Notes from a Young Black Chef Kwame Onwuachi,Joshua David Stein,2020-03-31 “Kwame Onwuachi’s story shines a light on food and culture not just in American restaurants or African American communities but around the world.” —Questlove By the time he was twenty-seven years old, Kwame Onwuachi had opened—and closed—one of the most talked about restaurants in America. He had sold drugs in New York and been shipped off to rural Nigeria to “learn respect.” He had launched his own catering company with twenty thousand dollars made from selling candy on the subway and starred on Top Chef. Through it all, Onwuachi’s love of food and cooking remained a constant, even when, as a young chef, he was forced to grapple with just how unwelcoming the food world can be for people of color. In this inspirational memoir about the intersection of race, fame, and food, he shares the remarkable story of his culinary coming-of-age; a powerful, heartfelt, and shockingly honest account of chasing your dreams—even when they don’t turn out as you expected.

Alpha Girls Julian Guthrie,2019-04-30 An unforgettable story of four women who, through grit and ingenuity, became stars in the cutthroat, high-stakes, male dominated world of venture capital in Silicon Valley, and helped build some of the foremost companies of our time. In Alpha Girls, award-winning journalist Julian Guthrie takes readers behind the closed doors of venture capital, an industry that transforms economies and shapes how we live. We follow the lives and careers of four women who were largely written out of history - until now. Magdalena Yesil, who arrived in America from Turkey with \$43 to her name, would go on to receive her electrical engineering degree from Stanford, found some of

the first companies to commercialize internet access, and help Marc Benioff build Salesforce. Mary Jane Elmore went from the corn fields of Indiana to Stanford and on to the storied venture capital firm IVP - where she was one of the first women in the U.S. to make partner - only to be pulled back from the glass ceiling by expectations at home. Theresia Gouw, an overachieving first-generation Asian American from a working-class town, dominated the foosball tables at Brown (she would later reluctantly let Sergey Brin win to help Accel Partners court Google), before she helped land and build companies including Facebook, Trulia, Imperva, and ForeScout. Sonja Hoel, a Southerner who became the first woman investing partner at white-glove Menlo Ventures, invested in McAfee, Hotmail, Acme Packet, and F5 Networks. As her star was still rising at Menlo, a personal crisis would turn her into an activist overnight, inspiring her to found an all-women's investment group and a national nonprofit for girls. These women, juggling work and family, shaped the tech landscape we know today while overcoming unequal pay, actual punches, betrayals, and the sexist attitudes prevalent in Silicon Valley and in male-dominated industries everywhere. Despite the setbacks, they would rise again to rewrite the rules for an industry they love. In *Alpha Girls*, Guthrie reveals their untold stories.

The Cambridge Handbook of the Law of the Sharing Economy John J. Infranca, 2018-10-31 This Handbook grapples conceptually and practically with what the sharing economy - which includes entities ranging from large for-profit firms like Airbnb, Uber, Lyft, Taskrabbit, and Upwork to smaller, non-profit collaborative initiatives - means for law, and how law, in turn, is shaping critical aspects of the sharing economy. Featuring a diverse set of contributors from many academic disciplines and countries, the book compiles the most important, up-to-date research on the regulation of the sharing economy. The first part surveys the nature of the sharing economy, explores the central challenge of balancing innovation and regulatory concerns, and examines the institutions confronting these regulatory challenges, and the second part turns to a series of specific regulatory domains, including labor and employment law, consumer protection, tax, and civil rights. This groundbreaking work should be read by anyone interested in the dynamic relationship between law and the sharing economy.

100 Recipes America's Test Kitchen, 2015-10-13 A provocative, handpicked collection of relevant (and surprising) essential recipes for today's cook. We have countless recipes at our disposal today but what are the real keepers, the ones that don't just feed us when we're hungry or impress our friends on Saturday night, but inspire us to get into the kitchen? At the forefront of American cooking for more than 20 years, the editors at America's Test Kitchen have answered this question in an essential collection of recipes that you won't find anywhere else: *100 Recipes Everyone Should Know How to Make*. Organized into three recipe sections—Absolute Essentials, Surprising Essentials, and Global Essentials—each recipe is preceded by a thought-provoking essay that positions the dish. For example, *Treating Pasta Like Rice Simplifies Everything*; *A Covered Pot Is a Surprisingly Good Place to Roast a Chicken*; and *Re-imagine Pie in a Skillet to Simplify the Process*. You'll find useful workday recipes like a killer tomato sauce that's almost as easy as opening a jar of the store-bought stuff; genius techniques for producing amazing flavor—try poaching chicken breasts over a garlic-and-soy-spiked brine (trust us, it's that good); and familiar favorites

