Ryan Ferrier, KC Green

*For the Sake of Hugh Manatee* Pete Hodgson, Udo Wahn, 2013-08-30 Stand up with Maddie and Hugh the manatee as they paddle from the sea and up a river. On their exploration they find problems with the watershed that are adversely affecting Hugh and humanity. Along with a group of migratory animals that they meet on the way they come up with a call to action plan to make the water quality better.

Confessions of a Word Lush James Harbeck, 2018-04-14 Words are delicious and intoxicating—sometimes a bit too much so. As with other intoxicants, if you take them in excess you may end up getting carried away. Indulge in these eighty-nine tales of wordly wantonness with the members of the Order of Logogustation and other lexical reprobates from *Sesquiotica* by James Harbeck, master word taster and sentence sommelier. All characters and events described here are fictitious—but all the linguistic and historical facts are absolutely true. (No words were harmed in the making of this book.)

*The Dating Plan* Sara Desai, 2021-03-16 A Marie Claire Book Club Pick! Even with a step-by-step plan, these fake fiancés might accidentally fall for each other in this hilarious, heartfelt romantic comedy from the author of *The Marriage Game*. Daisy Patel is a software engineer who understands lists and logic better than bosses and boyfriends. With her life all planned out, and no interest in love, the one thing she can't give her family is the marriage they expect. Left with few options, she asks her childhood crush to be her decoy fiancé. Liam Murphy is a venture capitalist with something to prove. When he learns that his inheritance is contingent on being married, he realizes his best friend's little sister has the perfect solution to his problem. A marriage of convenience will get Daisy's matchmaking relatives off her back and fulfill the terms of his late grandfather's will. If only he hadn't broken her tender teenage heart nine years ago... Sparks fly when Daisy and Liam go on a series of dates to legitimize their fake relationship. Too late, they realize that very little is convenient about their arrangement. History and chemistry aren't about to follow the rules of this engagement.

*Surfing through Hyperspace* Clifford A. Pickover, 2001-05-17 Do a little armchair time-travel, rub elbows with a four-dimensional intelligent life form, or stretch your mind to the furthest corner of an uncharted universe. With this astonishing guidebook, *Surfing Through Hyperspace*, you need not be a mathematician or an astrophysicist to explore the all-but-unfathomable concepts of hyperspace and higher-dimensional geometry. No subject in mathematics has intrigued both children and adults as much as the idea of a fourth dimension. Philosophers and parapsychologists have meditated on this mysterious space that no one can point to but may be all around us. Yet this extra dimension has a very real, practical value to mathematicians and physicists who use it every day in their calculations. In the tradition of *Flatland*, and with an infectious enthusiasm, Clifford Pickover tackles the problems inherent in our 3-D brains trying to visualize a 4-D world, muses on the religious implications of the existence of higher-dimensional consciousness, and urges all curious readers to venture into the unexplored territory lying beyond the prison of the obvious. Pickover alternates sections that explain the science of hyperspace with sections that dramatize mind-expanding concepts through a fictional dialogue between two futuristic FBI agents who dabble in the fourth dimension as a matter of national security. This highly accessible and entertaining approach turns an

intimidating subject into a scientific game open to all dreamers. *Surfing Through Hyperspace* concludes with a number of puzzles, computer experiments and formulas for further exploration, inviting readers to extend their minds across this inexhaustibly intriguing scientific terrain.

The babies go head to head for who can tell the best tale of the mighty Reptar and Grandpa Boris tries to delight with the story of Chanukah. But when his memory fails him, it's up to Tommy and the gang to save the holiday. This collection of Rugrats romps features stories written by Nicole Andelfinger (Adventure Time Comics), Daniel Kibblesmith (Valiant High), and Cullen Crawford (The Late Show with Stephen Colbert) with art by Kate Sherron (The Amazing World of Gumball), Brittney Williams (Goldie Vance), and many more.

Manatees, Our Vanishing Mermaids M. Timothy O'Keefe, 1993 Manatees are among nature's strangest-looking, gentlest animals. They're among America's most endangered mammals and were the basis for ancient tales of mermaids, legendary creatures that were half-fish and half-human.

