ReFocus: The Films of Xavier Dolan Andree Lafontaine,2019-07-29 As the first book-length study about Dolan, with case studies of key films like *Mommy* (2014), *Tom at the Farm* (2013) and *It's Only the End of the World* (2016), this volume explores the global reach of small national and subnational cinemas.

Readings in Health Care Ethics - Second Edition Elisabeth (Boetzkes) Gedge,Wilfrid J. Waluchow,2012-03-14 *Readings in Health Care Ethics* provides a wide-ranging selection of important and engaging contributions to the field of health care ethics. The second edition adds a chapter on health care in Canada, and the introduction has been expanded to include discussion of a new direction in feminist naturalized ethics. The book presupposes no prior knowledge, only an interest in the bioethical issues that are shaping our world.

Regulating Screens André H. Caron,Ronald I. Cohen,2013-09-01 The digital age has carried with it a tsunami of change. Children who have grown up with the delivery platforms that are a part of that change are now able to absorb more and more unregulated media on their own, often without any supervision. Bedroom computers, tablets, and smart phones provide private, individualized access to all kinds of content that may not be suitable for children. What rules and regulations exist to counter this potentially threatening environment? In *Regulating Screens*, André Caron and Ronald Cohen examine how governments and non-governmental organizations have been doing their part to make television and the Internet safer for children. In practical terms, they provide parents, educators, and politicians with an up-to-date inventory of the existing laws, codes, and standards in Canada, as well as information on who administers them and how they can be accessed. Given the Internet's global reach, Caron and Cohen also describe access controls in place in the United States, Australia, the United Kingdom, and the European Union. *Regulating Screens* offers efficient access to otherwise scattered and difficult-to-find information; it is essential reading for anyone interested in how to safeguard children against risky content, whether accessed on broadcast or virtual platforms.

Manitoba Medicine Ian Carr,Robert E. Beamish,1999-11-30 For many Canadians, the state of our health care and medical system is at the top of the public agenda. By following the growth and development of modern medicine in one Canadian province, *Manitoba Medicine* provides an insight into where our present medical system came from and how it developed. Beginning with a description of some early Aboriginal healing practices and of the physicians of the Red River Settlement, *Manitoba Medicine* follows the struggles in the 1870s to establish what would become the first medical college and the first major hospitals in Western Canada. It chronicles the fight for public health in the 1920s, the development of health insurance and medicare after WWII, and medicine's role in fighting the 1950 Winnipeg Flood and the polio epidemic of the late 1950s. *Manitoba Medicine* also provides vivid accounts of many of the individuals who built Manitoba's medical system, including early educators like Swale Vincent, pioneering women physicians such as Charlotte Ross, important researchers like Bruce Chown, and colourful private practitioners such as Murrough O'Brien.

Pocket Drive-in Locator Jennifer Sherer Janisch,2004 Have you noticed that drive-ins are experiencing a revival lately? Several drive-ins have been renovated and reopened, new ones have been built, and some have even added screens. Drive-in culture is thriving these days. Because of their nostalgic appeal, drive-ins offer a refreshingly unique alternative to cineplexes and other forms of today's commercialized entertainment. Drive-

in movies appeal to young and old alike, especially families, all looking for good value for their entertainment dollar. Drive-ins are more than just movies; they're about starry nights, cruisin' in and cookin' out. They can offer quality programming, special events, and in-car stereo sound. If you or someone you know is thinking about visiting a drive-in, or just heading out on a cross country road trip, the Pocket Drive-In Locator is just the ticket. This quick reference of over 500 operating drive-in movie theaters around the world, lets you find drive-ins by name or metropolitan area. The United States drive-in listings are even cross-referenced with a state map providing approximate locations. You can also consult special sections highlighting Route 66 drive-ins and drive-ins operating all year. The Pocket Drive-In Locator is brought to you by brother-and-sister team, Kipp Sherer and Jennifer Sherer Janisch, who have been researching drive-ins since 1995 when they decided the world needed more good drive-ins. Their website, Drive-ins.com and this pocket guide are byproducts of their drive-in research over the years combined with contributions from drive-in goers and enthusiasts around the world. Today, the duo continues to research drive-ins in preparation for an entertainment facility they will open in Las Vegas, Nevada. They also make frequent road trips and visit drive-ins across the country whenever they can, sharing their experiences via the World Wide Web at Drive-ins.com.

Don Proch Patricia Bovey,2019-03-01 Since 1970, Manitoba artist Don Proch has built an astonishing body of work evoking a semi-mythical Prairie past and an unsettled and unresolved modernity. In his complex sculptures and life-size masks, Proch combines intricate draftsmanship with natural and found materials in surprising and transformative ways. Proch grew up in the farmland of north-central Manitoba. Using the rolling hills and unique parkland vistas of the Asessippi valley he creates a complex personal iconography based on prairie life, landscape, geology and history. The result is what art critic Robert Enright called "inexplicable as a miracle." Proch first came to the Canadian art world's attention as part of a group of radical young artists in the 1970s, intent on shaking up the art establishment. His complex installations, masks, and silkscreen prints quickly established his reputation as an innovator with a unique vision. Today he is recognized as one of the most influential visual artists to come out of western Canada, and his work can be found in major public and corporate collections including Canada's major art galleries. Richly illustrated with more than 80 plates, the book includes rare excerpts from Proch's notebooks that reveal his intricate working process. Surveying the course of Proch's career, curator and art historian Patricia Bovey discusses the themes and influences behind his work and their context within the history of Canadian art.

Manitoba Politics and Government Paul Thomas,Curtis Brown,2010-09-01 Manitoba has always been a province in the middle, geographically, economically, and culturally. Lacking Quebec's cultural distinctiveness, Ontario's traditional economic dominance, or Alberta's combustible mix of prairie populism and oil wealth, Manitoba appears to blend into the background of the Canadian family portrait. But Manitoba has a distinct political culture, one that has been overlooked in contemporary political studies. Manitoba Politics and Government brings together the work of political scientists, historians, sociologists, economists, public servants, and journalists to present a comprehensive analysis of the province's political life and its careful "mutual fund model" approach to economic and social policy that mirrors the steady and cautious nature of its citizens. Moving beyond the Legislature, the authors address contemporary social issues like poverty, environmental stewardship, gender equality, health care, and the province's growing Aboriginal

population to reveal the evolution of public policy in the province. They also examine the province's role at the intergovernmental and international level. **Manitoba Politics and Government** is a rich and fascinating account of a province that strives for the centre, for the delicate middle ground where individualism and collectivism overlap, and where a multitude of different cultures and traditions create a highly balanced society.