reinvigorated—the best beef stew comes from Spain (and it's even easier to make than the stateside stew you've been eating for years). Gorgeous photography (shot right in the test kitchen) accompanies every recipe, revealing the finished dish as well as highlights of its preparation. Likely to stir debate among anyone interested in food and cooking, 100 Recipes Everyone Should Know How to Make provides a snapshot of how we cook today and will galvanize even the most jaded cook to get into the kitchen. From the Hardcover edition.

Modern Chinese Real Estate Law Professor Gregory M Stein, 2013-02-28 With massive growth taking place in the real estate industry, how can China develop a free market and private ownership of land while

still officially subscribing to Communist ideology? This study uses fieldwork interviews to establish how the Chinese real estate market operates in practice from both legal and business perspectives. It describes how the market functions, which laws are applicable and how they are applied, and how a nation can achieve dramatic economic growth so rapidly while its legal system is so unsettled. The book demonstrates how China is drawing on the world for ideas while retaining a domestic system that remains essentially Chinese, and how the recent revitalization of China's real estate market has confounded the predictions of many developments economists.

The End of Ownership Aaron Perzanowski, Jason Schultz, 2018-03-16 An argument for retaining the notion of personal property in the products we “buy” in the digital marketplace. If you buy a book at the bookstore, you own it. You can take it home, scribble in the margins, put it on the shelf, lend it to a friend, sell it at a garage sale. But is the same thing true for the ebooks or other digital goods you buy? Retailers and copyright holders argue that you don't own those purchases, you merely license them. That means your ebook vendor can delete the book from your device without warning or explanation—as Amazon deleted Orwell's 1984 from the Kindles of surprised readers several years ago. These readers thought they owned their copies of 1984. Until, it turned out, they didn't. In *The End of Ownership*, Aaron Perzanowski and Jason Schultz explore how notions of ownership have shifted in the digital marketplace, and make an argument for the benefits of personal property. Of course, ebooks, cloud storage, streaming, and other digital goods offer users convenience and flexibility. But, Perzanowski and Schultz warn, consumers should be aware of the tradeoffs involving user constraints, permanence, and privacy. The rights of private property are clear, but few people manage to read their end user agreements. Perzanowski and Schultz argue that introducing aspects of private property and ownership into the digital marketplace would offer both legal and economic benefits. But, most important, it would affirm our sense of self-direction and autonomy. If we own our purchases, we are free to make whatever lawful use of them we please. Technology need not constrain our freedom; it can also empower us.

Black Food Bryant Terry, 2021-10-19 A beautiful, rich, and groundbreaking book exploring Black foodways within America and around the world, curated by food activist and author of *Vegetable Kingdom* Bryant Terry. WINNER OF THE ART OF EATING PRIZE • JAMES BEARD AWARD NOMINEE • ONE OF THE TEN BEST COOKBOOKS OF THE YEAR: *The New Yorker*, *San Francisco Chronicle*, *Boston Globe* • ONE OF THE BEST COOKBOOKS OF THE YEAR: *The Washington Post*, *Time Out*, *NPR*, *Los Angeles Times*, *Food52*, *Glamour*, *New York Post*, *Minneapolis Star Tribune*, *Vice*, *Epicurious*, *Shelf Awareness*, *Publishers Weekly*, *Library Journal* “Mouthwatering, visually stunning, and intoxicating, *Black Food* tells a global story of creativity, endurance, and imagination that was sustained in the face of dispersal, displacement, and oppression.”—Imani Perry, Professor of African American Studies at Princeton University In this stunning and deeply heartfelt tribute to Black culinary ingenuity, Bryant Terry captures the broad and divergent voices of the African Diaspora through the prism of food. With contributions from more than 100 Black cultural luminaires from around the globe, the book moves through chapters exploring parts of the Black experience, from Homeland to Migration, Spirituality to Black Future, offering delicious recipes, moving essays, and arresting artwork. As much a joyful celebration of Black culture as a cookbook, *Black Food* explores the interweaving of food, experience, and community through original poetry and essays, including *Jollofing with Toni Morrison* by Sarah Ladipo

