Office Sportz Jeff Rogers,2008-09 OFFICE SPORTZ is a handbook filled with fun, exhilarating and often ridiculous games that make life in the workplace a lot more entertaining! However, a fantastic thing can happen when a team works together on something enjoyable and, yes, even goofy: actual change can occur. By that, we mean that these games can be used to create an opportunity for real growth within your organization. No, none of your staff will come out of these games better at using PowerPoint or suddenly certified to do taxes. But, what is possible-if you use these games well-is that you can create an experience for your team that results in greater cohesiveness, improved trust and more healthy communication. Studies have shown that all of these results have the effect of raising employee engagement levels which is directly linked to a healthier bottom line. The games use common office equipment and supplies to create easy, stress-free yet hilarious challenges that break up the monotony of daily corporate life and bring coworkers together in the process. Whether you are looking for a distraction from the status quo or an engaging way to increase communication, interaction, positive energy among your coworkers, OFFICE SPORTZ is the book for you!

The Business of Sports Mark Conrad,2017-02-17 The Business of Sports provides a comprehensive foundation of the economic, organizational, legal and political components of the sports industry. Geared for journalism, communication and business students, but also an excellent resource for those working in sports, this text introduces readers to the ever-increasing complexity of an industry that is in constant flux. Now in its third edition, the volume continues to offer a wealth of statistics and case studies, up to date with the newest developments in sports business and focused on cutting-edge issues and topics, including the many changes in international sports and the role of analytics in decision-making and tax rules that have a major effect on athletes and teams.

Increasing participation in sport Great Britain: National Audit Office,2010-05-27 For the three-year period to March 2008, Sport England, the Department for Culture, Media and Sport's delivery body for sports participation, spent £660 million to promote sport and physical activity. Whilst adult participation in sport over the three-year period to March 2008 increased by 520,000, the Department for Culture, Media and Sport did not meet its targets to increase participation by priority groups. In consequence, a positive conclusion by the NAO on value for money up to 2008 is not possible. As part of a new approach, the Department has set Sport England a new target, to be achieved by March 2013, of increasing by one million the number of people aged 16 and above doing three 30 minute sessions of moderate intensity sport a week. One year into the five-year delivery period an additional 115,000 people were participating in sport, against the initial delivery plan forecast of 160,000 additional participants. Sport England's new approach has a number of known risks to delivery. It is heavily dependent on a small number of sporting national governing bodies delivering 60 per cent of the increase in participation expected through governing bodies, and on key assumptions about how the activities it funds will lead to more frequent participation. Moreover, it expects the bulk of the additional participants to be delivered towards the end of the four-year target period.

The Office Accommodation of the Department for Culture, Media and Sport and Its Sponsored Bodies Great Britain: National Audit Office,2006-03-16 This report looks at the cost and utilization of the office accommodation occupied by the Department for Culture, Media and Sport and 24 of its sponsored bodies. The 25 organisations covered by this report spent some £43 million in 2004-05. The focus of the report is on cost efficiency, with consideration of two key indicators (i) the cost of space (rent, rates and operating costs such as cleaning and utilities); (ii) the way that space is used (the number of square metres per member of staff), which combined, give the measure of cost per person. The NAO sets out a number of recommendations: that all organizations should adopt the efficiency measurement as based on cost per unit of space, space per person and cost per person; that performance data in measuring efficiency should be shared across departments; further efficiency measures should be examined, including renegotiating rental payments; reducing operating costs; subletting space to others; reducing demand for workstations. Also longer term policies should be taken into consideration such as: reorganizing existing offices into more space efficient layouts; exploring the scope for achieving savings through moving premises; achieving economies of scale. Further to this, all organizations should have an accommodation strategy, and adopt a coordinated approach to property management.

Sport and Film Seán Crosson,2013-07-18 The sports film has become one of commercial cinema's most recognizable genres. From classic boxing films such as *Raging Bull* (1980) to soccer-themed box-office successes like *Bend it Like Beckham* (2002), the sports film stands at the interface of two of our most important cultural forms. This book examines the social, historical and ideological significance of representations of sport in film internationally, an essential guide for all students and enthusiasts of sport, film, media and culture. *Sport and Film* traces the history of the sports film, from the beginnings of cinema in the 1890s, its consolidation as a distinct fiction genre in the mid 1920s in Hollywood films such as Harold Lloyd's *The Freshman* (1925), to its contemporary manifestation in Oscar-winning films such as *Million Dollar Baby* (2004) and *The Fighter* (2010). Drawing on an extensive range of films as source material, the book explores key issues in the study of sport, film and wider society, including race, social class, gender and the legacy of 9/11. It also offers an invaluable guide to 'reading' a film, to help students fully engage with their source material. Comprehensive, authoritative and accessible, this book is an important addition to the literature in both film and media studies, sport studies and cultural studies more generally.
