Language Diversity in Greece Eleni Skourtou,Vasilia Kourtis-Kazoullis,Themistoklis Aravossitas,Peter Pericles Trifonas,2020-02-25

This volume explores how linguistic and cultural diversity in Greece, caused by various waves of emigration and immigration, has transformed Greek society and its educational system. It examines the country's current linguistic diversity, which is characterised by the languages of immigrants, repatriates, refugees, Roma, Muslim minorities, and Pomaks as well as linguistic varieties and dialects; and how schools and the state have designed and implemented programmes to deal with the significant educational challenges posed by these culturally and linguistically diverse groups. In this regard, the book takes into account the nature and evolution of Greek society; Greece's traditional role as a labour-exporting country with a long history of migration to other countries; and major political, economic and social developments, such as the collapse of communism, the opening of borders in Eastern Europe, and the influx of immigrants from Muslim countries.

A Grammar of the Italian Language, Arranged in Twenty Lessons, with a Course of Exercises by Alfred Elwes Alfred Elwes,1854

Intermediate Ancient Greek Language Darryl Palmer,2021-03-23 Intermediate Ancient Greek Language is a series of Lessons and Exercises intended for students who have already covered most of an introductory course in the ancient Greek language. It aims to broaden and deepen students' understanding of the main grammatical constructions of Greek. Further attention is given to grammatical forms to illustrate their functions. In the Lessons, tragedy, comedy, historiography, oratory and philosophy are sources for dramatic material. The Cases have been deliberately placed late in the series of Lessons 36 to 41; students by now will be prepared to analyse Case usage. Consideration of prepositions in Lesson 42 naturally follows the Cases. Lesson 43, on correlative clauses, links with adjectival and adverbial constructions in previous Lessons. The final Lesson 44 deals with exclamations. Throughout the book, the author relies on genuine Greek sources for the passages in the Lessons and Exercises.

Pope, the Odyssey and the Ontology of Language Nicholas Gayle,2020-02-18 This unique study examines the interface between contemporary philosophy and literature through Alexander Pope's majestic translation of the Odyssey of Homer. Employing the lens supplied by the philosopher Graham Harman in his development of Object-Oriented Ontology, it explores the beautiful (and sometimes dazzling) figurative language of both Pope's English and Homer's Greek; in so doing, it uncovers something of the vast withdrawn and subterranean reality to which the poems can only allude, setting this against a contrasting sensual world—a world encrusted with shimmering images and objects that range from the quotidian to the metaphysically bizarre.

Early Greek Epic: Language, Interpretation, Performance Christos Tsagalis,2022-12-05 In the last fifty years major developments have taken place, both in the field of Homeric studies and in the rest of early Greek epic. These developments have not only created a more solid basis for studying the Homeric epics, but they have also broadened our horizons with respect to the place of Homeric poetry within a larger cultural milieu. The impressive advances in Hesiodic studies, the more systematic approach to the Epic Cycle, the more nuanced use and re-evaluation of dominant twentieth-century theories like Neoanalysis and Oral Theory, the study of other fragmentary Greek epic, the cognitive turn, narratology, the performance of epic poetry in the ancient and modern world, the fruitful utilization of Indo-European material, and the widely accepted recognition of the close relation between Homer and the mythology and literature of the ancient Near East have virtually shaped anew the way we read and understand Homer, Hesiod, and early Greek epic. The studies collected in this volume are informed by most of the aforementioned sub-fields and span four research areas: (i) Homer; (ii) Hesiod; (iii) the Epic Cycle; (d) the performance of epic.
