**The Geography of Bliss** Eric Weiner,2008-01-03 Now a new series on Peacock with Rainn Wilson, THE GEOGRAPHY OF BLISS is part travel memoir, part humor, and part twisted self-help guide that takes the viewer across the globe to investigate not what happiness is, but WHERE it is. Are people in Switzerland happier because it is the most democratic country in the world? Do citizens of Qatar, awash in petrodollars, find joy in all that cash? Is the King of Bhutan a visionary for his initiative to calculate Gross National Happiness? Why is Asheville, North Carolina so damn happy? In a unique mix of travel, psychology, science and humor, Eric Weiner answers those questions and many others, offering travelers of all moods some interesting new ideas for sunnier destinations and dispositions.

***Darwin's Doubt*** Stephen C. Meyer,2013-06-18 When Charles Darwin finished *The Origin of Species*, he thought that he had explained every clue, but one. Though his theory could explain many facts, Darwin knew that there was a significant event in the history of life that his theory did not explain. During this event, the “Cambrian explosion,” many animals suddenly appeared in the fossil record without apparent ancestors in earlier layers of rock. In *Darwin's Doubt*, Stephen C. Meyer tells the story of the mystery surrounding this explosion of animal life—a mystery that has intensified, not only because the expected ancestors of these animals have not been found, but because scientists have learned more about what it takes to construct an animal. During the last half century, biologists have come to appreciate the central importance of biological information—stored in DNA and elsewhere in cells—to building animal forms. Expanding on the compelling case he presented in his last book, *Signature in the Cell*, Meyer argues that the origin of this information, as well as other mysterious features of the Cambrian event, are best explained by intelligent design, rather than purely undirected evolutionary processes.

**Landscapes of the Secular** Nicolas Howe,2016-09-05 “What does it mean to see the American landscape in a secular way?” asks Nicolas Howe at the outset of this innovative, ambitious, and wide-ranging book. It’s a surprising question because of what it implies: we usually aren’t seeing American landscapes through a non-religious lens, but rather as inflected by complicated, little-examined concepts of the sacred. Fusing geography, legal scholarship, and religion in a potent analysis, Howe shows how seemingly routine questions about how to look at a sunrise or a plateau or how to assess what a mountain is both physically and ideologically, lead to complex arguments about the nature of religious experience and its implications for our lives as citizens. In American society—nominally secular but committed to permitting a diversity of religious beliefs and expressions—such questions become all the more fraught and can lead to difficult, often unsatisfying compromises regarding how to interpret and inhabit our public lands and spaces. A serious commitment to secularism, Howe shows, forces us to confront the profound challenges of true religious diversity in ways that often will have their ultimate expression in our built environment. This provocative exploration of some of the fundamental aspects of American life will help us see the land, law, and society anew.

**In Wilderness** Diane Thomas,2015-03-03 SELECTED AS ONE OF THE 10 GREAT THRILLERS FOR YOUR BEACH READING LIST BY ENTERTAINMENT WEEKLY For readers of Ron Rash, Thomas H. Cook, and Tim Johnston, *In Wilderness* is a suspenseful and literary love story hailed by New York Times bestselling author Joshilyn Jackson as “heartbreaking, bold, relentless” and “the work of a true original.” Includes an exclusive conversation between Diane Thomas and Christina Baker Kline Told she is dying of the mysterious illness that plagues her, thirty-eight-year-

old Katherine Reid moves to a remote cabin in the southern mountains to live out her last days. But in this peaceful solitude, her life may still be in terrible danger: A damaged young man also lives in the forest, and he watches her every move. Praise for *In Wilderness* “A harrowing exploration of desire and obsession, *In Wilderness* sends two people into a physical and psychological wilderness that becomes stranger and more terrifying the deeper they go.”—Christina Baker Kline, #1 New York Times bestselling author of *Orphan Train* “Not my usual thing, which makes me say it all the louder: I love, love, love this book—the fearless and unflinching story of two extraordinary, vivid people alone in a vast pristine wilderness, told with genuine suspense and a wonderfully empowering ending. *In Wilderness* is altogether spectacular.”—Lee Child, #1 New York Times bestselling author of *Personal* “Thomas writes hauntingly of obsession and survival in this dark, unusual love story. . . . As the author moves her characters through the seasons of 1966, 1967, and 1968, she offers a deep and unforgettable look into how tragedy and madness can shape lives. Written from the points of view of two suffering people, the story takes on an almost surreal, lyrical quality. Riveting and raw.”—Publishers Weekly “Explosive . . . The tension continues to grow. . . . Thomas writes with richness, describing the natural world as viscerally as she does the interior lives of these two intense characters. . . . Recommended for readers who also like the raw, honest writing of Amy Bloom or Amanda Coplin.”—Library Journal “Gripping . . . powered by genuine suspense and driven forward by two characters whose lives readers cannot look away from . . . a memorable story of an isolated, beautiful place and of two people trying to make sense of the world they have chosen to live in.”—Booklist “Unforgettable: a mad, haunting, dreamlike story of love, obsession, and wildness . . . Diane Thomas mixes elegant prose with raw emotion.”—William Landay, New York Times bestselling author of *Defending Jacob*

*In Pursuit of Memory* Joseph Jebelli,2017-10-31 For readers of Atul Gawande, Siddhartha Mukherjee, and Henry Marsh, a riveting, gorgeously written biography of one of history's most fascinating and confounding diseases -- Alzheimer's -- from its discovery more than 100 years ago to today's race towards a cure. Alzheimer's is the great global epidemic of our time, affecting millions worldwide -- there are more than 5 million people diagnosed in the US alone. And as our population ages, scientists are working against the clock to find a cure. Neuroscientist Joseph Jebelli is among them. His beloved grandfather had Alzheimer's and now he's written the book he needed then -- a very human history of this frightening disease. But *In Pursuit of Memory* is also a thrilling scientific detective story that takes you behind the headlines. Jebelli's quest takes us from nineteenth-century Germany and post-war England, to the jungles of Papua New Guinea and the technological proving grounds of Japan; through America, India, China, Iceland, Sweden, and Colombia. Its heroes are scientists from around the world -- many of whom he's worked with -- and the brave patients and families who have changed the way that researchers think about the disease. This compelling insider's account shows vividly why Jebelli feels so hopeful about a cure, but also why our best defense in the meantime is to understand the disease. *In Pursuit of Memory* is a clever, moving, eye-opening guide to the threat one in three of us faces now.

As soon as he's hired, though, the woman

turns up dead. But that's not the end of the case for Hall. Even though his client is dead, that won't stop him. He's going to get to the bottom of this case and find out the murderer. Through several twists and turns, Hall and Charlotte will find out who killed their dead client. The Shakedown Hall is approached by a marketing executive, asking him to check in on the man's son, who has been acting strange as of late. Though it initially looks like a boring case marked by possible infidelities, the case quickly spirals out of control, and they soon realize there is more than meets the eye.
