LL Leslie

An Ocean Blueprint for the 21st Century United States. Commission on Ocean Policy,2004 Accompanying DVD contains 2 segments: the first shows the developmental process into making the report, the second shows a summary of the findings and recommendations of the report.

Ocean Shipping Act of 1979 United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Merchant Marine and Tourism,1980

The UK as a Medium Maritime Power in the 21st Century Christopher Martin,2016-11-30 This book argues that the UK, as a post-modern globalised state, will require means to have influence over events and opponents that threaten the UK's interests in the 21st century, and that its means is the Royal Navy. However, unlike other studies, this research emphasizes the role of logistics, especially afloat support logistics and the Royal Fleet Auxiliary. In doing so, the author rejects the current theory underpinning military operations at distance, that distance degrades capability, and posits an alternative theory, that time is the key factor, for maritime-based forces. The UK must reengage with its maritime status and maintain a maritime-based capability to protect its interests in the new maritime century as a leader within the international community. The book will be of use to scholars and researchers interested in naval history and defence policy.

The English Catalogue of Books Sampson Low,1926 Volumes for 1898-1968 include a directory of publishers.

21st Century Maritime Silk Road: Construction of Remote Islands and Reefs Chongwei Zheng,Chongyin Li,Hailang Wu,Min Wang,2018-07-27 This book focuses on the construction of remote islands and reefs in the Maritime Silk Road. Firstly, it analyzes the functions, necessity and difficulties of the construction of remote islands and reefs; then provides corresponding countermeasures. According to the urgent demand of electricity and freshwater, it focus on wave and offshore wind energy evaluation of the important remote islands and reefs of the Maritime Silk Road, providing reference for the choice of location of power plants, daily operation and long term plan of wave/wind power generation. Several important key points are selected in the case study to realize their electricity and freshwater self-sufficiency and thus to improve their viability. This book also presents the marine characteristics (especially hazardous elements) under the demands of island runway construction and marine new energy development, to promote safe and efficient implementation of the remote islands and reefs construction. This book is one of the series of publications on the 21st Century Maritime Silk Road (shortened as “Maritime Silk Road”). It covers the characteristics of the marine environment and marine new energy, remote islands and reefs construction, climate change, early warning of wave disasters, legal escort, marine environment and energy big data construction, etc. contributing to the safe and efficient construction of the Maritime Silk Road. It aims to improve our knowledge of the ocean, thus to improve the capacity for marine construction, enhance the viability of remote islands and reefs, ease the energy crisis and protect the ecological environment, improve the quality of life of residents along the Maritime Silk Road, and protect the rights, interests of the countries and regions participating in the construction of the Maritime Silk Road. It will be a valuable reference for decision-makers, researchers, and marine engineers working in the related fields.

Reeds 21st Century Ship Management John W Dickie,2014-05-08 First modern title to cover the varied and complex world of ship management in the 21st century.

21st Century Maritime Silk Road: A Peaceful Way Forward Chongwei Zheng,Ziniu Xiao,Wen Zhou,Xiaobin Chen,Xuan Chen,2018-03-17 This book focuses on understanding the characteristics of the marine environment; overall characteristic of the marine resources (especially the marine new energy) and their current utilization; important routes, channels, and ports; and the Maritime Silk Road from the perspective of international law. It also discusses the significance and opportunities of the Maritime Silk Road initiative, analyzes the challenges involved in the construction of the Maritime Silk Road and provides corresponding countermeasures. Based on the above research, this book also proposes to construct a comprehensive application platform for the Maritime Silk Road that will be a practical tool for decision-making. This book is one of the series publications on the 21st century Maritime Silk Road (shortened as "Maritime Silk Road"). This series publications cover the characteristics of the marine environment and marine new energy, remote islands and reefs construction, climate change, early warning of wave disasters, legal escort, marine environment and energy big data construction, etc. contributing to the safe and efficient construction of the Maritime Silk Road. It aims to improve our knowledge of the ocean, thus to improve the capacity for marine construction, enhance the viability of remote islands and reefs, ease the energy crisis and protect the ecological environment, improve the quality of life of residents along the Maritime Silk Road, and protect the rights, interests of the countries and regions participating in the construction of the Maritime Silk Road. It will be a valuable reference for decision-makers, researchers, and marine engineers working in the related fields.

