Living on the Edge Susan Snyman, Kelly S. Bricker, 2021-05-07 Tourism has an essential role in terms of contributing to the financial sustainability of protected areas. In addition, through effective and efficient benefit-sharing, tourism can positively impact numerous stakeholders within and beyond the protected area. *Living on the Edge: Benefit-Sharing from Protected Area Tourism* highlights the complexity of benefit-sharing, the importance of identifying all relevant stakeholders, the challenges of ensuring equity and sustainability, and the critical importance of good governance. The evolution of benefit-sharing mechanisms over time also emphasizes a continuing need to evolve and adapt to each unique situation as much evidence indicates that little has changed for those living on the edge. Although this book focuses on benefit-sharing from protected area tourism, it is essential to acknowledge that along with these benefits are costs associated with tourism, including possible increased local prices, loss of access to land, human-wildlife conflict, and other related costs. The contributing authors agree that benefit-sharing must include good governance, accountability, equity, transparency, a broad reach of stakeholder engagement, and a robust combination of tangible and intangible benefits – with recognition that benefit-sharing systems need to be adaptive and evolve, as needed, according to the relevant situation. The chapters in this book were originally published as a special issue of the *Journal of Sustainable Tourism*.

Oona Out of Order Margarita Montimore, 2020-02-25 NATIONAL BESTSELLER A GOOD MORNING AMERICA BOOK CLUB PICK AMAZON EDITORS' 20 BEST BOOKS OF THE YEAR PICK With its countless epiphanies and surprises, Oona proves difficult to put down. —USA Today By turns tragic and triumphant, heartbreakingly poignant and joyful, this is ultimately an uplifting and redemptive read. —The Guardian A remarkably inventive novel that explores what it means to live a life fully in the moment, even if those moments are out of order. It's New Year's Eve 1982, and Oona Lockhart has her whole life before her. At the stroke of midnight she will turn nineteen, and the year ahead promises to be one of consequence. Should she go to London to study economics, or remain at home in Brooklyn to pursue her passion for music and be with her boyfriend? As the countdown to the New Year begins, Oona faints and awakens thirty-two years in the future in her fifty-one-year-old body. Greeted by a friendly stranger in a beautiful house she's told is her own, Oona learns that with each passing year she will leap to another age at random. And so begins Oona Out of Order... Hopping through decades, pop culture fads, and much-needed stock tips, Oona is still a young woman on the inside but ever changing on the outside. Who will she be next year? Philanthropist? Club Kid? World traveler? Wife to a man she's never met? Surprising, magical, and heart-wrenching, Margarita Montimore has crafted an unforgettable story about the burdens of time, the endurance of love, and the power of family.

The End of Poverty Jeffrey D. Sachs, 2006-02-28 Book and man are brilliant, passionate, optimistic and impatient . . . Outstanding. –The Economist The landmark exploration of economic prosperity and how the world can escape from extreme poverty for the world's poorest citizens, from one of the world's most renowned economists Hailed by Time as one of the world's hundred most influential people, Jeffrey D. Sachs is renowned for his work around the globe advising economies in crisis. Now a classic of its genre, The End of Poverty distills more than thirty years of experience to offer a uniquely informed vision of the steps that can transform impoverished countries into prosperous ones. Marrying vivid storytelling with rigorous analysis, Sachs lays out a clear conceptual map of the world economy. Explaining his own work in Bolivia, Russia, India, China, and Africa, he offers an integrated set of solutions to the interwoven economic, political, environmental, and social problems that challenge the world's poorest countries. Ten years after its initial publication, The End of Poverty remains an indispensable and influential work. In this 10th anniversary edition, Sachs presents an extensive new foreword assessing the progress of the past decade, the work that remains to be done, and how each of us can help. He also looks ahead across the next fifteen years to 2030, the United Nations' target date for

ending extreme poverty, offering new insights and recommendations.

Disease Control Priorities, Third Edition (Volume 2) Robert Black, Ramanan Laxminarayan, Marleen Temmerman, Neff Walker, 2016-04-11 The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

Migrant Labour and the Reshaping of Employment Law Bernard Ryan, Rebecca Zahn, 2023-04-20 The presence of migrant workers has become a central feature of labour markets in highly developed countries. The International Labour

Organisation estimates that in 2013 there were 112 million resident migrant workers in the 58 highest-income countries, who made up 16% of the workforce. Non-resident workers have also increasingly become part of the labour available for employment in other states, often on a temporary basis. This work takes a thematic and comparative approach to examine the profound implications of contemporary labour migration for employment law regimes in highly developed countries. In so doing, it aims to promote greater recognition of labour migration-related questions, and of the interests of migrant workers, within employment law scholarship. The work comprises original analyses by leading scholars of migration and employment law at the European Union level, and in Australia, Canada, Germany, Italy, the Netherlands, Spain, the United Kingdom and the United States. The specific position of migrant workers is addressed, for example as regards equality of treatment, or the position in employment law of migrant workers without a right to work. The work also explores the effects of migration levels and patterns upon general employment law – including the law relating to collective bargaining, and remedies against exploitation.

