Hershman,Joyce G. Mazero,2008 This book sheds light on all aspects of earnings claims, including defining what an earnings claim really is, the origins of its regulation under the franchise disclosure laws, how a franchisor should prepare an earnings claim, how a franchisee should use an earnings claim, how a franchisee may attack lawful and unlawful earnings claims, how a franchisor may defend against such attacks, and how the government franchise enforcement authorities, investigate unlawful earnings claim activity.

Son of the Wilderness: The Life of John Muir Linnie Marsh Wolfe,2019-07-31 First published in 1945, this biography won the Pulitzer Prize in 1946. Its author worked for twenty-two years on John Muir, including as secretary of the John Muir Association and as editor of Muir's unpublished papers. She interviewed

many family members and people who knew and worked with John Muir to produce this account of Muir's life. She recounts Muir's Scottish origins, his early years in the harsh Wisconsin wilderness, his remarkable mechanical aptitude and interest in botany and geology at the University of Wisconsin in Madison where he spent two and a half years before traveling to the Canadian wilderness, and then to California where he spent most of his life. "[A] well-balanced, informative and rewarding biography." — Kirkus Reviews "Into this biography of John Muir, Mrs. Wolfe has packed an amazing amount of factual information which she has illuminated with a sober critical judgment that gives us a convincing portrait of the whole man." — Francis P. Farquhar, Pacific Historical Review "Linnie Marsh Wolfe almost singlehandedly restored John Muir to the respectability and stature he always deserved... [Son of the Wilderness] should be on the reference shelves of anyone seriously interested in American environmental history." — John Opie, Environmental History Review "[A]n interesting personal biography... [Wolfe] creates Muir as a living personality — mystical but athletic, enthusiastic about nature but socially abrupt — a sort of middle-aged Thoreau." — Alexander Kern, Journal of American History "By immersing herself in Muir's life, for example, by soaking in his correspondence and journals, [Wolfe] was able to craft what amounts to a first-person narrative, the autobiography he never wrote for himself." — Char Miller, John Muir Newsletter

Local Public Financial Management Anwar Shah, 2007
Transparent and prudent financial management has come to be recognized as critical to the integrity of local government and to gaining and the trust of local residents. Such integrity and trust is lacking in some developing countries, especially Africa. This

volume attempts to provide practical guidance to local governments interested in establishing sound financial management systems. Leading international experts have contributed to all relevant aspects of local public financial management - cash management, internal controls, accounts, audits, and debt management

Forbidden Words Keith Allan, Kate Burrridge, 2006-10-05 Many words and expressions are viewed as 'taboo', such as those used to describe sex, our bodies and their functions, and those used to insult other people. This 2006 book provides a fascinating insight into taboo language and its role in everyday life. It looks at the ways we use language to be polite or impolite, politically correct or offensive, depending on whether we are 'sweet-talking', 'straight-talking' or being deliberately rude. Using a range of colourful examples, it shows how we use language playfully and figuratively in order to swear, to insult, and also to be politically correct, and what our motivations are for doing so. It goes on to examine the differences between institutionalized censorship and the ways individuals censor their own language. Lively and revealing, *Forbidden Words* will fascinate anyone who is interested in how and why we use and avoid taboos in daily conversation.

Optimization, Variational Analysis and Applications Vivek Laha, Pierre Maréchal, S. K. Mishra, 2021-07-27 This book includes selected papers presented at the Indo-French Seminar on Optimization, Variational Analysis and Applications (IFSOVAA-2020), held at the Department of Mathematics, Institute of Science, Banaras Hindu University, Varanasi, India, from 2-4 February 2020. The book discusses current optimization problems and their solutions by using the powerful tool of variational analysis. Topics covered in this volume include set optimization, multiobjective optimization, mathematical programs with complementary, equilibrium, vanishing and switching constraints, copositive optimization, interval-valued optimization,

sequential quadratic programming, bound-constrained optimization, variational inequalities, and more. Several applications in different branches of applied mathematics, engineering, economics, finance, and medical sciences have been included. Each chapter not only provides a detailed survey of the topic but also builds systematic theories and suitable algorithms to deduce the most recent findings in literature. This volume appeals to graduate students as well as researchers and practitioners in pure and applied mathematics and related fields that make use of variational analysis in solving optimization problems.