Manyika, *Queer Intelligence* by Zoe Adjonyoh, *The Spiritual Ecology of Black Food* by Leah Penniman, and *Foodsteps in Motion* by Michael W. Twitty. The recipes are similarly expansive and generous, including sentimental favorites and fresh takes such as Crispy Cassava Skillet Cakes from Yewande Komolafe, Okra & Shrimp Purloo from BJ Dennis, Jerk Chicken Ramen from Suzanne Barr, Avocado and Mango Salad with Spicy Pickled Carrot and Rof Dressing from Pierre Thiam, and Sweet Potato Pie from Jenné Claiborne. Visually stunning artwork from such notables as Black Panther Party creative director Emory Douglas and artist Sarina Mantle are woven throughout, and the book includes a signature musical playlist curated by Bryant. With arresting artwork and innovative design, *Black Food* is a visual and spiritual feast that will satisfy any soul.

The Gendered Cyborg Fiona Hovenden, Linda Janes, Gill Kirkup, Kathryn Woodward, 2013-09-13 The Gendered Cyborg explores the relationship between representation, technoscience and gender, through the metaphor of the cyborg. The contributors argue that the figure of the cyborg offers ways of thinking about the relationship between culture and technology, people and machines which disrupt the power of science to enforce the categories through which we think about being human: male and female. Taking inspiration from Donna Haraway's groundbreaking *Manifesto for Cyborgs*, the articles consider how the cyborg has been used in cultural representation from reproductive technology to sci-fi, and question whether the cyborg is as powerful a symbol as is often claimed. The different sections of the reader explore: * the construction of gender categories through science * the interaction of technoscience and gender in contemporary science fiction film such as *Blade Runner* and the *Alien* series * debates around modern reproductive technology such as ultrasound scans and IVF, assessing their benefits and constraints for women * issues relating to artificial intelligence and the internet.

Yes, Chef Marcus Samuelsson, Veronica Chambers, 2012-06-26 JAMES BEARD AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY VOGUE • NEW YORK TIMES BESTSELLER “One of the great culinary stories of our time.”—Dwight Garner, *The New York Times* It begins with a simple ritual: Every Saturday afternoon, a boy who loves to cook walks to his grandmother's house and helps her prepare a roast chicken for dinner. The grandmother is Swedish, a retired domestic. The boy is Ethiopian and adopted, and he will grow up to become the world-renowned chef Marcus Samuelsson. This book is his love letter to food and family in all its manifestations. *Yes, Chef* chronicles Samuelsson's journey, from his grandmother's kitchen to his arrival in New York City, where his outsize talent and ambition finally come together at *Aquavit*, earning him a *New York Times* three-star rating at the age of twenty-four. But Samuelsson's career of chasing flavors had only just begun—in the intervening years, there have been White House state dinners, career crises, reality show triumphs, and, most important, the opening of *Red Rooster* in Harlem. At *Red Rooster*, Samuelsson has fulfilled his dream of creating a truly diverse, multiracial dining room—a place where presidents rub elbows with jazz musicians, aspiring artists, and bus drivers. It is a place where an orphan from Ethiopia, raised in Sweden, living in America, can feel at home. Praise for *Yes, Chef* “Such an interesting life, told with touching modesty and remarkable candor.”—Ruth Reichl “Marcus Samuelsson has an incomparable story, a quiet bravery, and a lyrical and discreetly glittering style—in the kitchen and on the page. I liked this book so very, very much.”—Gabrielle Hamilton “Plenty of celebrity chefs have a compelling story to tell, but none of them can top [this] one.”—*The Wall Street Journal* “Elegantly written . . . Samuelsson has the flavors of many countries in his blood.”—*The Boston Globe* “*Red Rooster's* arrival in Harlem brought with it a chef who has reinvigorated and reimagined what it means to be American. In his famed dishes, and now in this memoir, Marcus Samuelsson tells a story that reaches past racial and national divides to the foundations of family,

hope, and downright good food.”—President Bill Clinton
