The Invisible Hands Steven Drobny,2010-03-19 Timely investment advice from the investors who survived—and thrived—during the economic crisis In light of the colossal losses and ongoing difficulties caused by the financial crisis, it's obvious that the time has come to rethink money management in the broadest of terms. Drastic changes are clearly in order, but no new model has yet been implemented. Steven Drobny explores a new model from a simple starting point—by consulting the traders and managers who actually made money during this profoundly difficult period. In *The Invisible Hands*, top global macro managers reveal their own (clearly successful) approaches to markets and risk, suggesting important tenets for money management in a future, precarious world. Providing money managers and investors with the proven expertise of the best and most successful players in money management and detailing many specific elements of their risk management processes, *The Invisible Hands*: Outlines investment strategies for the rocky road ahead Provides guidance on how real money managers can implement certain elements of macro hedge fund strategies, developing a new paradigm of portfolio construction anchored in superior risk management Reveals intimate aspects of the investment processes of some of today's top hedge fund managers The book highlights the similarities among successful traders, showing that the investment process should be anchored in understanding the true risk-adjusted returns in your portfolio.

40 Tall Tabloid Tales and 4 Super Short Stories Scott Ware,2005-09 Do you like reading those hilarious tabloid news stories about Aliens, Bigfoot, dumb crooks, super-powered household pets, and incredible but true current event stories from tabloids? Do you also hate all the raunchy pictures, perverted stories, Hollywood gossip, and ads for implants, piercing and psychics? Me too. Instead of paying \$3 to wade through all that garbage (that your kids will read also) to get 2 or 3 amusing stories an issue, why not get 40 funny, bite-size tales that can be consumed in a few minutes each? These are laughs you can share with family, friends, and co-workers. Pastor Pete, Sister Sally, and even your in-laws won't be embarrassed. The 4 short stories require 10-30 minutes per read. A Real Life Superhero is the inspirational account of a kind-hearted loser who always dreamed of being a superhero. Would people ever appreciate his life of good deeds? Not Just a Cat may be just a tad out there. The protagonist suffers a debilitating on-the-job back injury, which results in lying around the house, and taking pain pills complements of Workman's Compensation. After a few months, he thinks his cat is talking to him. All's well that ends well in this tale of temporary delusional hijacks. Missy's Bear is a refreshing (compared to my other stories) bedtime story I made up for my own daughters when they were young. A precocious little girl befriends a talking bear. There you have it folks. 44 original stories to keep you chuckling through the day.

Petrocinema Marina Dahlquist,Patrick Vonderau,2021-01-28 Petrocinema presents a collection of essays concerning the close relationship between the oil industry and modern media-especially film. Since the early 1920s, oil extracting companies such as Standard Oil, Royal Dutch/Shell, ConocoPhillips, or Statoil have been producing and circulating moving images for various purposes including research and training, safety, process observation, or promotion. Such industrial and sponsored films include documentaries, educationals, and commercials that formed part of a larger cultural project to transform the image of oil exploitation, creating media interfaces that would allow corporations to coordinate their goals with broader cultural and societal concerns. Falling outside of the domain of conventional cinema, such films firmly belong to an emerging canon of sponsored and educational film and media that has developed over the past decade. Contributing to this burgeoning field of sponsored and educational film scholarship, chapters in this book bear on the intersecting cultural histories of oil extraction and media history by looking closely at moving image imaginaries of the oil industry, from the earliest origins or "spills" in the 20th century to today's post industrial "petromelancholia."
