**Vienna** Angus Robertson, 2021-10-07 Vienna is unique amongst world capitals in its consistent international importance over the centuries. From the ascent of the Habsburgs as Europe's leading dynasty to the Congress of Vienna, which reordered Europe after Napoleon, to bridge-building summits during the Cold War, it is the Austrian capital that has been the scene of key moments in European and world affairs. History has been shaped by scores of figures influenced by their time in Vienna, including: Empress Maria Theresa, Count Metternich, Bertha von Suttner, Theodore Herzl, Gustav Mahler, Adolf Hitler, Josef Stalin, John F. Kennedy and many others. In a city of great composers and thinkers it is here that both the most positive and destructive ideas of recent history have developed. From its time as the capital of an imperial superpower, through war, dissolution, dictatorship to democracy Vienna has reinvented itself and its relevance to the rest of the world.

**Broadcasting on the Short Waves, 1945 to Today** Jerome S. Berg, 2008-10-24 Shortwave broadcasting originated in the 1920s, when stations used the new technology to increase their range in order to serve foreign audiences and reach parts of their own country not easily otherwise covered. The early days of shortwave radio were covered in *On the Short Waves, 1923-1945: Broadcast Listening in the Pioneer Days of Radio*, published by McFarland in 1999 (paperback 2007). Then, two companion volumes were published, picking up the story after World War II. They were *Listening on the Short Waves, 1945 to Today* (McFarland, 2008; paperback 2010), which focuses on the shortwave listening community, and the present *Broadcasting* title, about the stations themselves and their environment. The heart of the book is a detailed, year-by-year account of the shortwave bands in each year from 1945 to 2008. It reviews what American listeners were hearing on the international and domestic shortwave bands, describes the arrivals and departures of stations, and recounts important events. The book describes the several categories of broadcasters--international, domestic, private, religious, clandestine and pirate. It explains the impact of relay stations, frequency management, and jamming. It also addresses the considerable changes in shortwave broadcasting since the end of the Cold War. The book is richly illustrated and indexed, and features a bibliography and extensive notes.