Statistics and Probability for Engineering Applications William DeCoursey, 2003-05-14 *Statistics and Probability for Engineering Applications* provides a complete discussion of all the major topics typically covered in a college engineering statistics course. This textbook minimizes the derivations and mathematical theory, focusing instead on the information and

techniques most needed and used in engineering applications. It is filled with practical techniques directly applicable on the job. Written by an experienced industry engineer and statistics professor, this book makes learning statistical methods easier for today's student. This book can be read sequentially like a normal textbook, but it is designed to be used as a handbook, pointing the reader to the topics and sections pertinent to a particular type of statistical problem. Each new concept is clearly and briefly described, whenever possible by relating it to previous topics. Then the student is given carefully chosen examples to deepen understanding of the basic ideas and how they are applied in engineering. The examples and case studies are taken from real-world engineering problems and use real data. A number of practice problems are provided for each section, with answers in the back for selected problems. This book will appeal to engineers in the entire engineering spectrum (electronics/electrical, mechanical, chemical, and civil engineering); engineering students and students taking computer science/computer engineering graduate courses; scientists needing to use applied statistical methods; and engineering technicians and technologists. * Filled with practical techniques directly applicable on the job * Contains hundreds of solved problems and case studies, using real data sets * Avoids unnecessary theory

Designing Groupwork Elisabeth G. Cohen, Rachel A. Lotan, 2014-06-27 As teachers today work in ever more challenging contexts, groupwork remains a

particularly effective pedagogical strategy. Based on years of research and teaching experience, the new edition of this popular book features significant updates on the successful use of cooperative learning to build equitable classrooms. Designing Groupwork, Third Edition incorporates current research findings with new material on what makes for a groupworthy task, and shows how groupwork contributes to growth and development in the language of instruction. Responding to new curriculum standards and assessments across all grade levels and subject areas, this edition shows teachers how to organize their classroom so that all students participate actively. This valuable and sensible resource is essential reading for educators at both the elementary and secondary levels, for teachers in training, and for anyone working in the field of education.

Tell Mother I'm in Paradise Ana Margarita Gasteazoro,2022-04-19 Anna Maria Gasteazoro (1950-1993) was a Salvadoran opposition leader and renowned prisoner of conscience. In her memoirs, *Tell Mother I'm in Paradise*, she recounts her trajectory from a privileged Catholic upbringing in El Salvador, with stints at school abroad and early jobs, to her increasing commitment to political work after witnessing the violence and corpses in the streets of San Salvador early in the civil war, to clandestine organizing against the brutal military junta. Her inspiring and, at times, dramatic story culminates in three years as a political prisoner of conscience and then release and

exile to Mexico. Readers get a sense of the upper-class milieu of well-connected parents and loving nannies and of Gasteazoro negotiating her education and freedom and exploring her talents in early years. She chronicles her growing rebellion against strictures of the Catholic Church and the conservative group Opus Dei, with which her mother was heavily involved. She was well educated and spoke perfect English and discovered a talent for organizing in administrative jobs abroad and at home. As the war progressed, she quickly became a valuable leader in the opposition movement as a member of the National Revolutionary Movement (MNR), a social democratic party, despite the machismo environment. She was often sent abroad as a representative. In two particularly exciting events, she served as a delegate to the Eleventh International Youth Festival in Havana in 1978 and when, with her life in danger, she donned a disguise to give a speech at a conference in Spain. As other MNR leaders were killed or disappeared, she rose to top leadership. Against the backdrop of kidnappings and disappearances of prominent members of the opposition and massive social oppression, Gasteazoro began to live a double life. As an operative in a faction of the Farabundo Martí National Liberation Front (FMLN), she organized safe houses for fellow activists and proved adept at creative content, handling whatever task was required, for example, writing for an underground radio station and producing what became an award-winning documentary film. In 1981, the notorious National Guard arrested and tortured her, and she was then sent to the

women's prison at Illopango. There, she and other activists dedicated their days to organizing through the Committee of Salvadoran Political Prisoners (COPPEs). Gasteazoro's love affairs, including with fellow operatives, are woven into the narrative. Accounts of the relationships help reveal her as extraordinary woman in extraordinary times who lived to the fullest in both body and spirit--

Mrs Death Misses Death Salena Godden, 2021-01-28 SHORTLISTED FOR THE GORDON BURN PRIZE Mrs Death tells her intoxicating story in this life-affirming fire-starter of a novel Mrs Death has had enough. She is exhausted by her job and now seeks someone to unburden her conscience to. She meets Wolf, a troubled young writer, who – enthralled by her stories – begins to write Mrs Death's memoirs. As the two reflect on the losses they have experienced (or facilitated), their friendship flourishes. All the while, despite her world-weariness, Death must continue to hold humans' fates in her hands, appearing in our lives when we least expect her . . .

Freedom in the World 2006 Freedom House, 2006 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and

setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

Immunisation against infectious diseases David Salisbury, Mary Ramsay, Karen Noakes, 2006-12-11 This is the third edition of this publication which contains the latest information on vaccines and vaccination procedures for all the vaccine preventable infectious diseases that may occur in the UK or in travellers going outside of the UK, particularly those immunisations that comprise the routine immunisation programme for all children from birth to adolescence. It is divided into two sections: the first section covers principles, practices and procedures, including issues of consent, contraindications, storage, distribution and disposal of vaccines,

surveillance and monitoring, and the Vaccine Damage Payment Scheme; the second section covers the range of different diseases and vaccines.

Tania Ulises Estrada, 2005 The story of the Cuban undercover agent sent to Bolivia in advance of Che's arrival told by a key participant in the revolutionary movement in Latin America. Ulises Estrada was the principal organiser of Che's guerilla mission to Bolivia and the man who trained Tania in her position as Cuba's Bolivian spy. Tania, born Haydee Tamara Bunke to German Jewish refugees in Argentina, became one of Cuba's most successful agents, penetrating Bolivia's high society and attaining direct contact with the President. She was killed in the 1967 ambush of Che's guerilla group.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith, 2011 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for

specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
