Pedestrian Facilities Users Guide: Providing Safety and Mobility Charles V. Zegeer,2002 This guide is intended to provide information on how to identify safety and mobility needs for pedestrians with the roadway right-of-way. Useful for engineers, planners, safety professionals and decision-makers, the guide covers such topics as: the Walking Environment including sidewalks, curb ramps, crosswalks, roadway lighting and pedestrian over and under passes; Roadway Design including bicycle lanes, roadway narrowing, reducing the number of lanes, one-way/two-way streets, right-turn slip lanes and raised medians; Intersections with roundabouts, T-intersections and median barriers; and Traffic calming designs.

Your Post Has Been Removed Frederik Stjernfelt,Anne Mette Lauritzen,2019-01-01 This open access monograph argues established democratic norms for freedom of expression should be implemented on the internet. Moderating policies of tech companies as Facebook, Twitter and Google have resulted in posts being removed on an industrial scale. While this moderation is often encouraged by governments - on the pretext that terrorism, bullying, pornography, hate speech and fake news will slowly disappear from the internet - it enables tech companies to censure our society. It is the social media companies who define what is blacklisted in their community standards. And given the dominance of social media in our information society, we run the risk of outsourcing the definition of our principles for discussion in the public domain to private companies. Instead of leaving it to social media companies only to take action, the authors argue democratic institutions should take an active role in moderating criminal content on the internet. To make this possible, tech companies should be analyzed whether they are approaching a monopoly. Antitrust legislation should be applied to bring those monopolies within democratic governmental oversight. Despite being in different stages in their lives, Anne Mette is in the startup phase of her research career, while Frederik is one of the most prolific philosophers in Denmark, the authors found each other in their concern about Free Speech on the internet. The book was originally published in Danish as Dit opslag er blevet fjernet - techgiganter & ytringsfrihed. Praise for 'Your Post has been Removed' From my perspective both as a politician and as private book collector, this is the most important non-fiction book of the 21st Century. It should be disseminated to all European citizens. The learnings of this book and the use we make of them today are crucial for every man, woman and child on earth. Now and in the future. Jens Rohde, member of the European Parliament for the Alliance of Liberals and Democrats for Europe This timely book compellingly presents an impressive array of information and analysis about the urgent threats the tech giants pose to the robust freedom of speech and access to information that are essential for individual liberty and democratic self-government. It constructively explores potential strategies for restoring individual control over information flows to and about us. Policymakers worldwide should take heed! Nadine Strossen, Professor, New York Law School. Author, HATE: Why We Should Resist It with Free Speech, Not Censorship.

A Dictionary of Confusable Phrases Yuri Dolgoplov,2016-02-01 Covering over 10,000 idioms and collocations characterized by similarity in their wording or metaphorical idea which do not show corresponding similarity in their meanings, this dictionary presents a unique cross-section of the English language. Though it is designed specifically to assist readers in avoiding the use of inappropriate or erroneous phrases, the book can also be used as a regular phraseological dictionary providing definitions to individual idioms, cliches, and set expressions. Most phrases included in the dictionary are in active current use, making information about their meanings and usage essential to language learners at all levels of proficiency.

A Thousand Years of Nonlinear History Manuel De Landa,2021-09-14 Following in the wake of his groundbreaking work War in the Age of Intelligent Machines, Manuel De Landa presents a brilliant, radical synthesis of historical development of the last thousand years. A Thousand Years of Nonlinear History sketches the outlines of a renewed materialist philosophy of history in the tradition of Fernand Braudel, Gilles Deleuze, and Félix Guattari, while engaging — in an entirely unprecedented manner — the critical new understanding of material processes derived from the sciences of dynamics. Working against prevailing attitudes that see history merely as the arena of texts, discourses, ideologies, and metaphors, De Landa traces the concrete movements and interplays of matter and energy through human populations in the last millennium. The result is an entirely novel approach to the study of human societies and their always mobile, semi-stable forms, cities, economies, technologies, and languages. De Landa attacks three domains that have given shape to human societies: economics, biology, and linguistics. In each case, De Landa discloses the self-directed processes of matter and energy interacting with the whim and will of human history itself to form a panoramic vision of the West free of rigid teleology and naive notions of progress and, even more important, free of any deterministic source for its urban, institutional, and technological forms. The source of all concrete forms in the West’s history, rather, is shown to derive from internal morphogenetic capabilities that lie within the flow of matter—energy itself. A Swerve Edition.

