Popular Polish Electronic Music, 1970–2020 Ewa Mazierska, 2020-12-31 Popular Polish Electronic Music, 1970–2020 offers a cultural history of popular Polish electronic music, from its beginning in the late 1960s/early 1970s up to the present day, in the context of Polish economic, social and political history, and the history of popular music in this country. From the perspective of production, scene, industry and consumption, the volume considers the issue of access to electronic instruments in the 1970s and 1980s, and the variety of inspirations, such as progressive rock and folk music, that have contributed to the development of Polish electronic music as it is known today. The widespread contribution of Polish electronic music to film is also considered. This is a valuable resource for scholars and researchers of electronic music, popular music and (Eastern) European music and culture.

Contested Civic Spaces Siri Hummel, Rupert Strachwitz, 2023-07-03 For some years, we have observed a broad public discussion over the shrinking civic space. While the focus has generally been on countries with authoritarian governance systems, it has more recently become apparent that the issue is neither restricted to these countries nor indeed to countries with weak or non-existing democracies. It has been demonstrated that the space in which civil society actors and individual citizens may contribute to public affairs is undergoing fundamental changes in Europe. While in some areas, the clout of civic initiative is larger today than ever before, in others, civic action is highly disputed and governments are attempting to crowd out non-governmental actors from the public sphere. This edited volume examines the wellbeing of civil society in the Europe and its riparian states. Presented by experts from 12 European countries the book presents insights in the latest developments of civil society and aspect like the shifting interaction between the state, market and civil society or the influence of populist movements on civil society and tackles the question whether there is a shrinking civic space in Europe. It addresses policy and decision makers, civil society academics and actors in the field, as well as the public.

Transitional Justice in Poland Frances Millard, 2021-01-14 In this study of the mechanisms of transitional justice in Poland, Frances Millard asks: How does society come to terms with its past? How should it punish the perpetrators of oppression and acknowledge its victims? In the former communist countries of Central and Eastern Europe the task of answering these questions came down to the need to eliminate the communist parties' hold over the state, the economy and society in order to move towards democracy. Millard argues that the key step in achieving this was uncovering the truth about the previous regime's past, prosecuting the perpetrators of past crimes and providing compensation and restitution for its victims. Through the specific case of Poland, Millard provides a comprehensive assessment of the mechanisms and institutions used to achieve this, such as lustration, law enforcement through a Constitutional Tribunal and institutions dedicated to dealing with the past such as the Institute of National Remembrance. Crucially, these processes have assumed new significance in recent years after the Law and Justice Party came to power in 2015, using transitional justice as a tool of political control which has enabled the restructuring of Polish democracy.

Ideological Battlegrounds – Constructions of Us and Them Before and After 9/11 Anna Gonerko-Frej, Joanna Witkowska, Uwe Zagratzki, 2017-01-06 Volume 2 of Ideological Battlegrounds – Constructions of Us and Them Before and After 9/11 continues and complements the discussion of the event undertaken in the first part of the two-volume publication (2014). This time, the focus is put on language and discourse. The contributions here volume explore the construction of “Us” and “Them” in a variety of pre- and post-9/11 texts, mainly from the perspectives of (political) discourse analysis and translation studies. The book shows how language in use reflects and retells the tragic event and how it (re-)constructs its actors, bringing us closer to understanding the roots and long-term consequences of 9/11. The volume is by no means exhaustive of the topic, but demonstrates its complexity and continuing relevance for today's world.

Face to Face Kausik Bandyopadhyay, 2021-03-31 While rivalry is embedded in any sporting event or performance, soccer, the world's most popular mass spectator sport, has been an emblem of such

rivalries since its inception as an organized sport. Some of these rivalries grow to become long-term and perennial by their nature, extent, impact and legacy, from the local to the global level. They represent identities based on widely diverse affiliations of human life—locality, region, nation, continent, community, class, culture, religion, ethnicity, and so on. Yet, at times, such rivalries transcend barriers of space and time, where soccer-clubs, -nations, -personalities, -organizations, -styles and -fans float and compete with intriguing identities. The present volume brings into focus some of the most fascinating and enduring rivalries in the world of soccer. It attempts to encapsulate, analyse and reconstruct those rivalries—between nations, between clubs, between personalities, between styles of play, between fandoms, and between organizations—in a historical perspective in relation to diverse identities, competing ideologies, contestations of power, psychologies of attachment, bonds of loyalty, notions of enmity, articulations of violence, and affinities of fan culture—some of the core manifestations of sporting rivalry. The chapters in this book were originally published as a special issue of *Soccer & Society*.