Participation of Small Business in Foreign Trade and Foreign Aid, Hearings Before Subcommittee No. 3 of ... 86-1 Pursuant to H. Res. 51 United States. Congress. House. Select Committee on Small Business,1959

Classic Ships of Islam Dionysius A Agius,2007-11-30 Drawing upon Arabic literary sources, iconographic evidence and archaeological finds, this book examines trade, port towns, ship construction, seamanship, ship typology and their historical development in the Western Indian Ocean, focussing on the Medieval Islamic period but including earlier sources.

Commercial Ship Surveying Harry Karanassos,2015-11-26 Commercial Ship Surveying: On/Off Hire Condition Surveys and Bunker Surveys provides guidance on the complete survey process, what should be done to prepare, and what constitutes good practice, all completely detailed so that the process can be executed quickly and efficiently. In addition to the surveying process, the book describes supplementary topics, such as the vessels likely encountered, the gear and rigging involved, and the special techniques necessary. The book is well-researched, with plenty of practical examples and photographic references, explaining not only what is expected to happen during surveys, but also how marine surveyors and ships' officers are expected to perform, if, and when, they become involved with this work. Dedicated to detail, this book ensures that the reader clearly understands each step of the surveying process. Presents the first work to comprehensively describe the processes of on-hire, off-hire, and bunker surveys for dry cargo ships Includes a companion site featuring survey checklists and Excel worksheets for select calculations (such as heavy fuel and diesel oil weight calculations) Contains accompanying illustrations and photographs to clarify key concepts

Tourism and Hospitality in the 21st Century S Medlik,2009-11-03 'Tourism and Hospitality in the 21st Century' is a collection of essays which consider the future of tourism and hospitality. The international team of contributors represent a wide range of

interests involved in tourism and hospitality. Divided into three parts, this book analyses: · Global dimensions, patterns and trends - demographic, social, economic and technical · Regional development of such areas as Africa, Asia, Europe and America, among others · The future of various sectors within the industries - such as transport, tourist attractions, coastal resorts and timesharing. 'Tourism and Hospitality in the 21st Century' is suitable for: senior personnel in private and public sector tourism and hospitality operations; international and national official tourism bodies and other organizations; universities and other higher education institutions; universities and other higher education institutions; consultancy; finance, construction and supply industries; and as a reference point for students.

Tourism and Hospitality in the 21st Century Andrew Lockwood, 2007-06-07 'Tourism and Hospitality in the 21st Century' examines current global dimensions, patterns and trends; provides a view of the external environment in which tourism and hospitality industries operate; reviews past, present and future tourism and hospitality research; considers trends in world population and standard of living; examines current and likely future trends and developments in work and leisure; and considers how tourism and future tourists may differ from today's tourism and tourists. Written for senior personnel in private and public sector tourism and hospitality operations; international and national official tourism bodies and other organizations; universities and other higher education institutions; consultancy, finance, construction and supply industries; and as a reference point for students.

The 21st Century — Turning Point for the Northern Sea Route? Claes Lykke Ragner, 2000-08-31 The Northern Sea Route - the ice infested sea lanes running north of Siberia - can potentially cut sailing distances between Northwest Europe and Northeast Asia by as much as 50% compared with present routes. Further, the route passes some of the world's largest deposits of oil and gas. Several recent multimillion dollar research programmes have investigated the route's commercial, technological and commercial feasibility. The results of this research were presented to the Northern Sea Route User Conference in Oslo, November 1999. The Conference was also told about new Russian policies on the route. The research results and Russian policy statements were assessed and commented on by representatives of international shipping organisations, who also proposed the shipping industry's own view of the commercial feasibility of the NSR. The present book, derived from the Conference, discusses the question of international shipping on the NSR more comprehensively than has ever been witnessed before, not only as a matter of theoretical research but also as a practical matter, assessed in commercial, political and maritime terms. Readership: All those interested in the NSR, whether as a business opportunity or an object of research or environmental concern.

United States Code United States, 2013 The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so

enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.