Bedarf Deutschland Der Colonien? Friedrich Fabri,1998 Friedrich Fabri was an important catalyst in the German colonial movement. His pamphlet, Bedarf Deutschland der Colonien?, published in 1879, ran through three editions in five years. J. A. Hobson described it as 'the most vigorous and popular treatise' produced by the German colonial movement and it has been constantly referred to as a key statement of German expansionist propaganda. This volume provides the German text in a modern type-face along with an accurate English translation of the third (1884) edition of Fabri's pamphlet, and provides an apparatus of Introduction and textual notes which makes its context intelligible to the modern reader.

Preparing for Life in a Digital Age Julian Fraillon,John Ainley,Wolfram Schulz (onderwijs.),Tim Friedman,Eveline Gebhardt,2014 Report of the International Computer and Information Literacy Study (ICILS), that studied the extent to which young people have developed computer and information literacy (CIL) to support their capacity to participate in the digital age. The study focused on: variations in CIL within and across countries; aspects of schools, education systems and teaching associated with student achievement in CIL; the extent to which students' access to, familiarity with, and self-reported proficiency in using computers is associated with student achievement in CIL; and aspects of students' personal and social backgrounds associated with CIL. The Lady In The Mirror Charu Vashishtha,2020-12-30 About the book: Do you know what you really are? Or has life not tested you yet! 8 stories 8 situations 8 emotions Lata is quintessential Indian housewife. How come her blissful life got disturbed by all but a gentle sermon? The handsome Piyush had the world at his feet and yet his world was empty! Meera, an IAS officer, was living her dream but why wasn’t she happy? Centuries ago, Ila the Playwright, found happiness in pursuing her passion but why was this a bane to many? What happens when your subconscious tries to pass on a message? Hurt and pain helped Madhav become a millionaire. How would he come to terms when he realizes that it was not him that was wronged but it was he who was wrong. Meera is a budding comedian, but a great tragedy befalls her. Would she be able to hold her own in adverse circumstances? Kapil found liberation in his quest for knowledge, but would his daughter follow his lead ? Explore Greed (via Manifestation of God), Unspoken words (via The Last Confession), Internal Conflict (via The Lost Meera), Self-Belief (via The Mysterious Playwright), Subconscious-self (via Three of Him), Love (via Madhav and Meera), Jealousy (via The Comic’s Tragedy) and Freedom (via Life goes in a circle). About the Author: “An architect by education, software engineer by profession and a writer by choice.” Charu was born in UK (Belfast), and brought up in Roorkee, India. Green Light! Martin Wolfe,1993 In World War II, the 81st Troop Carrier Squadron dropped paratroopers onto the battlefield, often in the face of heavy fire. This book relates the exploits of the 81st, which mirrored the combat experience of World War II troop carrier units.

How to Be Invisible J. J. Luna,2000-07-07 For most of us, privacy means an unlisted telephone number. But what about your Social Security number? Your credit card numbers? Your bank account statements? Your personal health data? You may think this information is also secure, but if you've ever ordered anything over the Internet, or if your credit card is on file at the local video store just in case you never return that copy of Titanic, or if you throw out bank statements without shredding them, then this information is now in the public domain and can easily be discovered and used against you by a private eye, a computer hacker, or even a vengeful neighbor or former lover. Once people gain control of even a shred of your personal information, they can gain control of your life. They can transform this information into access to your assets, your loved ones, even your identity. And once your privacy is gone, there's very little you can do to get it back. J. J. Luna, a highly trained and experienced security consultant, can show you how to achieve the privacy you crave, whether you just want to shield yourself from casual scrutiny or take your life savings and disappear without a trace. He reveals the shocking secrets that private detectives use to uncover information, and then shows you how to safeguard against them. Filled with vivid real-life stories drawn from the headlines and from Luna's own consulting experience, How to Be Invisible is the essential guide to preserving your personal security. Privacy is commonly lamented as the first casualty of the Information Age-- but that doesn't mean you have to stand for it.