Poland's Security Policy Justyna Zajac, 2016-11-02 This book examines how the changing post-Cold War order affected Poland's security policy and particularly how the West's weakening position and Russia's revisionist policy reinforced the traditional view of security in Poland. It addresses the reasons why Poland, a middle power in Central Europe, adopted a bridging strategy in the early 1990s; how this strategy changed along with the redistribution of power in the international system; why, after the 2008 Georgian-Russian War, Poland took steps to support NATO consolidation, strengthen relations with the USA, and expand its own military capabilities; and how the Ukraine crisis affected Poland's security. This overview is an invaluable resource for students of international and European studies, security studies, political science, as well as for decision-makers, politicians, EU staff, and anyone interested in international politics in Central Europe.

Nations in Transit 2014 Freedom House, 2014-09-24 Since 1995, Freedom House's Nations in Transit series has monitored the status of democratic change from Central Europe to Eurasia, pinpointing the region's greatest reform opportunities and challenges for the benefit of policymakers, researchers, journalists, and democracy advocates alike.

Neo-militant Democracies in Post-communist Member States of the European Union Joanna Rak, Roman Bäcker, 2022-03-24 This book examines contemporary militant democracies in post-communist states in the European Union. Examining, through case studies, their broader relevance to political, legal, and social structures, this book looks in revealing detail at the struggles between these democratic and anti-democratic actors that share similar historical experiences of contentious politics, communism, and political transformation. It importantly unravels the tension between them, determining which are already authoritarian, and which are teetering on the brink of an anti-democratic breakthrough. Analysing regimes' continuance trajectories to capture how and what shaped the neo-militant aspects of democracies (neomilitancy) over time, the book accounts for why particular post-communist European neo-militant democracies emerge while others decline or transform into quasi-militant democracies despite transformation, how they differ from each other, what brings about the differences and similarities between them, and how and why they change over time. With right-wing populist parties coming to power on the back of fears associated with economic, social, and cultural globalisation and the misuse of state authorities to strengthen protective measures against threats to democratic institutions, the book represents a timely and important contribution. This book will be of key interest to scholars and students of Post-Soviet/Communist/East European Studies, Democratic Backsliding, European and Comparative Politics, Nationalism and Ethnic Conflict, Democracy and Dictatorship, Public Comparative Constitutional Law, Human Rights Law and Political Theory.

Independence Day M. B. B. Biskupski, 2012-09-13 A discussion of how modern Poland was created by the application and manipulation of myths about its past, and the symbols that represented them.

The Rise of Entrepreneurial Parties in European Politics Vít Hloušek, Lubomír Kopeček, Petra Vodová, 2020-04-21 Political parties run by entrepreneurs as a means to their own end are a recent

phenomenon found in many countries, and their electoral influence has never been greater. This book offers a thorough comparative analysis of such 'business-firm' and sometimes oddly memberless parties in Western and East-Central Europe, assessing the considerable corpus of literature on the growing band of political entrepreneurs. The book clearly separates such party enterprises from other, more traditional, political platforms as it contributes to our understanding of the potential of entrepreneurial parties. The authors offer a unique typology based on two characteristics: whether the party receives private financial, media or other investment; and the nature of its membership and territorial structure. Famous examples of entrepreneurial parties, including Silvio Berlusconi's Forza Italia and Geert Wilders's Party for Freedom, alongside their lesser-known counterparts, serve in this book as valuable material for conceptual innovation and the investigation into why certain entrepreneurial party types succeed or fail.

Poland's Foreign and Security Policy Ryszard Zięba, 2019-11-06 This book analyses determinants and the evolution of Poland's foreign and security policy in the changing international order. By studying historical, geopolitical and domestic factors, the author offers a better understanding of Poland's national interests and sheds new light on its foreign relations with the USA, Russia and the European Union. Furthermore, the author also discusses Poland's cooperation within international organisations, such as NATO and the EU.

Transition Redesigned Wojciech W. Gasparski, 2017-07-28 *Transition Redesigned* deals with the philosophical bases of different types of transition: change in the economy, organizational/institutional change, and change in social and individual relationships. The editors' primary goal is to give further impetus to a much-needed worldwide debate on the issue of transition towards a better future. The volume reviews transitions made in different areas of human activity, assesses their relevancy, and analyzes their contexts. During this century, different organizations and institutions will undergo a level of radical and global change that has rarely been seen. The expected shift must be addressed in terms of a multidimensional transition toward building a sustainable society. Do we have an understanding of transition relevant to the task of meeting at least some of the challenges presented in this volume? Do we need a radical innovation for redesigning the transition that may enforce real social and ethical responsibilities into organizational practice on different levels and bring to life new ideas? *Transition Redesigned* seeks to answer these questions.

