Music in Latin America and the Caribbean: An Encyclopedic History REANNOUNCE/F05: Volume 2: Performing the Caribbean Experience Kuss, Malena, The music of the peoples of South and Central America, Mexico, and the Caribbean is treated with unprecedented breadth in this multi-volume work. Taking a sociocultural and human-centered approach, Music in Latin America and the Caribbean gathers the best scholarship from writers all over the world to cover in depth the musical legacies of indigenous peoples, creoles, African descendants, Iberian colonizers, and other immigrant groups that met and mixed in the New World. From these texts, music emerges as the powerful tool that negotiates identities, enacts resistance, performs beliefs, and challenges received aesthetics. More than two decades in the making, this work privileges the perspectives of cultural insiders and emphasizes the role that music plays in human life. Volume 2, Performing the Caribbean Experience, focuses on the reconfiguration of this complex soundscape after the Conquest and on the strategies by which groups from distant worlds reconstructed traditions, assigning new meanings to fragments of memory and welding a fascinating variety of unique Creole cultures. Shaped by an enduring African presence and the experience of slavery and colonization by the Spanish, French, British, and Dutch, peoples of the Caribbean islands and circum-Caribbean territories resorted to the power of music to mirror their history, assert identity, gain freedom, and transcend their experience in lasting musical messages. Essays on pan-Caribbean themes, surveys of traditions, and riveting personal accounts capture the essence of pluralistic and spiritualized brands of creativity through the voices of an unprecedented number of Caribbean authors, including a representative contingent of distinguished Cuban scholars whose work is being published in English translation for the first time in this book. Two CDs with 52 recorded examples illustrate the contributions to this volume.

**The Classical Music Lover's Companion to Orchestral Music** Robert Philip,2018-12-04 An invaluable guide for lovers of classical music designed to enhance their enjoyment of the core orchestral repertoire from 1700 to 1950 Robert Philip, scholar, broadcaster, and musician, has compiled an essential handbook for lovers of classical music, designed to enhance their listening experience to the full. Covering four hundred works by sixty-eight composers from Corelli to Shostakovich, this engaging companion explores and unpacks the most frequently performed works, including symphonies, concertos, overtures, suites, and ballet scores. It offers intriguing details about each piece while avoiding technical terminology that might frustrate the non-specialist reader. Philip identifies key features in each work, as well as subtleties and surprises that await the attentive listener, and he includes enough background and biographical information to illuminate the composer's intentions. Organized alphabetically from Bach to Webern, this compendium will be indispensable for classical music enthusiasts, whether in the concert hall or enjoying recordings at home.

The Music and Life of Theodore "Fats" Navarro Leif Bo Petersen,Theo Rehak,2009-08-24 The *Music and Life of Theodore 'Fats' Navarro*: Infatuation is the first comprehensive study of the jazz trumpeter Theodore 'Fats' Navarro. It provides biographical and discographical information on this talented musician, whose premature death from tuberculosis at 26 robbed the jazz world of his brilliance. Through an analysis of his recorded legacy, this book offers new perspectives on Navarro's role in the history and emergence of Bebop. Through years of study and collecting ephemera, some of which is reprinted here, Leif Bo Petersen and Theo Rehak depict an inclusive history of Navarro and his music. Their information is based on interviews with musicians and people in the music business, contemporary newspaper and magazine articles, and the music itself, which has not been commonly known or described until now. The book features images, musical examples, and depictions of Navarro's recordings, and it provides several appendixes, including explanations of contemporary recording techniques and discographical terms, lists of Navarro's recordings and compositions, and a chronological overview of Navarro's performances, recording sessions, and engagements. Complete with a comprehensive list of sources and a full index, this volume presents a host of new and useful information for anyone interested in jazz and its history.

**The Birth of the Orchestra : History of an Institution, 1650-1815** Music History and Literature San Francisco Conservatory of Music John Spitzer Chair, Neal Zaslaw Professor of Music Cornell University, 2005-08-05 This is the story of the orchestra, from 16th-century string bands to the classical orchestra of Haydn, Mozart, and Beethoven. Spitzer and Zaslaw document orchestral organization, instrumentation, social roles, repertories, and performance practices in Europe and the American colonies, concluding around 1800 with the widespread awareness of the orchestra as a central institution in European life.

The Birth of the Orchestra John Spitzer, Neal Zaslaw, 2004-04-29 This book traces the emergence of the orchestra from 16th-century string bands to the 'classical' orchestra of Haydn, Mozart, Beethoven, and their contemporaries. Ensembles of bowed stringed instruments, several players per part plus continuo and wind instruments, were organized in France in the mid-17th century and then in Rome at the end of the century. The prestige of these ensembles and of the music and performing styles of their leaders, Jean-Baptiste Lully and Arcangelo Corelli, caused them to be imitated elsewhere, until by the late 18th century, the orchestra had become a pan-European phenomenon. Spitzer and Zaslaw review previous accounts of these developments, then proceed to a thoroughgoing documentation and discussion of orchestral organization, instrumentation, and social roles in France, Italy, Germany, England, and the American colonies. They also examine the emergence of orchestra musicians, idiomatic music for orchestras, orchestral performance practices, and the awareness of the orchestra as a central institution in European life.

Broader themes and concepts are discussed in appendices, with additional references provided for further study.

**Conductors and Composers of Popular Orchestral Music** Naomi Musiker, Reuben Musiker, 2014-02-25 World-wide in scope and focusing on the second half of the 20th century, this work provides biographies and discographies of some 500 composers and conductors of light and popular orchestral music, including film, show, theatre and mood music. The book is arranged in two sequences: 1) Biographies and select discographies, both arranged alphabetically, of the well-known and better-known conductors and composers. These entries also include a list of suggested reading for those wishing to further their studies; and 2) Select discographies of conductors about whom little or no biographical information is available. The bibliography at the end of the book covers discographical sources, popular music and film music. This is the first time that the lives and recordings of such artists as Kostelanetz, Faith, and Gould as well as the orchestral recordings of such great popular composers as Gershwin, Kern, Porter,

Rodgers, Berlin and Coward have been documented and presented in an encyclopedic form.
