Enhanced Living Environments Ivan Ganchev,Nuno M. Garcia,Ciprian Dobre,Constandinos X. Mavromoustakis,Rossitza Goleva,2019-01-18 This open access book was prepared as a Final Publication of the COST Action IC1303 "Algorithms, Architectures and Platforms for Enhanced Living Environments (AAPELE)". The concept of Enhanced Living Environments (ELE) refers to the area of Ambient Assisted Living (AAL) that is more related with Information and Communication Technologies (ICT). Effective ELE solutions require appropriate ICT algorithms, architectures, platforms, and systems, having in view the advance of science and technology in this area and the development of new and innovative solutions that can provide improvements in the quality of life for people in their homes and can reduce the financial burden on the budgets of the healthcare providers. The aim of this book is to become a state-of-the-art reference, discussing progress made, as well as prompting future directions on theories, practices, standards, and strategies related to the ELE area. The book contains 12 chapters and can serve as a valuable reference for undergraduate students, post-graduate students, educators, faculty members, researchers, engineers, medical doctors, healthcare organizations, insurance companies, and research strategists working in this area.

Auscultation Skills ,2009-10-01 This book-and-audio-CD package offers nurses, nurse practitioners, and physician assistants a solid basis for recognizing and differentiating among abnormal breath and heart sounds. Forty-six tracks of breath sounds and 50 heart sounds complement the full-color text.

Technocreep Thomas P. Keenan,2014-09-13 "Technology is rapidly moving into our bodies," writes cyber expert Keenan, "and this book gives a chilling look ahead into where that road may lead us – on a one way trip to the total surrender of privacy and the commoditization of intimacy." Here is the definitive dissection of privacy-eroding and life-invading technologies, coming at you from governments, corporations, and the person next door. Take, for example, "Girls Around Me": a Russian-made iPhone App that allowed anyone to scan the immediate vicinity for girls and women who checked in on Foursquare and had poorly secured Facebook profiles. It combined this information in a way never intended by the original poster. Going to a Disney theme park? Your creepy new "MagicBand" will alert Minnie Mouse that you're on the way and she'll know your kid's name when you approach her. Thinking about sending your DNA off to Ancestry.com for some "genetic genealogy"? Perhaps you should think again: your genetic information could be used against you. With security scares like the Heartbleed bug (which compromised even supposedly safe internet behemoths like Google and Yahoo!) becoming more commonplace, this book is a must-read for anybody who values their privacy in a wired world.

Surviving House Arrest Halle Cooper,2016-11-08 Everyone makes mistakes. The only thing that matters is if you learned from those mistakes and you are doing what you can to move forward with your life. Surviving House Arrest is a bold and brutally honest recount of the life that faces a person when they choose house arrest in a plea arrangement. Cooper gives insight to the trials and tribulations from being within the criminal justice system in a raw and disarming clarity. She draws an intimate portrait of the effect that house arrest has on the individual and their family, as well as the communities that they live in. Surviving House Arrest shows how you can weather the daunting sacrifices and come to achieve personal growth within a system that is systematically designed for you to fail. With your extra time, Cooper shows you how, with a little effort, you can work towards a better life. As an ever-growing alternative to jail, offenders should be completely aware of the punishment that they are signing up for.

Emerging Trends in Environmental Biotechnology Sukanta Mondal,Shivesh Pratap Singh,Yogendra Kumar Lahir,2022-07-04 The environment is an all-encompassing component of the ecosystem of Blue planet - the earth, made up of the hydrosphere, atmosphere and lithosphere. These three spheres have biotic and abiotic components which exhibit ecological homeostasis that provides the most appropriate survival chances for the members of biotic component and geochemical balance with abiotic components. This ecosystem is subjected to relatively harsh conditions, mostly created by the disastrous activities due to natural calamities and intentional and/or accidental anthropogenic activities. Biotechnology has become a potential tool to dissipate such environmental impacts because of the advancement it has undergone recently. *Emerging Trends in Environmental Biotechnology* is an outstanding collection of current research that integrates basic and advanced concepts of biotechnology such as genomics, proteomics, bioinformatics, sequencing, and imaging processes to improvise and protect the environment. This book is particularly attractive for scientists, researchers, students, educators and professionals in environmental science, agriculture, veterinary and biotechnology science. The book will enable them to solve the problems about sustainable development with the help of current innovative biotechnologies such as recombinant DNA technology and genetic engineering which have tremendous potential for impacting global food security, environmental health, human and animal health and overall livelihood of mankind. Features Presents easy-to-read chapters Information is presented in a very accessible and logical format Identifies and explores biotechnological approaches for environmental protection Encompasses biodegradation of hazardous contaminants, biotechnology in waste management, nanotechnology, and issues in environmental biotechnology research

