Beta Test Eric Griffith, 2011-12 PUBLISHERS WEEKLY: An unusually lighthearted apocalyptic tale. Sam Terra is having a bad week. He lost Molly, the woman he secretly loves, when she vanished before his eyes at the exact same time that ten percent of the inhabitants of Earth disappeared. Naturally upset, Sam follows clues about the global vanishing with questionable help from his friends including a misanthropic co-worker and a childhood pal. When Molly reappears in the body of a man during a night of monster-laden devastation, Sam finally learns the truth. Not just about her, but about the planet Earth and the entire cosmos surrounding it. What we consider mundane reality, others consider a game . . . and not a very good one. The whole thing is about to be shut down.

Writing at the height of his career, Rand articulated in his slender volume the pioneering vision that all design should seamlessly integrate form and function. This facsimile edition preserves Rand's original 1947 essay with the adjustments he made to its text and imagery for a revised printing in 1970, and adds only an

informative and inspiring new foreword by design luminary Michael Bierut. As relevant today as it was when first published, this classic treatise is an indispensable addition to the library of every designer.

American Geography Matt Black, 2021-12-07 Award-winning photographer Matt Black traveled over 100,000 miles to chronicle the reality of today's unseen and forgotten America. When Magnum photographer Matt Black began exploring his hometown in California's rural Central Valley—dubbed “the other California,” where one-third of the population lives in poverty—he knew what his next project had to be. Black was inspired to create a vivid portrait of an unknown America, to photograph some of the poorest communities across the US. Traveling across forty-six states and Puerto Rico, Black visited designated “poverty areas,” places with a poverty rate above 20 percent, and found that poverty areas are so numerous that they're never more than a two-hour's drive apart, woven through

the fabric of the country but cut off from “the land of opportunity.” American Geography is a visual record of this five-year, 100,000-mile road trip, which chronicles the vulnerable conditions faced by America’s poor. This compelling compilation of black-and-white photographs is accompanied by Black’s own travelogue—a collection of observations, overheard conversations in cafe’s and public transportation, diner menus, bus timetables, historical facts, and snippets from daily news reports. A future classic of photography, this monograph is supported by an international touring exhibition and is a must-have for anyone with an interest in witnessing the reality of an America that’s been excluded from the American Dream.

Life Off the Label Colleen Kachmann, 2016-11 Colleen Kachmann kept a close eye on calories, was active with her four energetic children, and exercised regularly. But her best efforts were futile against midlife reality. Dieting led to weight gain. Her emotions were unstable. Her body hurt. Various medications proved ineffective. She wasn't sick, exactly, but she wasn't healthy, either. Sound familiar? Life Off the Label details Colleen's dedicated efforts to live and be well, only to discover she wasn't. She's not alone. Seventy percent of Americans are overweight and take at least one medication. Colleen did not want to be a statistic, so she deconstructed the habits and beliefs that limited her potential. What she discovered will change your life.