Remaking Culture and Music Spaces Ian Woodward, Jo Haynes, Pauwke Berkers, Aileen Dillane, Karolina Golemo, 2022-11-18 This collection analyses the remaking of culture and music spaces during the ongoing COVID-19 pandemic. Its central focus is how cultural producers negotiated radically disrupted and uncertain conditions by creating, designing, and curating new objects and events, and through making alternative combinations of practices and spaces. By examining contexts and practices of remaking culture and music, it goes beyond being a chronicle of how the pandemic disrupted cultural life and livelihoods. The book also raises crucial questions about the forms and dynamics of post-pandemic spaces of culture and music. Main themes include the affective and embodied dimensions that shape the experience, organisation, and representation of cultural and musical activity; the restructuring of industries and practices of work and cultural production; the transformation of spaces of cultural expression and community; and the uncertainty and resilience of future culture and music. This collection will be instrumental for researchers, practitioners, and students studying the spatial, material, and affective dimensions of cultural production in the fields of cultural sociology, cultural and creative industries research, festival and event studies, and music studies. Its interdisciplinary nature makes it beneficial reading for anyone interested in what has happened to culture and music during the global pandemic and beyond.

Zarządzanie w kulturze Ewa Kocój, 2000

The new politics of Poland Jarosław Kuisz, 2023-12-05 The election of populist far-right party Law and Justice in 2015 marked a shocking break in Polish politics. A period of stability was brutally interrupted as Jarosław Kaczyński and his allies took over public media and launched a controversial 'reform' of the judiciary. How was this illiberal turn possible after years of democratic development?

Jaroslav Kuisz, one of Poland's leading liberal thinkers, digs deep into Polish history to propose an original analysis of the crisis. He reveals how centuries of statelessness have left Poles with a 'post-traumatic' attitude to sovereignty, making them wary of powerful foreign blocks, be it the EU, the Soviet Union or present-day Russia. This is a phenomenon populists have proved adept at exploiting. Providing a brilliant account of Europe's largest illiberal democracy, *The new politics of Poland* shines a light on the broader situation in East and Central Europe, offering valuable lessons for other countries experiencing the rise of populist right-wing movements.

Development Policies of Central and Eastern European States Ondřej Horký-Hlucháň, Simon Lightfoot, 2013-09-13 The states from Central and Eastern Europe that joined the EU in 2004 and 2007 provide a fascinating series of case studies for scholars interested in politics, IR and development studies. The interest comes from the fact that never before had so many recipients of EU aid joined the Union and taken on the commitment to become aid donors. The journey from recipients of aid to aid donors is interesting because, not only does it tell us about development policy in CEE states, this policy area gives us an insight into governmental structures in CEE states, foreign policy priorities, public opinion, the role of NGOs/civil society and how well CEE states have taken on board the EU *acquis* (the EU's rule book). The book also explores whether the development cooperation programmes of the majority of CEEs reflect the so-called transition experience of moving from authoritarianism and socialism to democracy and modern liberalism. It also explores the extent to which these donors are aligned with the approaches of the DAC donors. Finally, by extending the scrutiny to the bottom-up development activities of non-state actors and public opinion, the book will analyse the dynamics of the solidarity of the former 'East' with the global 'South'. This book was published as a special issue of *Perspectives on European Politics and Society*

Wybrane zagrożenia bezpieczeństwa państwa i człowieka Wiesław Otwinowski, 2014 Ze wstępu: Jednym z podstawowych zadań państwa, wynikających z Konstytucji Rzeczypospolitej Polskiej, jest zapewnienie swoim obywatelom szeroko rozumianego bezpieczeństwa, jednej z podstawowych potrzeb człowieka (art. 5 Konstytucji RP)¹. Również Polska Strategia Bezpieczeństwa Narodowego RP z 2007 roku jednoznacznie stwierdza, że Nadrzędnym celem strategicznym Rzeczypospolitej Polskiej jest zapewnienie korzystnych i bezpiecznych warunków realizacji interesów narodowych poprzez eliminację zewnętrznych i wewnętrznych zagrożeń, redukcję ryzyka oraz odpowiednie oszacowanie podejmowanych wyzwań i umiejętne wykorzystywanie pojawiających się szans². Cel powyższy może być osiągnięty w wyniku stworzenia spójnych przepisów prawnych, doskonalenia działalności i umiejętności wszystkich związanych z bezpieczeństwem państwa podmiotów zarówno państwowych jak i społecznych. Dzisiaj bezpieczeństwo pojmowane jest w szerszym zakresie i nie obejmuje tylko kwestii militarnych, ale również kwestie polityczne, gospodarcze, techniczne, ekologiczne, społeczne oraz humanitarne.