Home Networking Khaldoun Al Agha,Xavier Carcelle,Guy Pujolle,2007-12-05 The Home Networking Conference 2007 provided an international technical forum for experts from industry and academia everywhere in the world to exchange ideas and present results of ongoing researches in home networking. The IFIP series publishes state-of-the-art results in the sciences and technologies of information and communication. Proceedings and post-proceedings of referred international conferences in computer science and interdisciplinary fields are featured.

What Works in Offender Compliance Pamela Ugwu-dike,2013-09-03 This comprehensive edited collection draws together the latest international literature on offender compliance during penal supervision and after court orders expire. Outlining emerging developments in compliance research, theory, policy and practice, this book considers a wide range of offenders including women and young people.

Telecommunications Law in South Africa Lisa Thornton,2006 Providing a detailed overview of the policy, law, and regulation of telecommunications in South Africa, this guide explores important regulatory topics, including licensing, interconnection, and facilities leasing, and examines economics, technologies, and the Electronic Communications and Transactions Act.

Police Matt Javit,2019-09-11 POLICE: Brotherhood in Uniform Around the World is a photography book showcasing police officers encountered during Matt Javit's 800-day journey around the world. 89 large-format color photographs from 60+ cities celebrate police who, while performing daily duties, paused to show off their uniforms proudly.

Battletech Field Manual FASA Corporation,1997-05 The Free Worlds League (FWL) field manual provides an extensive survey of House Marik's Free Worlds League, one of the major Inner Sphere military powers. The manual includes a full military history of the rebellion-riddled confederation, from the Succession Wars to the Andurien Civil War and beyond, and profiles of every League regiment, including the elite Marik Guard and the chivalrous Knights of the Inner Sphere. Also included are color renderings of FWL uniforms and insignia and special rules for new, exclusive League weapons and BattleMechs.

Informed Urban Transport Systems Joseph Chow,2018-07-25 Informed Urban Transport Systems examines how information gathered from new technologies can be used for optimal planning and operation in urban settings. Transportation researchers, and those from related disciplines, such as artificial intelligence, energy, applied mathematics, electrical engineering and environmental science will benefit from the book's deep dive into the transportation domain, allowing for smarter technological solutions for modern transportation problems. The book helps create solutions with fewer financial, social, political and environmental costs for the populations they serve. Readers will learn from, and be able to interpret, the information and data collected from modern mobile and sensor technologies and understand how to use system optimization strategies using this information. The book concludes with an evaluation of the social and system impacts of modern transportation systems. Takes a fresh look at transportation systems analysis and design, with an emphasis on urban systems and information/data use Serves as a focal point for those in artificial intelligence and environmental science seeking to solve modern transportation problems Examines current analytical innovations that focus on capturing, predicting, visualizing and controlling mobility patterns Provides an overview of the transportation systems benefitting from modern technologies, such as public transport, freight services and shared mobility service models, such as bike sharing, peer-to-peer ride sharing and shared taxis

Battletech Technical Readout: 3055 Upgrade Herbert A Beas, II,Randall N Bills,Loren Coleman,Warner Doles,Chris Hartford,David L McCullough,2012-01-18

Satellite Communications Technology Robert L. Douglas,1988
Local Government Emergency Planning United States. Federal Emergency Management Agency,1982
The Australian Official Journal of Trademarks ,1906

Battletech Technical Readout 3145 Catalyst Game Labs,2013-09-11 The great experiment that was the Republic of the Sphere has failed. Withdrawn behind the Fortress walls, the once-great power has become a silent, opaque remnant of its former glory. Without its influence, old hatreds have risen anew. As war once more rages across the Inner Sphere, new equipment strides across ancient battlefields. Technology, once stagnated by trade restrictions and peace treaties, now surges forward again, testing these new machines in the fierce crucible of war. Technical Readout: 3145 introduces the latest wave of new battle armor, vehicle, 'Mech, and aerospace units appearing in the Republic Armed Forces and across the Inner Sphere in the Dark Age era. Featuring new equipment described in Era Report: 3145 and Field Manual: 3145, this book brings players an update on the advancing technologies used in the battlefields of the thirty-second century.
