My Ideal Bookshelf Thessaly La Force,2012-11-13 The books that we choose to keep -- let alone read -- can say a lot about who we are and how we see ourselves. In *My Ideal Bookshelf*, dozens of leading cultural figures share the books that matter to them most; books that define their dreams and ambitions and in many cases helped them find their way in the world. Contributors include Malcolm Gladwell, Thomas Keller, Michael Chabon, Alice Waters, James Patterson, Maira Kalman, Judd Apatow, Chuck Klosterman, Miranda July, Alex Ross, Nancy Pearl, David Chang, Patti Smith, Jennifer Egan, and Dave Eggers, among many others. With colorful and endearingly hand-rendered images of book spines by Jane Mount, and first-person commentary from all the contributors, this is a perfect gift for avid readers, writers, and all who have known the influence of a great book.

The Book on the Bookshelf Henry Petroski,2010-12-01 From the author of the highly praised *The Pencil* and *The Evolution of Useful Things* comes another captivating history of the seemingly mundane: the book and its storage. Most of us take for granted that our books are vertical on our shelves with the spines facing out, but Henry Petroski, inveterately curious engineer, didn't. As a result, readers are guided along the astonishing evolution from papyrus scrolls boxed at Alexandria to upright books shelved at the Library of Congress. Unimpeachably researched, enviably written, and charmed with anecdotes from Seneca to Samuel Pepys to a nineteenth-century bibliophile who had to climb over his books to get into bed, *The Book on the Bookshelf* is indispensable for anyone who loves books.

The Home Edit Clea Shearer,Joanna Teplin,2019-03-19 NEW YORK TIMES BESTSELLER • From the stars of the Netflix series *Get Organized with The Home Edit* (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. “A master class on how to arrange even your most unattractive belongings—and spaces—in an aesthetically pleasing and easy-to-navigate way.”—*Glamour* (10 Books to Help You Live Your Best Life) Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it's not hard to do—in fact, it's a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea's signature approach to decluttering. *The Home Edit* walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don't need another do-over in six months. When you're done, you'll not only know exactly where to find things, but you'll also love the way it looks. A masterclass and look book in one, *The Home Edit* is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there's nothing like a little ROYGBIV to soothe the soul). Above all, it's like having your best friends at your side to help you turn the chaos into calm. Includes a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397).

The Faun's Bookshelf Charlie W. Starr,2018 While visiting with Mr. Tumnus in The Lion, the Witch and the Wardrobe, Lucy Pevensie notices a bookshelf filled with such titles as Nymphs and Their Ways and Is Man a Myth? Beginning with these imaginary texts, Charlie W. Starr offers a comprehensive study of C. S. Lewis's theory of myth, including his views on Greek and Norse mythology, the origins of myth, and the implications of myth on thought, art, gender, theology, and literary and linguistic theory. For Lewis, myth represents an ancient mode of thought focused in the imagination--a mode that became the key that ultimately brought Lewis to his belief in Jesus Christ as the myth become fact. Beginning with a fThe Faun's Bookshelf goes on to discuss the many books Lewis imagined throughout his writings--books whose titles he made up but never wrote. It also presents the sylvan myths central to the first two book titles in Mr. Tumnus's library, including explorations of the relationship between myth and reality, the spiritual significance of natural conservation, and the spiritual and incarnational qualities of gender. Starr then turns to the definition of myth, the literary qualities of myth, the mythic nature inherent in divine glory, humanity's destiny to embrace (or reject) that glory, and a deeper exploration of the epistemological ramifications of myth in relation to meaning, imagination, reason, and truth.

Every shelf is different and every bookshelf tells a different story. One bookshelf can creak with character in a bohemian coffee shop and another can groan with gravitas in the Library of Congress. Writer and historian Lydia Pyne finds bookshelves to be holders not just of books but of so many other things: values, vibes, and verbs that can be contained and displayed in the buildings and rooms of contemporary human existence. With a shrewd eye toward this particular moment in the history of books, Pyne takes the reader on a tour of the bookshelf that leads critically to this juncture: amid rumors of the death of book culture, why is the life of the bookshelf in full bloom?
