**Systèmes judiciaires européens - Edition 2014 (données 2012) - Efficacité et qualité de la justice**, 2014-12-01 The new Edition of the report of the European Commission for the Efficiency of Justice (CEPEJ), which evaluates the functioning of the judicial systems in 45 Council of Europe's member states and an observer state to the CEPEJ, Israël, remains in line with the process carried out since 2002. Relying on a methodology which is already a reference for collecting and processing a wide number of quantitative and qualitative judicial data, this unique study has been conceived above all as a tool for public policy aimed at improving the efficiency and the quality of justice. To have the knowledge in order to be able to understand, analyse and reform, such is the objective of the CEPEJ which has prepared this report, intended for policy makers, legal practitioners, researchers as well as for those who are interested in the functioning of justice in Europe.

**Health and the Millennium Development Goals** World Health Organization, 2005 This WHO's report provides a global overview of progress towards each of the health MDGs to date and identifies the challenges to be addressed if we are to meet the goals. It presents the essential elements - the strategies and inputs - that will help the international community working collectively, to tackle the health crisis facing many poor countries, and in doing so, contribute to poverty reduction.

Droit Des Aides D'etat Dans la CE Francisco Santaolalla Gadea, 2008-01-01 A uniquely important contribution to the debate on EC State aid, this book captures the direct knowledge and experience of twenty-six current and former Commission State aid litigators, offering detailed 'insider' analysis of EC State aid court cases, as well as related internal legal issues, between 1994 and 2008. The book brings together both legal and economic analysis, with detailed reflections on aspects of both substantive legal rules and procedural law. It also offers, over and above the specific interest of the contributions it contains, invaluable insights into the working methods of the Commission Legal Service. This collaborative work was conceived and realized by its authors as a mark of recognition, and a gesture of respect and friendship, for Francisco Santaolalla, on the occasion of his retirement from the Commission after fourteen years' service as Director of the State aid team. Among the many legal and economic forces affecting State aid litigation, the authors focus on such factors as the following: A {exports; A {private investment; A {role of economic analysis; A {ecotaxes; A {privatization; A {remedies; A {existing aid; A {third parties; A {actions against State aid decisions; A {national court decisions; A {fiscal discipline; and A {WTO subsidies law. In illuminating the underlying issues, and describing how they are handled by the Commission Legal Service, the authors shed light on the likely future development of State aid law. The book will be of particular interest to antitrust practitioners as well as academics

**Routledge French Technical Dictionary Dictionnaire technique anglais** Yves Arden, 2013-01-11 The French-English volume of this highly acclaimed set consists of some 100,000 keywords in both French and English, drawn from the whole range of modern applied science and technical terminology. Covers over 70 subject areas, from engineering and chemistry to packaging, transportation, data processing and much more.

Linking Emissions Trading Schemes Andreas Tuerk, 2009-09-02 A growing number of GHG emissions trading schemes are being implemented at regional or national levels. However, even as the number of different schemes grows, few linkages exist between them. Major cap-and-trade proposals are currently at important stages in their development, especially in the United States, Japan and Australia, some of which explicitly emphasize the aim of linking with other schemes. One of the strategic goals of European climate policy is linking the EU ETS with other comparable schemes. The research presented in this volume is on actual economic, political and institutional constraints and implications. It examines the role of linking trading schemes for the development of the post-Kyoto climate architecture and for increasing linkage between schemes. This essential research will be relevant to both the scientific community and for policymakers who are involved in the design of emerging trading schemes and offset mechanisms, as well as in

designing the post Kyoto climate regime. This volume focuses specifically on: o Economic, institutional/regulatory and legal dimensions of linking o Implications of linking on the design of emerging trading schemes o The role of linking trading schemes for the development of the post-Kyoto climate regime

