**Relaxation of the Chemical Bond** Chang Q

Sun,2014-07-08 The aim of this book is to explore the detectable properties of a material to the parameters of bond and non-bond involved and to clarify the interdependence of various properties. This book is composed of four parts; Part I deals with the formation and relaxation dynamics of bond and non-bond during chemisorptions with uncovering of the correlation among the chemical bond, energy band and surface potential barrier (3B) during reactions; Part II is focused on the relaxation of bonds between atoms with fewer neighbors than the ideal in bulk with unraveling of the bond order-length-strength (BOLS) correlation mechanism, which clarifies the nature difference between nanostructures and bulk of the same substance; Part III deals with the relaxation dynamics of bond under heating and compressing with revealing of rules on the temperature-resolved elastic and plastic properties of low-dimensional materials; Part IV is focused on the asymmetric relaxation dynamics of the hydrogen bond (O:H-O) and the anomalous behavior of water and ice under cooling, compressing and clustering. The target audience for this book includes scientists, engineers and practitioners in the area of surface science and nanoscience.

**Defying the Law of the Land** Brian Casey, 2013-08-01

This history of Ireland is inextricably linked with our relationship with the land. In this book, based on extensive research and investigation, the authors examine some of the key figures in Irish agrarian agitation and change. Looking at the Land League, the Knights of the Plough, the perception and reality of the Irish Landlords, this is an important book which makes a significant contribution to our understanding of the nature of the 'land question' in Irish history.

**The Austin-Boston Connection** Anthony

Champagne, Douglas B. Harris, James W.

Riddlesperger, Garrison Nelson, 2009-08-31 For the more than fifty years that Democrats controlled the U.S. House of Representatives, leadership was divided between Massachusetts and Texas. When the Speaker was from Texas (or nearby Oklahoma), the Majority Leader was from the Boston area, and when the Speaker was from Boston, the Majority Leader was from Texas. The Austin-Boston Connection analyzes the importance of the friendships (especially mentor-protégé relationships) and enmities within congressional delegations, regional affinities, and the lynchpin practice of appointing the Democratic Whip.

**Pain, Death, and the Law** Austin Sarat,2009-09-11

This collection of essays examines the relationship between pain, death, and the law and addresses the question of how

the law constructs pain and death as jurisprudential facts. The empirical focus of these essays enables the reader to delve into both the history and the theoretical complexities of the pain-death-law relationship. The combination of the theoretical and the empirical broadens the contribution this volume will undoubtedly make to debates in which the right to live or die is the core issue at hand. This volume will be an important read for policy makers and legal practitioners and a valuable text for courses in law, the social sciences, and the humanities. Austin Sarat is William Nelson Cromwell Professor of Jurisprudence and Political Science, Amherst College.
