*Rohi Mataluna* Mohammad Nawaz Tair,2009-03-01 For a Pashtun, the world is a dangerous place. . . . To negotiate such a world, a man or woman needs wise words. . . . Pashto proverbs provide critical lessons about faith and honor, human nature and relationships, friends and enemies, power and revenge, in short, how to live in a society that is at once fragrant with friendship, fraught with ambiguities, and seared by treachery. You are invited to look into the world of the Pashtun through the pages of *Rohi Mataluna: Pashto Proverbs*. This selection of 1,350 Pashto proverbs (*mataluna*) from the mountainous (*rohi*) Afghan borderlands, with English translation and cultural annotations, aims to preserve some of the original flavor of an oral literature that reflects a traditional culture now facing turmoil and inevitable change. This second edition has been completely updated, revised, and expanded with new material, while taking care to preserve and honor the original work of the first edition. It includes: -- Cultural background and context of the Afghan frontier -- Explanations of key words and concepts -- Examples of the use of texts in social situations -- Observations on the form and structure of proverbs -- Parallel and variant texts -- Background stories -- Index of key words, persons, and places This book will appeal to readers and students of Pashto and English, to scholars and tourists, to anthropologists and folklorists, and to all those interested in learning more about the Pashtun people of the Afghan frontier.

*Pan-Islamic Connections* Christophe Jaffrelot, Laurence Louer, 2018-01-15 South Asia is today the region inhabited by the largest number of Muslims---roughly 500 million. In the course of the Islamisation process, which began in the eighth century, it developed a distinct Indo-Islamic civilisation that culminated in the Mughal Empire. While paying lip service to the power centres of Islam in the Gulf, including Mecca and Medina, this civilisation has cultivated its own variety of Islam, based on Sufism. Over the last fifty years, pan-Islamic ties have intensified between these two regions. Gathering together some of the best specialists on the subject, this volume explores these ideological, educational and spiritual networks, which have gained momentum due to political strategies, migration flows and increased communications. At stake are both the resilience of the civilisation that imbued South Asia with a specific identity, and the relations between Sunnis and Shias in a region where Saudi Arabia and Iran are fighting a cultural proxy war, as evident in the foreign ramifications of sectarianism in Pakistan. *Pan-Islamic Connections* investigates the nature and implications of the cultural, spiritual and socio-economic rapprochement between these two Islams.

**A New Etymological Vocabulary of Pashto** Georg Morgenstierne, 2003 Pashto is one of the national languages of Afghanistan, which is also spoken by a significant minority in Pakistan. An archaic language of the Iranian family, it offers a vocabulary of extraordinary variety and interest. As well as retaining many words inherited from Old Iranian and ultimately from proto-Indo-European, Pashto has also absorbed a great deal of foreign vocabulary, from Classical Greek to Persian and modern Indian. Georg Morgenstierne's Etymological Vocabulary of Pashto, published in Oslo in 1927, was the first work to explore these multiple relationships in a systematic and comprehensive way. Soon after its publication, Morgenstierne began collecting material for a revised and expanded version, but this remained unfinished when he died more than half a century later in 1978. After the lapse of another quarter of a century, it is at last possible to present the long-awaited New Etymological Vocabulary of Pashto, a completely new work compiled from Morgenstierne's handwritten notes by three leading scholars in the field of Iranian linguistics. In all essentials it remains Morgenstierne's work, though considerably augmented by additional references which take into account the greatly increased information available today on modern Indo-Aryan as well as on Middle Iranian languages such as Bactrian and Khwarezmian. This work supersedes Morgenstierne's earlier Etymological Vocabulary of Pashto and will take its place beside the same author's Etymological Vocabulary of the Shughni Group (Reichert Verlag, 1974) as a standard modern work of reference on the history of the languages of Afghanistan. Complete indexes of all words cited from Iranian, Indo-Aryan and other languages help to make the contents accessible to those who are not specialists in Pashto or other Iranian languages.
