Promotion of business transfers in the Baltic Sea Region Max Høgeforster, Christian Wildt, 2021-09-21 The ageing of society does not stop at company owners. More and more companies have to be handed over to the new generation. This process is a challenge for all parties involved. The support of business transfer assistance is just as essential for the European economy as the promotion of start-ups because both are critical to the development of the European economy. Over 450.000 firms with over two million jobs are transferred to a new owner in the EU-28 each year. Around one-third of these transfers fail, and the companies are closed. The future growth and sustainability of innovative companies in the Baltic Sea Region are severely limited by failed business transfers. Furthermore, due to a lack of available and appropriate successors, many firms are liquidated rather than transferred. This publication is part of the project INBETS (www.inbets.eu), highlights the background to the current situation of business transfers in the Baltic Sea Region, and proposes a policy program to promote business successions and open up new target groups of potential successors. Part-financed by the European Union (European Development Fund and European Neighbourhood and Partnership Instrument) within the INBETS project. This publication does not necessarily reflect the opinion of the European Commission.

Pantbanken Jonas Hafrén, 2017-10-19 Tavin Karlsson driver en Pantbank i Stockholm. Inbrotts- och rånförsöken avlöser varandra och affärerna går inget vidare. Så kommer en äldre dam till butiken med ett vackert halsband. Tavin pantar det för en mindre summa, men får senare reda på att värdet är flera miljoner kronor. När damen några veckor senare dör, och hennes advokat vill lösa ut panten ser Tavin sin chans att göra ett klipp. Genom falska konton på en internetauktion ska han köpa loss halsbandet för pantsumman och bli kvitt dödsboet. Därmed är halsbandet hans och han kan sälja det vidare till ett betydligt högre pris på en annan auktion. Planen är vattentät. Men Tavin blir lurad. Hans medarbetare Benny stjäl både halsband och pengar och försvinner. Därmed står Tavin med en skuld till ett dödsbo, en skuld till sin bank och en butik utan potential. Tillsammans med Bennys syster - den före detta modellen Sylvie, söker Tavin efter en lösning på sina problem. Det leder dem in i den undre världen, där knarkuppgörelser, pengavätt, hot och kidnappning är vardag.

Der Lagebericht als publizitätspolitisches Instrument börsennotierter Aktiengesellschaften Volker Steinmeyer,2008 Die Rechnungslegungsforschung kritisiert seit Jahren die Ausblicke auf die voraussichtliche Unternehmensentwicklung in den Lageberichten börsennotierter Unternehmen als wenig konkret und aussagekräftig. Volker Steinmeyer entwickelt auf der Basis betriebswirtschaftlicher Analysen Vorschläge für eine Neugestaltung des Prognoseberichts, die dem aktuellen Stand der Forschung entsprechen und den Adressaten des Lageberichts entscheidungsnützliche Informationen anbieten können. Hierzu werden nicht nur die Berichtsbestandteile und die adäquate Gestaltung des Controlling theoretisch konzeptioniert, sondern auch die praktische Umsetzung in einem quantitativen Modell dargelegt. Das Buch richtet sich an Dozenten und Studenten der Wirtschaftswissenschaften mit den Schwerpunkten Rechnungslegung und Controlling und Rechnungslegungspraktiker größerer Unternehmen.

Business Transfers, Family Firms and Entrepreneurship Bérangère Deschamps,Audrey Missonier,Catherine Thévenard-Puthod,Paulette Robic,Dominique Barbelivien,2020-12-13 ‘Business transfer’ refers to the transfer of ownership and leadership from one or more outgoing owner-manager(s) to one or more incoming owner-manager(s). Apart from all the company's material assets, it presupposes that information, relationships, know-how and social capital are also transmitted from one to the other. While much of the research on entrepreneurship has focused on new business ventures, few studies have considered business transfers as an alternative way of embarking on entrepreneurial activities. Business Transfers, Family Firms and Entrepreneurship provides the international community with a more comprehensive state-of-the-art of business transfer studies, which will enrich readers' understanding. The business transfer is examined through different prisms: family businesses, internal business transfers to employees,

external business transfers, and woman in business transfers. This book deals with business transfer as a whole, following a logic of continuity and sustainability for the transferred firm. It offers a refreshing point of view on business transfers, in terms of both the process and the actors, and from both the seller's and the buyer's sides. It presents the research on all types of business transfer including internal and external transfers and will be of interest to researchers, academics, and students in the fields of entrepreneurship, small business management, family business, and strategic management. It can also be instructive for practitioners and stakeholders involved in a business transfer.

Entrepreneurship in Transition Economies Arnis Sauka,Alexander Chepureenko,2017-06-28 This book presents a state-of-the-art portrait of entrepreneurship in the transition economies of Central and Eastern Europe (CEE) and the Commonwealth of Independent States (CIS) as well as Georgia and Ukraine. Based on new empirical evidence, it highlights major trends in, characteristics and forms of entrepreneurship common to countries in transition. The contributions cover topics such as levels of opportunity-based entrepreneurship, incentives for innovation, dominance of large-scale international corporations, the role of family businesses, and opportunities for grass-roots entrepreneurship. The first part of the book focuses on theoretical considerations regarding the establishment of sustainable entrepreneurial ecosystems and private business. In turn, the second part offers cross-border studies of entrepreneurial environments and activities, while the third and fourth present case studies on the current state and unique characteristics of entrepreneurship in various countries of the CEE and CIS as well as Georgia and Ukraine. Finally, the last parts discuss the role of institutions and policy recommendations.

The Consequences of Decision-Making Nils Brunsson,2007-01-18 Nils Brunsson is one of the leading European organization theorists who has written and researched decision-making in organizations. He has often questioned the rationality of decision-making, and argued that it is as important to understand other consequences of decision-making apart from choice - such things as mobilizing action, allocating responsibility, and legitimizing organizations. These consequences of decisions can influence decision-making and the assumptions about feasible norms that provide their context. Decisions often run counter to actions and are part of what Brunsson calls organizational hypocrisy. Decisions can substitute for action, or decrease the probability of the action they call for. The norm of rationality is far from obvious: sometimes decision-makers can recommend systematic irrationality. This book collects together a wide-range of Nils Brunsson's most important writing on decision-making, brought together in one volume for the first time, with

an introduction from the author.