The Craft of Probabilistic Modelling J. Gani,2012-12-06 This book brings together the personal accounts and reflections of nineteen mathematical model-builders, whose specialty is probabilistic modelling. The reader may well wonder why, apart from personal interest, one should commission and edit such a collection of articles. There are, of course, many reasons, but perhaps the three most relevant are: (i) a philosophical interest in conceptual models; this is an interest shared by everyone who has ever puzzled over the relationship between thought and reality; (ii) a conviction, not unsupported by empirical evidence, that probabilistic modelling has an important contribution to make to scientific research; and finally (iii) a curiosity, historical in its nature, about the complex interplay between personal events and the development of a field of mathematical research, namely applied probability. Let me discuss each of these in turn. Philosophical Abstraction, the formation of concepts, and the construction of conceptual models present us with complex philosophical problems which date back to Democritus, Plato and Aristotle. We have all, at one time or another, wondered just how we think; are our thoughts, concepts and models of reality approximations to the truth, or are they simply functional constructs helping us to master our environment? Nowhere are these problems more apparent than in mathematical modelling, where idealized concepts and constructions replace the imperfect realities for which they stand.

Java 8 Lambdas Richard Warburton,2014-03-18 If you’re a developer with core Java SE skills, this hands-on book takes you through the language changes in Java 8 triggered by the addition of lambda expressions. You’ll learn through code examples, exercises, and fluid explanations how these anonymous functions will help you write simple, clean, library-level code that solves business problems. Lambda expressions are a fairly simple change to Java, and the first part of the book shows you how to use them properly. Later chapters show you how lambda functions help you improve performance with parallelism, write simpler concurrent code, and model your domain more accurately, including building better DSLs. Use exercises in each chapter to help you master lambda expressions in Java 8 quickly Explore streams, advanced collections, and other Java 8 library improvements Leverage multicore CPUs and improve performance with data parallelism Use techniques to “lambdify” your existing codebase or library code Learn practical solutions for lambda expression unit testing and debugging Implement SOLID principles of object-oriented programming with lambdas Write concurrent applications that efficiently perform message passing and non-blocking I/O

Cognitive Science Jay Friedenberg,Gordon Silverman,2015-09-23 In Cognitive Science 3e Friedenberg and Silverman provide a solid understanding of the major theoretical and empirical contributions of cognitive science. Their text, thoroughly updated for this new third edition, describes the major theories of mind as well as the major experimental results that have emerged within each cognitive science discipline. Throughout history, different fields of inquiry have attempted to understand the great mystery of mind and answer questions like: What is the mind? How do we see, think, and remember? Can we create machines that are conscious and capable of self-awareness? This books examines these questions and many more. Focusing on the approach of a particular cognitive science field in each chapter, the authors describe its methodology, theoretical perspective, and findings and then offer a critical evaluation of the field. Features: Offers a wide-ranging, comprehensive, and multidisciplinary introduction to the field of cognitive science and issues of mind. Interdisciplinary Crossroads” sections at the end of each chapter focus on research topics that have been investigated from multiple perspectives, helping students to understand the link between varying disciplines and cognitive science. End-of-chapter “Summing Up” sections provide a concise summary of the major points addressed in each chapter to facilitate student comprehension and exam preparation “Explore More” sections link students to the Student Study Site where the authors have provided activities to help students more quickly master course content and prepare for examinations Supplements: A password-protected Instructor’s Resource contains PowerPoint lectures, a test bank and other pedagogical material.The book's Study Site features Web links, E-flash cards, and interactive quizzes.
