Real Estate Agent Diploma - City of London College of Economics - 3 months - 100% online / self-paced City of London College of Economics, Overview Do you want to make \$100,000+ per year? In any marketplace, a real estate agent has the opportunity to create hundreds of thousands of dollars in income. An agent's income is especially significant when viewed against the capital investment required by the business. Most agents need as little as \$2,000 to start up their practices. Compare that to any other business and you'll find that most involve sizeable investments and burdensome loans to buy equipment, lease space, create marketing pieces, develop business strategies, and hire employees — all to achieve what is usually a smaller net profit than what a real estate agent can achieve in the first few years. It's almost too good to be true! This course will provide you with all the knowledge you need to become a successful real estate agent. This specialist course is about acquiring sales skills, marketing skills, time-management skills, people skills, and business skills. It's about gaining more respect, achieving more recognition, making more money, and closing more sales. It's a guide that helps you achieve the goals and dreams that you have for yourself and your family. You will be taught the "real stuff" that works and is laid out in a hands-on, step-by-step format. You can also find time-tested scripts in most sales-oriented chapters. The scripts are designed to move prospects and clients to do more business with you. (If you're a junior member of the grammar police, you may find that some don't perfectly align with your expectation of the English language. The objective of sales scripts, though, is not perfect sentence structure but rather maximum persuasion of the prospect or client.) Content - Acquiring the keys to Real Estate Success - Prospecting for Buyers and Sellers - Developing a Winning Sales Strategy - Running a Successful Real Estate Business - ten tools that are essential for any real estate agent's success - how to avoid the ten big real estate sales mistakes etc. Duration 3 months Assessment The assessment will take place on the basis of one assignment at the end of the course. Tell us when you feel ready to take the exam and we'll send you the assignment questions. Study material The study material will be provided in separate files by email / download link.

16 Strategies for Sales Sean Moudry,2019-11-16 16 Strategies for Sales will help you understand your own innate preferences, identify sales strategies best suited for your natural abilities and provide you tools to work with other personality types. Many companies spend hundreds of thousands of dollars on assessments to find the magic personality combination for building a successful sales team. In my experience, there are hundreds, if not thousands, of ways to achieve this goal. Most companies focus on a narrow personality type that has been blessed with a natural gift for sales. But, we can all agree that some personalities are more likely to be successful at typical sales strategies. You will see throughout this book how personalities that are not naturally sales-oriented can also achieve success in sales. The key is not to find the rare diamond in the coal, but to find the best way to turn the coal into diamonds. If you are unhappy with what you are doing, or even the business you've created, consider the possibility that you are simply operating outside of your innate preferences. Imagine if there was a strategy you could apply, one in which you worked in alignment with your natural abilities, to achieve your desired success. Our solution was to create our own assessment based on the Myers-Briggs Type Indicator and to develop simple descriptions of each personality type to help you decide what sales strategy might be the most natural for your own innate preferences. The Myers-Briggs Type Indicator has sixteen psychological types, therefore, we developed our own 16 Strategies for Sales, offering a sales strategy for each personality type. We believe the key to individual success is to become aware of our own innate preferences and how they affect our life, happiness and accomplishments. This book is a tool to help you become more aware of yourself and others. When we understand this about ourselves and the people around us, we become influential and will be happier and achieve more success.