**Touch Wood** Brock Barrack, 2010-12-14 Mutilated bodies of young women are being deposited about the city. The police are top heavy, understaffed and indifferent. Something should be done, however. People are encountering corpses in strange places. And complaining about it. So private security firm CORE is asked to step in. Investigate. If possible, dispatch the perpetrators. Who better to follow up the assignment than rugged contractor Mitch Milligan? Ex-hockey enforcer and partyboy thug. Just about anyone, actually. Because Milligan's true forte is terrorgating those citizens CORE has determined need their heads screwed on tighter. That includes Islamic fanatics, government dickheads, loudmouth women and bad engineers. It's a great job, he loves doing it, and he's good at it. Too good. He gets promoted. So, with the aid of new partner Yaz Maeda, acting detective Magnet Milligan sets out in half-assed fashion to find the killer or killers. Despite failing to follow up several promising leads, the team learn a shadowy organization known as The Ovarians may be responsible. After that, it's a full-on ride of madness and mayhem. Obvious clues are finally acted on, villains turn tummy up, and an evil rat takes the long bath in Florida. Mitch Milligan and the CORE crew. They get things done, undercover or under the covers. *Try to Run* Joshua Green, 2022-07-20 For those classified as morbidly obese, it has always been their body, choice, and life. If others don't like it, that is their business—except it is their business now. Sadly, times have changed for those who appear unable to care for themselves and deemed to be a drain on the system. Growing pressure to galvanize the population for the harsh conditions of a new world has led to changes in laws. Those who cannot reduce their bulk to the government-ordained targets are imprisoned in life centers where they must remain until they are deemed healthy again. Naturally this decision prompts outrage and furious debate about freedom and life choices. Feeders, normally labeled as caring enablers, are now classified as abusers and treated as criminals. As the brave stand up to outrageous new laws on behalf of their partners, they must go underground or on the run to evade the law. But will they find a way around all their obstacles? In this science fiction novel, death and loss surround a changed world as its

inhabitants battle a principle worth fighting for amid hunger, illness, guilt, past demons, and a heatwave.

*Sooner Or Later, They'll Turn on You! - Selected Songs & Poems - 2013-2014*  
Trevor Patrick,2014-08-11 The next stop along a poetic journey, which began with Shattered Images, and continued with The Problem With Revolution; the overarching theme of *Sooner or Later, They'll Turn on You!* is one of betrayal. We betray our family, we betray our so-called 'friends', we betray those, who care about us, we betray our community, our society, and our nation, but most of all, we betray our own ethics and beliefs. Worst of all, is that betrayal doesn't always go to the highest bidder. Sometimes the greatest betrayals are bought and sold for worthless trinkets, and empty promises...

*Manatee Insanity* Craig Pittman,2010-05-09 The quiet manatee has long been a flash point of frequent environmental debates. It is Florida's most famous endangered species, as well as its most controversial. Manatees appear on hundreds of license plates, attract hordes of tourists, and expose the uneasy relationships between science and the law and between freedom and responsibility like no other animal. As passions have flared and resentments have grown, the battle over manatee protection has evolved into a war, and no reporter has followed the story more closely than Craig Pittman, the first environmental writer to explore the complex history, culture, and science of the controversies and concerns surrounding this remarkable creature. With an abiding interest in the uncertain fate of this unique species, *Manatee Insanity* provides the first in-depth history of the attempts to provide legal protection for the manatee. Pittman follows Florida's gentle giants through time and space, detailing interactions with a variety of human actors, from Jacques-Yves Cousteau to Jeb Bush to Jimmy Buffett, from a popular children's book author to a federal lawyer who dressed in a gorilla suit for the ultimate undercover assignment.

*Rocko's Modern Life #1* Ryan Ferrier,KC Green,2017-12-06 Ryan Ferrier (Regular Show) and Ian McGinty (Adventure Time) continue BOOM! **The Missing Manatee** Cynthia DeFelice,2015-04-21 A tribute to Florida, fishing, and family All Skeet Waters wants is to catch a big, beautiful tarpon on his fly rod - and to keep everything else in his life in Florida the way it's always been. But on his spring break from school, Skeet overhears his mother telling his father to move out permanently. Then, while riding in his boat to escape his parents' troubles, he discovers a manatee that's been shot in the head. Skeet puts aside his search for the manatee and its killer when Dirty Dan the Tarpon Man offers to take him out to catch his first tarpon on a fly. Because of Dan, Skeet begins to unravel the mysteries surrounding the manatee's apparent murder and his parents' dissolving marriage. Skeet discovers that life is a lot like tarpon fishing, in which you can't look just at the surface of the water - you have to look through it, at what lies beneath. *The Missing Manatee* is a nominee for the 2006 Edgar Award for Best Juvenile Mystery

**Annoying Diabetic Bitch** Sharon Mesmer,2007 Poetry. Sharon Mesmer is not only provocative, but also confrontational in her new book of poems, ANNOYING DIABETIC BITCH. The namesake poem appears first in the book and screams curses and prideful incantations regarding the diabetic condition at its audience. The book is divided into eight sections riddled with shocking images like a little white boy shooting a rather alarming streak of pee into the nose of Jesus while one poem asks the question Who Put the Frog in Grandma's Shit? With an imagination driven by a raw and bestial point of view, Mesmer aggressively takes her reader into a world in which the laws of conduct do not apply, and the reader is all the more pleased with their findings. Sharon Mesmer is always interesting, beautifully bold and vivaciously modern--Allen Ginsberg.
