The rules cover all aspects of modern warfare from the confidence and supply level of troops to air-strikes and off-board artillery and accommodates scenarios set anywhere from the end of World War II to the conflicts on today's news without sacrificing either character or playability. Quick to learn and play, the game rewards players who use well-considered modern tactics to try and achieve victory. From infantry and armor to artillery and air support, Force on Force presents everything that players need to recreate post-World War II warfare involving both conventional, combined-arms forces and the irregular guerrilla units that have become the hallmark of 21st century warfare.

Force-On-Force Donald P Redl, Jr,2022-08-22 Force-on-Force is based on the authors 25 plus years of experience designing, conducting and participating in professional high level scenario based Force-on-Force training, as well as valuable lessons learned along the way. Force-on-Force training is powerful training tool that can be used to teach and/or test. Students are placed in replicated real world situations where they have to interact with human beings in a dynamic 360 degree environment, as opposed to engaging paper or mannequin targets on a square range. Students are forced to make use- of-force decisions based on feedback, i.e. ability, opportunity, jeopardy and manifested intent as opposed to engaging pre-determined bad guy targets. This level of training can not be achieved by any other means and by default any comprehensive tactical training program that does not include Scenario Based Force-on-Force training should essentially be considered incomplete.
