Opportunity Knocks Senator Tim Scott, 2020-04-14

In this memoir about overcoming adversity in America, the U. S. Senator responsible for creating opportunity zones explains how hard work and community growth can drive businesses and end poverty. Senator Tim Scott knows adversity. As the son of a single mother from North Charleston, South Carolina, he struggled to get through school and had his dreams of a college football career shattered by a car wreck. But thanks to his mother and a few mentors along the way, he learned that failure isn't failure unless you quit. He also learned that it's hard work and perseverance, not a government handout, that will get you ahead in life. Today, Senator Scott is the only black Republican in the Senate, and he believes that investment and commerce are the best ways to rebuild our most impoverished communities. This is the idea behind his signature piece of legislation, the opportunity zones program, which President Trump has strongly endorsed. The program provides tax incentives for businesses that invest in low-income urban areas, seeking to replace things like welfare and government assistance. In *Opportunity Knocks*, Senator Scott will tell his life story with a focus on adversity and opportunity. He will teach readers about the principles of hard work and hope while addressing the dangers of veering too far toward socialist policies. The book will also not shy away from discussions of racism and racial inequality in the United States and will recount some of Senator Scott's own brushes with racism as well as the

many discussions he's had with people who want to help, including President Trump.

It's a once-in-a-lifetime opportunity to join the daytime television scene that Alex is determined not to screw up. Then a frank word in the wrong ear puts Alex's job on the line. Alex anticipates Hillary's rage, but she can't believe that this multimillionaire is holding her newest staffer to a nondisclosure agreement that demands reparation of 5 million dollars. Alex has only 48 hours to repair the damage. And with a vengeful Hillary P. watching the clock, the devil will have her due...

Rewilding Agricultural Landscapes H. Scott Butterfield, T. Rodd Kelsey, Abigail K. Hart, 2021-04-08 As the world population grows, so does the demand for food, putting unprecedented pressure on agricultural lands. In many desert dryland regions, however, intensive cultivation is causing their productivity to decline precipitously. Rewilding the least productive of these landscapes offers a sensible way to reverse the damage, recover natural diversity, and ensure long-term sustainability of remaining farms and the communities they support. This accessibly written, groundbreaking contributed volume is the first to examine in detail what it would take to retire eligible farmland and restore functioning natural ecosystems. The lessons in *Rewilding Agricultural Landscapes* will be useful to conservation leaders, policymakers, groundwater agencies, and water managers looking for inspiration and practical advice for solving the complicated issues of agricultural sustainability and water management.
