Shirley Taylor

Different Is Awesome! Ryan Haack, 2015-07-07 A little boy brings his older brother, born with one hand, for show-and-tell. The students ask him all sorts of questions about how he does things with one hand and realize that he can do anything they can do, he just does it differently. Along the way, they notice that we're all different in one way or another, leading to the realization that not only are differences a similarity we all share, but, they are what make us unique - AND AWESOME!

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Leaders Eat Last Simon Sinek, 2017-05-23 Finally in paperback: the New York Times bestseller by the acclaimed, bestselling author of *Start With Why* and *Together is Better*. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video *Millennials in the workplace* (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. Officers eat last, he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort—even their own survival—for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a Circle of Safety that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule—what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Overcoming Your Broken Heart: One Man's Incredible Journey Stephen K. Wickman, Sr.,

The Dolphin Way Shimi Kang, 2014-05-01 In this inspiring book, Harvard-trained child and adult psychiatrist and expert in human motivation Dr. Shimi Kang provides a guide to the art and science of inspiring children to develop their own internal drive and a lifelong love of learning. Drawing on the latest neuroscience and behavioral

research, Dr. Kang shows why pushy “tiger parents” and permissive “jellyfish parents” actually hinder self-motivation. She proposes a powerful new parenting model: the intelligent, joyful, playful, highly social dolphin. Dolphin parents focus on maintaining balance in their children’s lives to gently yet authoritatively guide them toward lasting health, happiness, and success. As the medical director for Child and Youth Mental Health community programs in Vancouver, British Columbia, Dr. Kang has witnessed firsthand the consequences of parental pressure: anxiety disorders, high stress levels, suicides, and addictions. As the mother of three children and as the daughter of immigrant parents who struggled to give their children the “best” in life—Dr. Kang’s mother could not read and her father taught her math while they drove around in his taxicab—Dr. Kang argues that often the simplest “benefits” we give our children are the most valuable. By trusting our deepest intuitions about what is best for our kids, we will in turn allow them to develop key dolphin traits to enable them to thrive in an increasingly complex world: adaptability, community-mindedness, creativity, and critical thinking. Life is a journey through ever-changing waters, and dolphin parents know that the most valuable help we can give our children is to assist them in developing their own inner compass. Combining irrefutable science with unforgettable real-life stories, *The Dolphin Way* walks readers through Dr. Kang’s four-part method for cultivating self-motivation. The book makes a powerful case that we are not forced to choose between being permissive or controlling. The third option—the option that will prepare our kids for success in a future that will require adaptability—is the dolphin way.

The One You're With Lauren K. Denton, 2021-07-06 Written in Lauren K. Denton’s signature Southern style, *The One You’re With* tells the story of a seemingly perfect marriage rocked by secrets from the past. High-school sweethearts Mac and Edie Swan lead a seemingly picture-perfect life in the sleepy-sweet community of Oak Hill, near Mobile, Alabama. Edie is a respected interior designer, Mac is a beloved pediatrician, and they have two great kids and a historic home on tree-lined Linden Avenue. From the outside, the Swan family is the definition of “the good life.” And life is good—mostly. Until a young woman walks into Mac’s office one day. A young woman whose very existence threatens all Mac and Edie have built and all they think they know about each other. Nineteen years after a summer apart, with a family and established lives and careers, the past that Mac and Edie thought they left behind has come back to greet them. For the first time, constants in their lives are called into question: their roles as parents, their reputation as upstanding members of the community, and the very foundations of their marriage. As they wade through the upheaval in both their family and professional lives, they must each examine choices they made long ago and chart a new course for their future. Praise for *The One You’re With*: “Lauren Denton is a master not only of Southern fiction, but at capturing the nuance of complicated, messy relationships. This is one of those rare books that I devoured in less than 24 hours, yet didn’t want to end.”—Colleen Oakley, USA TODAY bestselling author of *You Were There Too* “Reading a Lauren K. Denton book is like spending time with treasured friends. With her warmhearted Southern voice, she expertly guides readers along the aching emotional path of a marriage in trouble in *The One You’re With*.”—Heather Webber, USA TODAY bestselling author of *Midnight at the Blackbird Café* Full-length Southern women’s fiction Stand-alone novel Book length: 116,000 words Includes discussion questions for book clubs

