The Enterprise of Death Jesse Bullington, 2011-03-24 As the witch-pyres of the Spanish Inquisition blanket Renaissance Europe in a moral haze, a young African slave finds herself the unwilling apprentice of an ancient necromancer. Unfortunately, quitting his company proves even more hazardous than remaining his pupil when she is afflicted with a terrible curse. Yet salvation may lie in a mysterious tome her tutor has hidden somewhere on the war-torn continent. She sets out on a seemingly impossible journey to find the book, never suspecting her fate is tied to three strangers: the artist Niklaus Manuel Deutsch, the alchemist Dr. Paracelsus, and a gun-slinging Dutch mercenary. As Manuel paints her macabre story on canvas, plank, and church wall, the young apprentice becomes increasingly aware that death might be the least of her concerns.

The Last Pictures Trevor Paglen, 2012-09-19 Chronicles the project that attempts to explain what happened to the human civilizations far in the future after they have disappeared.

Silver-Tongued Devil Jaye Wells, 2012-01-01 Now that the threat of war has passed, Sabina Kane is ready to focus on the future. Her relationship with Adam Lazarus is getting stronger and she's helping her sister, Maisie, overcome the trauma of her captivity in New Orleans. Even Giguhl is managing to stay out of trouble thanks to the arrival of Pussy Willow and his new roller derby team. But as much as Sabina wants to feel hopeful about the future, part of her doesn't believe that peace is possible. Her suspicions are confirmed when a string of sadistic murders threatens to stall treaty negotiations between the mages and

the vampires. Sabina pitches in to find the killer, but her investigation soon leads her down dark paths that have her questioning everyone she thought she could trust. And the closer she gets to the killer, the more Sabina begins to suspect this is one foe she may not be able to kill.

Leviathan Wakes James S. A. Corey, 2011-06-15 From a New York Times bestselling and Hugo award-winning author comes a modern masterwork of science fiction, introducing a captain, his crew, and a detective as they unravel a horrifying solar system wide conspiracy that begins with a single missing girl. Now a Prime Original series. Humanity has colonized the solar system—Mars, the Moon, the Asteroid Belt and beyond—but the stars are still out of our reach. Jim Holden is XO of an ice miner making runs from the rings of Saturn to the mining stations of the Belt. When he and his crew stumble upon a derelict ship, the Scopuli, they find themselves in possession of a secret they never wanted. A secret that someone is willing to kill for—and kill on a scale unfathomable to Jim and his crew. War is brewing in the system unless he can find out who left the ship and why. Detective Miller is looking for a girl. One girl in a system of billions, but her parents have money and money talks. When the trail leads him to the Scopuli and rebel sympathizer Holden, he realizes that this girl may be the key to everything. Holden and Miller must thread the needle between the Earth government, the Outer Planet revolutionaries, and secretive corporations—and the odds are against them. But out in the Belt, the rules are different, and one small ship can change the fate of the universe. Interplanetary adventure the way it ought to be written. —George R. R. Winter's Orbit Everina Maxwell, 2021-02-02 A Sunday Times Bestseller! A 2022 Alex Award Winner! "Sparks fly" (NPR) in Everina Maxwell's gut-wrenching and romantic space opera debut. Prince Kiem, a famously disappointing minor royal and the Emperor's least favorite grandchild, has been called upon to be useful for once. He's commanded to fulfill an obligation of marriage to the representative of the Empire's newest and most rebellious vassal planet. His future husband, Count Jainan, is a widower and murder suspect. Neither wants to be wed, but with a conspiracy unfolding around them and the fate of the empire at stake they will have to navigate the thorns and barbs of court intrigue, the machinations of war, and the long shadows of Jainan's past, and they'll have to do it together. So begins a legendary love story amid the stars. Like Ancillary Justice meets Red, White and Royal Blue, *Winter's Orbit* is perfect for fans of Lois McMaster Bujold. "High-pitched noises escaped me; I shouted, more than once, 'Now kiss!' ... in a world so relentlessly uncertain, there's a powerfully simple pleasure in the experience of a promise kept." —The New York Times Book Review At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A Closed and Common Orbit Becky Chambers, 2016-10-18 National Bestseller! Winner of the Hugo Award for Best Series! A Publishers Weekly Best Books of 2017 pick! Nominated for the 2017 Hugo Award for Best Novel! Shortlisted for the 2017 Arthur C. Clarke Award! Winner of the Prix Julia-Verlanger! Embark on an exciting, adventurous, and dangerous journey through the galaxy with the motley crew of the spaceship *Wayfarer* in this fun and heart-warming space opera—the sequel to the acclaimed *The Long Way to a Small, Angry Planet*. *Lovelace* was once merely a ship's artificial intelligence. When she wakes up in a new body, following a total system shut-down and reboot, she has no memory of what came before. As *Lovelace* learns to negotiate the universe and discover who she is, she makes friends with *Pepper*, an excitable engineer, who's determined to help her learn and grow. Together, *Pepper* and *Lovelace* will discover that no matter how vast space is, two people can fill it together. *The Long Way to a Small, Angry Planet* introduced readers to the incredible world of *Rosemary Harper*, a young woman with a restless soul and secrets to keep. When she joined the crew of the *Wayfarer*, an intergalactic ship, she got more than she bargained for—and learned to live with, and love, her rag-tag collection of crewmates. *A Closed and*

Common Orbit is the stand-alone sequel to that beloved debut novel, and is perfect for fans of Firefly, Joss Whedon, Mass Effect, and Star Wars.