**Rapport sur le developpement dans le monde 2018** POUR,2009 Chaque annee, le Rapport sur le developpement dans le monde de la Banque mondiale met en vedette un sujet d'importance capitale pour le developpement mondial. Le Rapport sur le developpement dans le monde 2018 - APPRENDRE pour realiser la promesse de l'education - est le premier consacre integralement a l'education. Et le moment s'y prete particulierement : l'education a toujours ete essentielle au bien-etre de l'etre humain, mais elle l'est plus encore en cette periode de rapides mutations economiques et sociales. Le meilleur moyen de preparer les enfants et les jeunes a l'avenir est de placer l'apprentissage au centre de toutes les interventions de promotion de l'education. Le Rapport sur le developpement dans le monde 2018 aborde quatre themes majeurs :La promesse de l'education. L'education est un levier important pour eradiquer la pauvrete et promouvoir une prosperite partagee. Mais pour qu'elle puisse realiser ce potentiel, il faut ameliorer les politiques - a l'interieur comme en dehors du systeme educatif.La necessite de mettre l'apprentissage en lumiere. En depit des progres accomplis en matiere d'acces a l'education, les recentes evaluations des acquis scolaires revelent que de nombreux jeunes a travers le monde, particulierement ceux qui sont issus des couches pauvres ou marginalisees de la population, quittent l'ecole sans avoir acquis ne seraient-ce que les competences necessaires a la vie. En meme temps, des evaluationsscolaires comparables sur le plan international montrent que les competences disponibles dans de nombreux pays a revenu intermediaire sont nettement inferieures a ce que ces pays ambitionnent. Et trop souvent, ces lacunes sont cachees - par consequent, pour faire face a la crise de l'apprentissage, il est crucial de commencer par la mettre en lumiere en ameliorant l'evaluation des acquis des eleves.Comment mettre l'ecole au service de l'ensemble des apprenants ? Les travaux de recherche sur le cerveau, l'innovation pedagogique et la gestion des etablissements scolaires, entre autres, ont identifie des interventions qui favorisent l'apprentissage en faisant en sorte que les apprenants soient mieux prepares, que les enseignants soient a la fois competents et motives, et que d'autres moyens soient mis en oeuvre pour soutenir larelation entre l'enseignant et l'apprenant.Comment faire en sorte que le systeme favorise l'apprentissage ? Pour realiser les objectifs d'apprentissage a travers le systeme educatif dans son ensemble, il ne suffit pas de transposer a plus grande echelle les interventions efficaces. Les pays doivent aussi surmonter des obstacles techniques et politiques en ayant recours a des outils de mesure et indicateurs suffisamment parlants pour mobiliser les acteurs concernes etsuivre les progres, en formant des coalitions au service de l'apprentissage et en adoptant une approche de reforme evolutive.

**LES OBJECTIFS DU PELERINAGE** Abdurrazaq Ibn Abdilmuhsin Al-Badr (Al-Abbad),2016-01-01 Pèlerins de la Maison sacrée d'Allah ! Le thème de cette parole : « Les objectifs du pèlerinage » est un sujet sérieux au possible et d'une importance capitale. Chacun d'entre nous a besoin, alors qu'il s'apprête à accomplir le pèlerinage vers la Maison Sacrée d'Allah, qu'on lui rappelle ses buts grandioses afin qu'il effectue ses rites en concrétisant ses finalités et en accomplissant ses objectifs. Le pèlerinage est l'un des piliers de l'Islam, c'est une obéissance d'envergure, une adoration éminente et l'un des plus grands moyens pour les croyants de se rapprocher d'Allah. Ses objectifs importants ainsi que ses sublimes finalités méritent que nous cherchions à nous en rappeler.

**Medical Informatics Europe 81** F. Gremy, P. Degoulet, B. Barber, R. Salamon, 2013-03-08 The European Federation for Medical Informatics has established itself as a regional body coordinating activity in medical informatics. The Congress in Toulouse, MIE-81, from 9 - 13 March 1981, is the third congress in the series following MIE-78 in Cambridge, and MIB-79 in Berlin with a gap during 1980 for the world congress MEDINFO-80 in Tokyo. The rationale behind all these congresses is the scientific need to share results and ideas and the educational need to train a wide variety of professional staff in the potential of health care and medical informatics. All the caring professions are involved, doctors, scientists, nurses, para-medical staff, administrators, health care planners, community physicians, epidemiologists, statisticians, operations analysts together with specialists from the computing profession dealing with system analysis, hardware, software, languages, data-bases and the marketing of systems. Medical Informatics is a very wide subject with ramifications throughout the health care and preventive services; it offers a key to the monitoring and improvement of patient care and to the provision of a healthier environment. The collection and evaluation of relevant data improves our understanding of the ways in which health care is provided while the availability of cheaper computer hardware and more versatile software enables us to design and implement more revealing and intelligent medical systems. Even though typical systems take a substantial amount of time to design, implement and evaluate, there is the continuing need for informaticians to assess the current state of development.

**World malaria report 2022** World Health Organization, 2022-12-08 Each year, WHO's World malaria report offers in-depth information on the latest trends in malaria control and elimination at global, regional and country levels. The report highlights progress towards global targets and describes opportunities and challenges for curbing and eliminating the disease. This year's report includes three new sections on: (1) global and regional initiatives launched in 2021 and 2022; (2) global malaria surveillance and country-level case studies on surveillance systems assessments; and (3) research and development. The report also includes an expanded section on threats to malaria control, with a focus on the declining effectiveness of insecticide-treated mosquito nets.