The Socioeconomic Impact of COVID-19 on Eastern European Countries Paweł Dykas, Rafał Wiśła, 2021-11-16 The year 2020 went down in economic history due to the dramatic and drastic changes in economic and social conditions that resulted from the outbreak of the global pandemic of COVID-19. This book offers a multi-level narrative about the pandemic, written from national and international perspectives, enabling the authors to construct several macro- and mega-scenarios. The book consists of six chapters. Four of them discuss the process of the COVID-19 pandemic caused by the SARS-CoV-2 virus in Europe in 2020, i.e. the directions and dynamics of the spread and its socioeconomic consequences, and provide a comparative analysis of fiscal and monetary packages employed by Europe, with an emphasis on Eastern European countries. The remaining two chapters contain forecasts and scenarios. The fifth chapter, dedicated to forecasts, provides readers with a comprehensive description of possible consequences of any epidemic leading to severe social losses such as high percentages of infected and dead, limited interpersonal contacts as a result of lockdown, a lowered level of general individual and social well-being, as well as economic losses, for example a decline in production as a result of the collapse of aggregate demand and a reduction in the supply capacity of the economy, consequently slowing down the pace of capital accumulation. The sixth, final chapter describes possible scenarios of the spread of the pandemic in Poland and

Ukraine, depending on measures taken by the governments of those countries. The Socioeconomic Impact of COVID-19 on Eastern European Countries is designed as a practical reference for scholars, researchers and policymakers.

Computer Aided Systems Theory -- EUROCAST 2011 Roberto Moreno Díaz, Franz Pichler, Alexis Quesada Arencibia, 2012-02-02 The two-volume proceedings, LNCS 6927 and LNCS 6928, constitute the papers presented at the 13th International Conference on Computer Aided Systems Theory, EUROCAST 2011, held in February 2011 in Las Palmas de Gran Canaria, Spain. The total of 160 papers presented were carefully reviewed and selected for inclusion in the books. The contributions are organized in topical sections on concepts and formal tools; software applications; computation and simulation in modelling biological systems; intelligent information processing; heuristic problem solving; computer aided systems optimization; model-based system design, simulation, and verification; computer vision and image processing; modelling and control of mechatronic systems; biomimetic software systems; computer-based methods for clinical and academic medicine; modeling and design of complex digital systems; mobile and autonomous transportation systems; traffic behaviour, modelling and optimization; mobile computing platforms and technologies; and engineering systems applications.

Start-Up Poland Jan Cienski, 2018-02-02 Poland in the 1980s was filled with shuttered restaurants and shops that bore such imaginative names as “bread,” “shoes,” and “milk products,” from which lines could stretch for days on the mere rumor there was something worth buying. But you’d be hard-pressed to recognize the same squares—buzzing with bars and cafés—today. In the years since the collapse of communism, Poland’s GDP has almost tripled, making it the eighth-largest economy in the European Union, with a wealth of well-educated and highly skilled workers and a buoyant private sector that competes in international markets. Many consider it one of the only European countries to have truly weathered the financial crisis. As the Warsaw bureau chief for the Financial Times, Jan Cienski spent more than a decade talking with the people who did something that had never been done before: recreating a market economy out of a socialist one. Poland had always lagged behind wealthier Western Europe, but in the 1980s the gap had grown to its widest in centuries. But the corrupt Polish version of communism also created the conditions for its eventual revitalization, bringing forth a remarkably resilient and entrepreneurial people prepared to brave red tape and limited access to capital. In the 1990s, more than a million Polish people opened their own businesses, selling everything from bicycles to leather jackets, Japanese VCRs, and romance novels. The most business-savvy turned those primitive operations into complex corporations that now have global reach. Well researched and accessibly and entertainingly written, Start-Up Poland tells the story of the opening bell in the East, painting lively portraits of the men and women who built successful businesses there, what their lives were like, and what they did to catapult their ideas to incredible success. At a time when Poland’s new right-wing government plays on past grievances and forms part of the populist and nationalist revolution sweeping the Western world, Cienski’s book also serves as a reminder that the past century has been the most successful in Poland’s history.
