashing in John 13 Yanrong Chen,2021-02-09 The first Catholic missionaries of the early modern period arrived in mainland China in 1582, but the first Catholic Bible did not appear until 1968, long after Protestant missionaries already had published several versions. The mystery behind the four-hundred-year gap is not a why question but instead involves many how questions--primarily, how did communication of the Bible take place in the Chinese context without a written text in the Chinese language? This book uncovers narrative forms of biblical stories and explores the ways they were delivered to Chinese audiences. Relying on textual evidence, it presents a diversified exploration of a specific biblical story from the Latin Vulgate Bible--the footwashing in John 13--and its translation into various Chinese texts. In different religious milieus, the biblical narrative provided Chinese audiences a core source of faith, connected them with the most commonly accepted beliefs, and fostered their religiosity across communities in China from the sixteenth through the eighteenth centuries. The interdisciplinary approach adopted herein sheds new light on the history of the Bible in China and paves the way for further studies on the abundance of Chinese biblical stories and texts.

Bad with Money Gaby Dunn,2019-01-01 “Humorous and forthright...[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun....Dunn’s book delivers.” —Publishers Weekly The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her “Bad With Money” podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what’s your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. “That’s a very personal question,” they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In Bad With Money, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancelife work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that—even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers—we can all start taking control of our financial futures.