**Dam Safety Management / Gestion de la Sécurité des Barrages** Cigb Icold, 2021-06-11 Dam Safety Management is a major concern during the entire lifetime cycle of a dam scheme. This is particularly true for the operational phase of the scheme that represents by far the longest period in its lifetime cycle. Bulletin 154 presented a general approach and concepts to be applied to dam operation. The current Bulletin 175 extends the developed concepts to all phases preceding the operational phase. Many risks associated with the operation of existing dams have their origins in other phases preceding the actual operation. Although there are numerous ICOLD Bulletins addressing technical aspects of planning, design, construction and commissioning of dams, there is not a single Bulletin which covers the subject in a comprehensive manner. The current document is a first attempt to capture all relevant dam safety aspects in all preoperational phases by systematically characterizing the actors involved, their roles, the activities and complex interactions present in different phases of the dam lifecycle. An Overarching Safety Management System is specifically developed that can be applied to all actors involved. La gestion de la sécurité des barrages est une préoccupation majeure pendant tout le cycle de vie d'un projet de barrage. Cela est particulièrement vrai pour la phase opérationnelle du système qui représente de loin la période la plus longue de son cycle de vie. Le Bulletin 154 présente une approche générale et des concepts à appliquer à l'exploitation des barrages. Le Bulletin 175 actuel étend les concepts développés à toutes les phases précédant la phase d'exploitation. De nombreux risques associés à l'exploitation des barrages existants ont leur origine dans d'autres phases précédant l'exploitation proprement dite. Bien qu'il existe de nombreux bulletins ICOLD traitant des aspects techniques de la planification, de la conception, de la construction et de la mise en service des barrages, il n'existe pas un seul bulletin qui couvre le sujet de manière

exhaustive. Le document actuel est une première tentative de capturer tous les aspects pertinents de la sécurité des barrages dans toutes les phases pré-opérationnelles en caractérisant systématiquement les acteurs impliqués, leurs rôles, les activités et les interactions complexes présentes dans les différentes phases du cycle de vie du barrage. Un système global de gestion de la sécurité est spécifiquement développé et peut être appliqué à tous les acteurs impliqués.

**La qualité et la gouvernance des données : au service de la performance des entreprises** BERTI-EQUILLE Laure, 2012-09-14 La bonne qualité des données est aujourd'hui la clé de voûte de toute organisation. La gestion et l'amélioration de cette qualité sont des tâches coûteuses et difficiles, mais néanmoins incontournables. Cet ouvrage propose une étude des différents outils et démarches qui assistent les spécialistes de la qualité et de la gouvernance des données. À travers les expériences de la communauté francophone animée par l'association ExQI (Excellence Qualité, Information), il présente, avec pédagogie et pragmatisme, un panorama des concepts-clés de la gestion de la qualité des données et leurs déclinaisons dans les entreprises (Business Intelligence, Data Quality Management, Key Performance Indicator, Model Driven Engineering, Master Data Management, etc.). Des solutions théoriques et techniques performantes sont détaillées et de nombreux retours d'expérience permettent d'illustrer les bonnes pratiques à adopter. Mêlant contributions industrielles et académiques, cet ouvrage est un outil de référence en langue française sur la qualité et la gouvernance des données en entreprise.

Fiscal Policy, Taxation and the Financial System in an Increasingly Integrated Europe D.E. Fair, Christian de Boissieu, 2012-12-06 The papers collected in this volume are those presented at the sixteenth Colloquium arranged by the Societe Universitaire Europeenne de Recherches Financieres (SUERF), which took place in Lisbon in May 1991. The Society is supported by a large number of central banks and commercial banks, by other financial and business institutions, and by personal subscriptions from academics and others interested in monetary and financial problems. Since its establishment in 1963, it has developed as a forum for the exchange of information, research results and ideas among academics and practitioners in these fields, including central bank officials and civil servants responsible for formulating and applying monetary and financial policies, national and international. A major activity of SUERF is to organise and conduct Colloquia on subjects of topical interest to its members. The titles, places and dates of previous Colloquia for which volumes of the collected papers were published are noted on the last page of this volume. Volumes were not produced for Colloquia held at Tarragona, Spain in October 1970 under the title 'Monetary Policy and New Developments in Banking' and at Strasbourg, France in January 1972 under the title 'Aspects of European Monetary Union'.
