50 Studies Every Obstetrician-Gynecologist Should Know Constance Liu,Noah Rindos,Scott A. Shainker,2021-02-19 50 Studies Every Obstetrician-Gynecologist Should Know presents key studies that have shaped the practice of obstetrics and gynecology. Selected using a rigorous methodology, the studies cover topics including hypertension in pregnancy, infectious diseases of pregnancy, family planning, urogynecology, and more. For each study, a concise summary is presented with an emphasis on the results and limitations of the study, and its implications for practice. An illustrative clinical case concludes each review, followed by brief information on other relevant studies. This book is a must-read for obstetrician-gynecologists, internists, family practitioners, nurse practitioners, and midwives, as well as anyone who wants to learn more about the data behind clinical practice.

Primary Care of Adult Women, An Issue of Obstetrics and Gynecology Clinics of North America, E-Book James N. Woodruff,Anita K. Blanchard,2016-06-11 Obstetrician Gynecologists are frequently responsible for management of the primary care needs of their patients. A survey performed in 2005 found an estimated 37% of, non-pregnant patients, relies on gynecologists for routine primary care. The same study found that almost a quarter of gynecologists reported they needed additional primary care training across a broad set of medical topics (Acad Med. 2007; 82:602-607). The impetus for training in primary care skills is increasing. In response to language in the Affordable Care Act, the Institute of Medicine developed a report on clinical preventative services necessary for women (Clinical Preventative Services for Women: Closing the Gaps IOM. 2011; also Current Opinion in Obstetrics and Gynecology 2011, 23:471-480). The US Department of Health and Human services has adopted these IOM recommendations and, as a result, health plans are required to include these services. While initiatives such as the American Congress of Obstetricians and Gynecologists' Well-Woman Task Force and recent cross-specialty ACOG educational collaborations have begun to address supplemental educational needs, additional resources covering key primary care topics are necessary. This issue of Obstetrics and Gynecology Clinics is an ideal means for accomplishing this important goal.