The Great Big One J. C. Geiger, 2021-07-13 With natural disasters and nuclear war threatening their small town, two twin brothers find themselves enraptured by mysterious music that could change the course of their lives. Everyone in Clade City knows their days are numbered. The Great Cascadia Earthquake will destroy their hometown and reshape the entire West Coast—if they survive long enough to see it. Nuclear war is increasingly likely. Wildfires. Or another pandemic. To Griff, the daily forecast feels partly cloudy with a chance of apocalyptic horsemen. Griff’s brother, Leo, and the Lost Coast Preppers claim to be ready. They’ve got a radio station. Luminous underwater monitors. A sweet bunker, and an unsettling plan for “disaster-ready rodents.” But Griff’s more concerned about what he can do before the end times. He’d like to play in a band, for one. Hopefully with Charity Simms. Her singing could make the whole world stop. When Griff, Leo, and Charity stumble upon a mysterious late-night broadcast, one song changes everything. It’s the best band they’ve ever heard—on a radio signal even the Preppers can’t trace. They vow to find the music, but aren’t prepared for where their search will take them. Or for what they’ll risk, when survival means finding the one thing you cannot live without.

On Being Awesome Nick Riggle, 2017-09-19 In this lively treatise, pro-skater-turned-philosopher Nick Riggle presents a theory of awesomeness (and its opposite, suckiness) that’s both sharply illuminating and more timely than ever “Nick Riggle’s fun book is ‘awesome’ by its own definition. But don’t miss its profound ambition, which is to show how philosophy unearths the structure of ordinary language, defines the meaning of life in routine business, and poses the question of how best to live.” —Aaron James, author of *Assholes: A Theory* We all know people who are awesome and people who suck, but what do we really mean by these terms? Have you ever been chill or game? Do you rock or rule? If so, then you’re tapped into the ethics of awesomeness. Awesome people excel at creating social openings that encourage expressions of individuality and create community. And if you’re a cheapskate, self-promoter, killjoy, or douchebag, you’re the type of person who shuts social openings down. Put more simply: You suck. From street art to folk singers, Proust to the great etiquette writer Emily Post, President Obama to former Los Angeles Dodger Glenn Burke, Riggle draws on pop culture, politics, history, and sports to explore the origins of awesome, and delves into the nuances of what it means to suck and why it’s so important to strive for awesomeness. An accessible and entertaining lens for navigating the ethics of our time, *On Being Awesome* provides a new and inspiring framework for understanding ourselves and creating meaningful connections in

our everyday lives.

One Incredible Endurance Beatrice Quainooh, 2011-09 A unique story of survival through unimaginable proportions. The novel focus on dominance and control as well as greed and deception. It revealed a major concern about self-centeredness and how inaction and devotion could be mistaken for stupidity. The young couple's (main characters) diverging perspectives on life, stemming from their different childhood experiences makes it a compelling read and thought provoking. A journey of courage, self-discovery and freedom. Through the novel, the author found ways to reach out to the young and inspire those who seek to break free and focus on a new dawn. What others are saying about the book! The crazy spiral spun by Bea Quainooh is almost more than one can bear. The truth is indeed stranger than fiction but Quainooh's generously and courageously steps forward to testify to one of the truths of women's experiences in the goings and comings of marriage, livelihood and solidarity in migration. Reading this book sucks you into an emotional roller coaster. Esi Sutherland-Addy, Professor of African Studies and Gender Activist. Incredible Indeed ___Mary Carr of Pearl Mississippi
