Tank Wastes Planned for On-Site Disposal at Three Department of Energy Sites National Research Council,Division on Earth and Life Studies,Nuclear and Radiation Studies Board,Committee on the Management of Certain Radioactive Waste Streams Stored in Tanks at Three Department of Energy Sites,2005-08-05 In response to a request from Congress, the U.S. Department of Energy (DOE) asked the National Academies to evaluate its plans for managing radioactive wastes from spent nuclear fuel at sites in Idaho, South Carolina, and Washington. This interim report evaluates storage facilities at the Savannah River Site in South Carolina, with a particular focus on plans to seal the tanks with grouting. The report finds that tanks at the site do not necessarily need to be sealed shut as soon as the bulk of the waste has been removed. Postponing permanent closure buys more time for the development and application of emerging technologies to remove and better immobilize residual waste, without increasing risks to the environment or delaying final closure of the tank farms. The report also recommends alternatives to address the lack of tank space at the site, as well as the need for focused R&D activities to reduce the amount and improve the immobilization of residual waste in the tanks and to test some of the assumptions used in evaluating long-term risks at the site.

Patsy Cline: the Making of an Icon Douglas

Gomery, 2011-03-17 Patsy Cline remains a much beloved singer, even though she died in 1963. By 1996, Patsy Cline had become such an icon that The New York Times magazine positioned her among a pantheon of women celebrities who transcended any single cultural genre. A series of essays on Heroine Worship included Patsy Cline with such feminine icons as Eleanor Roosevelt, Martha Graham, Indira Gandhi, Aretha Franklin, and Jackie Onassis. The making of an icon is a cultural process that transcends traditional biographical analysis. One does not need to know the whole life story of the subject to understand how the subject became an icon. This book explores how Patsy Cline transcended class and poverty to become the country music singer that non-country music fans embraced. It goes beyond a traditional biography to explore the years beyond her death. This is the first thoroughly researched book on Patsy Cline. It is true to Patsy and her legacy. Judy Sue Huyett-Kemp President, Celebrating Patsy Cline The Patsy Cline Historic House Winchester, Virginia Douglas Gomery taught mass media history at the University of Wisconsin, Northwestern University, New York University, the University of Utrecht the Netherlands), and the University of Maryland. He retired in 2005 to become the Official Historian for Celebrating Patsy Cline and Resident Scholar at the Library of American Broadcasting.

Teaching Online Claire Howell Major, 2015-03-15 Demystifies online teaching for both enthusiastic and wary educators and helps faculty who teach online do their best work as digital instructors. It is difficult to imagine a college class today that does not include some online component—whether a simple posting of a syllabus to course management software, the use of social media for communication, or a full-blown course offering through a MOOC platform. In *Teaching Online*, Claire Howell Major describes for college faculty the changes that accompany use of such technologies and offers real-world strategies for surmounting digital teaching challenges. Teaching with these evolving media requires instructors to alter the ways in which they conceive of and do their work, according to Major. They must frequently update their knowledge of learning, teaching, and media, and they need to develop new forms of instruction, revise and reconceptualize classroom materials, and refresh their communication patterns. Faculty teaching online must also reconsider the student experience and determine what changes for students ultimately mean for their own work and for their institutions. *Teaching Online* presents instructors with a thoughtful synthesis of educational theory, research, and practice as well as a

review of strategies for managing the instructional changes involved in teaching online. In addition, this book presents examples of best practices from successful online instructors as well as cutting-edge ideas from leading scholars and educational technologists. Faculty members, researchers, instructional designers, students, administrators, and policy makers who engage with online learning will find this book an invaluable resource.

Verification 1997 Richard Guthrie,2018-05-04 Frequently consulted for its knowledge of international and national agreements and for its technical expertise, VERTIC is the first port of call for many TV and radio journalists. The new 1997 volume is divided into two parts. The first half of the book contains twelve original essays analyzing the arms control, peacekeeping, and environmental issues in 1996. The second half contains a greatly expanded collection of twenty-one primary documents that scholars and policy practitioners will find indispensable--from the Cairo Declaration to the Declaration of the Moscow Nuclear Safety Summit to the complete text of the Comprehensive Test Ban Treaty and the attendant declarations.
