- 📖 **THE GRAVY TRAIN - AN INSIDE LOOK AT THE LONG ISLAND RAIL ROAD** Dan Ruppert,2003-01-19 Growing up in the suburbs of New York City on Long Island, I took a keen interest in all forms of transportation, especially trains. After graduating college, I worked as an industrial engineer for private sector corporations progressing to a middle management position within a Fortune 25 Company. In 1983 I accepted a job opportunity with the Long Island Rail Road as an industrial engineer. The LIRR is a government-subsidized agency that is part of a larger regional organization called the Metropolitan Transportation Authority. The LIRR had embarked on a very ambitious improvement program to upgrade their physical plants. This plan included the construction of a new railcar maintenance facility. The new facility was to replace their one hundred year old maintenance shops. I was hired to develop facility layouts for the most advanced rail car maintenance facility in the country. Friends and professional colleagues advised me to decline the job offer. However, I was a railroad buff and the opportunity to work for a railroad overshadowed any trepidations. For decades, the LIRR had bore the brunt of adverse publicity. I would often consider much of the criticism as being too harsh and misguided. Not long after commencing employment, my perspective of the LIRR would be completely transformed. The inefficient and workplace abuses I witnessed first hand could only flourish in publicly subsidized environment. My job required me to observe and analyze the maintenance and repair operations performed on commuter railcars. My next step was identifying more efficient methods. I would then implement these improvements into the design of the new railcar maintenance facilities. I was met with a wall of resistance and non-cooperation from the unionized workforce. The LIRR had languished in decades of inefficient work habits supplemented with managerial complacency and rampant nepotism. I would operate in a very hostile environment that had no incentive to embrace improvements. It would be in the better interests of the unions to maintain low productivity and therefore justify the gross overstaffing that existed for decades. Upon completion of developing the facility layouts, the next phase of my responsibilities involved coordination with design consultants hired by the LIRR. The consultants were responsible for the architectural and structural designs of the new maintenance facility. The consultants typically were selected based on political connections and not their level of expertise. The design phase was muddled with incompetence and waste. Inept project management would add tens of millions of dollars and lengthy delays to the construction phase of the project. Upon completion of construction, a new regime intent on maintaining the status quo within the LIRR assumes control of the new maintenance facility. The new regime is not committed to capitalizing on the labor efficiencies offered by the new facility. Key positions are then filled with managers’ intent in preserving the traditional inefficient ways of the LIRR. My story concludes with the agendas of the new regime and conflicts with those who were trying to transform the LIRR into a socially responsible institution. My trials and tribulations along with personal victories and setbacks are all the basis of my book.
- 📖 **WHAT THE HELL?!!!!** Michael Keneski,2017-07-10 What the hell !!! Those three simple words entirely sum up the daily thoughts/frustrations of Long Island Rail Road riders everywhere. From delays, to service breakdowns, to ongoing misinformation; the daily riders of the busiest transit system in the United States endure unending abuse and horrid service while still being forced to pay exorbitant monthly fees for the pleasure of taking the trains to work. With angst and annoyance at all-time highs as the so-called Summer of Hell began in July, it is time all LIRR riders take matters into their own hands and express their anger at those running this inefficient system. It was with this in mind that I developed the LIRR Summer of Hell/Daily Hell Complaint Logbook where you can jot down the date you rode, the service disruptions you endured, how late you were to your destination, and more. Then when you wish, submit your book by mailing it to the LIRR headquarters so that you did your part in showing how terrible the system really is. I hope this serves as an outlet for your frustrations; while at the same time hoping this will lead to positive change.

- 📖 **CONQUERING GOTHAM** Jill Jonnes,2007-04-19 “SUPERB. [A] first-rate narrative” (The Wall Street Journal) about the controversial construction of New York’s beloved original Penn Station and its tunnels, from the author of Eiffel’s Tower and Urban Forests As bestselling books like Ron Chernow’s Titan and David McCullough’s The Great Bridge affirm, readers are fascinated with the grand personalities and schemes that populated New York at the close of the nineteenth century. Conquering Gotham re-creates the riveting struggle waged by the great Pennsylvania Railroad to build Penn Station and the monumental system of tunnels that would connect water-bound Manhattan to the rest of the continent by rail. Historian Jill Jonnes tells a ravishing tale of snarling plutocrats, engineering feats, and backroom politicking packed with the most colorful figures of Gilded Age New York. Conquering Gotham will be featured in an upcoming episode of PBS’s American Experience.

- 📖 **A GATHERING OF WORDS - A TRAIN OF THOUGHT** Terry Beck,2013-12-20 If you love trains and the allure of the rails, you will savor these tales of life as a railroader. Train of Thought captures memories of an earlier time on the glorious Santa Fe Railroad. When he signed on with the railroad in 1971, college boy Terry Beck wasn’t looking for anything beyond a summer job. Instead, he found his place in a time honored lineage of railroaders that some think may have been the last of a disappearing breed. Once he figured out he needed to buy a bag and keep it packed, his adventures began and continued nearly 40 years. Besides his own exploits and lessons, he recounts stories that have been handed down by the people he worked with. Some of them may even be true.
- 📖 **THE PENNSYLVANIA RAILROAD** Albert J. Churella,2023-11-21 By 1933, the Pennsylvania Railroad had been in existence for nearly ninety years. During this time, it had grown from a small line, struggling to build west from the state capital in Harrisburg, to the dominant transportation company in the United States. In Volume 2 of The Pennsylvania Railroad, Albert J. Churella continues his history of this giant of American transportation. At the beginning of the twentieth century, the Pennsylvania Railroad was the world’s largest business corporation and the nation’s most important railroad. By 1917, the Pennsylvania Railroad, like the nation itself, was confronting a very different world. The war that had consumed Europe since 1914 was about to engulf the United States. Amid unprecedented demand for transportation, the federal government undertook the management of the railroads, while new labor policies and new regulatory initiatives, coupled with a postwar recession, would challenge the company like never before. Only time would tell whether the years that followed would signal a new beginning for the Pennsylvania Railroad or the beginning of the end. The Pennsylvania Railroad: The Age of Limits, 1917–1933, represents an unparalleled look at the history, the personalities, and the technologies of this iconic American company in a period that marked the shift from building an empire to exploring the limits of their power.
- 📖 **THE RAILROAD TRAINMAN** ,1908
- 📖 **CHICAGO & WESTERN INDIANA RAILROAD** Cynthia L. Ogorek and Bill Molony,2016 The Chicago & Western Indiana Railroad was a short line running 16 miles. One line ran from downtown Chicago to Dolton, Illinois; the other running from Eighty-First Street to the Indiana state line. After World War II, changes in passenger travel and shipping meant that the need for rail access into downtown Chicago declined. The C&WI ended its service in 1994.
