The OA David Sweeney,2022-07 Created by the team of Brit Marling and Zal Batmanglij, and starring Marling in the role of Prairie Johnston, the Netflix Originals series The OA (2016-19) is a generically ambiguous vehicle for exploring a variety of themes, chief among them identity, belief and the nature and construction of reality. Prairie claims that she has learned the secret of inter-dimensional travel after a near-death experience and subsequent imprisonment at the hands of a deranged scientist obsessed with that phenomenon - but is she a potentially unreliable narrator, a sincere one or, finally, a metafictional character playing a version of herself in a fictional drama? This Constellation discusses The OA's thematic concerns in the context of the creators' earlier collaborations and in terms of influences on it, such as the work of David Lynch, particularly the TV series Twin Peaks (1990-2017) and the films Mulholland Drive (2001) and Inland Empire (2006), and comparable texts such as the Netflix Originals series Sense8 (2015-18) and Maniac (2018); the writings of Jorge Luis Borges and Philip K Dick. The discussion will be supported by sources from the fields of media and social theory, including the work of Jean Baudrillard, Steven Shaviro, Jodi Dean, Mark Fisher and Shoshana Zuboff. Negative criticisms of The OA will also be addressed, such as accusations of superficiality, which will be considered alongside the themes of deception, manipulation and artificiality identifiable in The OA specifically, and in Marling and Batmanglij's wider oeuvre.

A Goat in My Boat! Isabella Garcia,2016-12-15 Colorful Illustrations support decodable text, guiding beginning readers to identify, recognize, and use the /oa/ sound. Featuring high-frequency words, this authentic fictional narrative also gives emerging readers the opportunity to read with purpose and for meaning while reinforcing basic phonemic sounds. Readers will love this funny story of a narrator who finds a goat hiding in his boat. This fiction phonics title is paired with the nonfiction phonics title My Coach: Practicing the OA Sound. The instructional guide on the inside front and back covers provides: * Word List with carefully selected grade-appropriate words featuring the /oa/ sound found in the text * Teacher Talk that assists instructors in introducing the /oa/ sound * Group Activity that guides students to identify the /oa/ sound, decode the words that contain it, and use the words * Extended Activity that provides students with additional opportunities to think about, list, and use words containing the /oa/ sound * Writing Activity that guides students to write the letters that make the /oa/ sound

Open Access Peter Suber,2012-07-20 A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work "open access": digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed

journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.

Literature Against Criticism Martin Paul Eve, 2016-10-17 This is a book about the power game currently being played out between two symbiotic cultural institutions: the university and the novel. As the number of hyper-knowledgeable literary fans grows, students and researchers in English departments waver between dismissing and harnessing voices outside the academy. Meanwhile, the role that the university plays in contemporary literary fiction is becoming increasingly complex and metafictional, moving far beyond the 'campus novel' of the mid-twentieth century. Martin Paul Eve's engaging and far-reaching study explores the novel's contribution to the ongoing displacement of cultural authority away from university English. Spanning the works of Jennifer Egan, Ishmael Reed, Tom McCarthy, Sarah Waters, Percival Everett, Roberto Bolaño and many others, *Literature Against Criticism* forces us to re-think our previous notions about the relationship between those who write literary fiction and those who critique it.

The Gifts of Civilization O. A. Bushnell, 1993-02-01 In 1778 Captain James Cook made his first visit to the Hawaiian Islands. The members of his expedition and subsequent visitors brought to the previously isolated Hawaiian people new things, novel ideas, and, of greatest consequence, devastating alien germs. The infectious diseases introduced since 1778 have claimed more Hawaiian lives than all other causes of death combined. During their long isolation in space and time, Hawaiians had not been exposed to the many microbes that afflicted populations in other parts of the world. They had developed no immunity to those germs and gained no experiences to enable them to endure the sicknesses the newly introduced germs caused. That terrible vulnerability to foreigners' diseases has almost destroyed Hawaiian society and culture. The nine essays in this collection discuss the impact of these gifts of civilization upon the native Hawaiian people and upon the social history of Hawai'i. Dr. Bushnell constructs a concise historical framework, including an examination of the native medical profession, and interprets the few facts known about it in light of present knowledge in the medical sciences. He presents information, opinions, and conclusions harvested from many years of thinking about the fate of native Hawaiian people, studying all the relevant documents, and writing about this and related subjects.

Living Books Janneke Adema,2021-08-31 Reimagining the scholarly book as living and collaborative--not as commodified and essentialized, but in all its dynamic materiality. In this book, Janneke Adema proposes that we reimagine the scholarly book as a living and collaborative project--not as linear, bound, and fixed, but as fluid, remixed, and liquid, a space for experimentation. She presents a series of cutting-edge experiments in arts and humanities book publishing, showcasing the radical new forms that book-based scholarly work might take in the digital age. Adema's proposed alternative futures for the scholarly book go beyond such print-based assumptions as fixity, stability, the single author, originality, and copyright, reaching instead for a dynamic and emergent materiality. Adema suggests ways to unbind the book, describing experiments in scholarly book publishing with new forms of anonymous collaborative authorship, radical open access publishing, and processual, living, and remixed publications, among other practices. She doesn't cast digital as the solution and print as the problem; the problem in scholarly publishing, she argues, is not print itself, but the way print has been commodified and essentialized. Adema explores alternative, more ethical models of authorship; constructs an alternative genealogy of openness; and examines opportunities for intervention in current cultures of knowledge production. Finally, asking why it is that we cut and bind our research together at all, she examines two book publishing projects that experiment with remix and reuse and try to rethink and reperform the book-apparatus by taking responsibility for the cuts they make.