The Orbit Magazine Anthology Robert St. Mary, Benjamin Jesse Blackwell, 2015 With a mischievous globe-headed mascot that appeared in every issue and even on Quentin Tarantino's T-shirt in Pulp Fiction, Orbit was an instantly recognizable arbiter of 1990s Detroit culture. But its irreverent tone and unique editorial features could be traced to two earlier local publications from creator Jerry Peterson, a.k.a. Jerry Vile-White Noise (1978-1980) and Fun: The Magazine for Swinging Intellectuals [sic] (1986-1990). In The Orbit Magazine Anthology: Re-Entry, author Rob St. Mary details the full run of White Noise, Fun, and Orbit, collecting two decades' worth of Detroit's alternative publishing history into an oversized, heavily illustrated volume that situates the publications in the city's pop culture and media history. St. Mary shows that while other alternative papers followed a tried-and-true focus on lefty politics and the arts, Vile's publications found their niche in biting satire and sharp design that fed on popular culture. From the 70s punk scene in White Noise to audacious articles and irreverent news in Fun and a blend of reporting, satire, and culture in Orbit, St. Mary shows that Vile's publications were distinctive in their content and uniquely Detroit in their tone. In sections devoted to each magazine, St. Mary details their recurring features (including dining, movie, and music reviews) and interviews former staffers. Numerous images and page spreads reveal the notable Detroit musicians-like Destroy All Monsters, the Gories, ICP, Jack White, Kid Rock, and Derrick May-and artists-including Niagara, Glenn Barr and Tristan Eaton-that graced their pages. A foreword by Jerry Vile and an afterword by Ben Blackwell round out this one-of-a-kind

volume. Anyone interested in Detroit arts and culture or the history of alternative publishing will be grateful for The Orbit Magazine Anthology.

We Dream of Gods Devin Madson, 2023-03-21 In this complex tale of war, politics, and lust for power (The Guardian), the fate of the world is decided when heroes and gods march into battle one last time in the searing conclusion of this bold and bloody epic fantasy series. There are no gods. Only men. Betrayed by her closest allies, Empress Miko Ts'ai is thrust from ruler to pawn. But she won't suffer the whims of men. A string of dangerous gambles could win Miko her empire for good, but to take back the throne, she must become everything her ancestors failed to be. Rah e'Torin leads a herd again. Now he seeks to honor a promise he made a lifetime ago—to safely bring his Swords home. Yet Rah's loyalty to the past may be his ultimate undoing. Cassandra Marius is lost. Ensnared by memories that aren't her own, Cass must decide who she really is, but the answer lies beyond one final confrontation with Leo Villius. And trapped in the heart of the Chiltaen army, Dishiva e'Jaroven is handed unexpected power. The dream of a new homeland is within her grasp—if she risks everything and trusts her former enemies. Praise for The Reborn Empire: Imaginative worldbuilding, a pace that builds perfectly to a heart-pounding finale and captivating characters. Highly recommended. —John Gwynne, author of The Shadow of the Gods An exciting new author in fantasy. —Mark Lawrence, author of Red Sister The Reborn Empire We Ride the Storm We Lie with Death We Cry for Blood We Dream of Gods For more from Devin Madson, check out: The Vengeance Trilogy The Blood of Whisperers The Gods of Vice The Grave at Storm's End

Orbit: Stephen King Michael Lent, Brian McCarthy, 2011-06 Highlights the life and career of novelist Stephen King, master of the horror genre.

Off the Orbit Kirsten Johannsen, 2012 This research combines the arts with human spaceflight. The aim of the investigation is to identify the aesthetic parameters for display in works of art on extended crewed missions. The study claims that, within the research area of human spaceflight, novel working methods should be developed that can integrate the artist into the scientific process. The extraordinary challenges of extended space exploration not only concern technical and human-bodily aspects, they will also affect the enormous psychological and psychosocial restrictions the spacefarer will face. These limitations are due to the unusual distance and the long timeframes; the future explorers will live confined and isolated within the habitat environment far away from their place of origin. In addition, the consequences of sensory deprivation caused by the high-tech indoor habitat, the emptiness of outer space, the effects of social monotony and limited contact with home will dominate their life in the extreme environment and the emotional state of the future explorer. Many cultural techniques for recreation and stress mitigation are already in use or will be tested in human spaceflight in the near future. However, in this context the implementation of works of art has not been evaluated. The production of works of art for future astronauts represents a new research area. From the artistic perspective, creativity will expand in an unusual manner.

Artists will not only have to develop significant metaphors, they will also be confronted with an unknown responsibility, because the confined and isolated astronaut will become the exclusive audience and user of their works. Furthermore, works of art must follow the particular demands of verifiability, safety, and reliability. These specific conditions will give the artistic work a unique meaning which makes the work a part of the life-sustaining system. The outcome will be an experiment that combines both artistic and scientific strategies.
