Vernon God Little DBC Pierre,2012-08-07 “If Huckleberry Finn were set on the Mexican-American border and written by the creators of South Park, it might read something like this.” —San Francisco Chronicle Hailed by critics and lauded by readers for its riotously funny and scathing portrayal of America in an age of trial by media, materialism, and violence, Vernon God Little was an international sensation when it was first published in 2003 and awarded the prestigious Man Booker Prize. The memorable portrait of America is seen through the eyes of a wry, young protagonist. Fifteen-year-old Vernon narrates the story with a cynical twang and a four-letter barb for each of his townsfolk, a medley of characters. With a plot involving a school shooting and death-row reality TV shows, Pierre’s effortless prose and dialogue combine to form a novel of postmodern gamesmanship. “A dangerous, smart, ridiculous, and very funny first novel . . . Pierre renders adolescence brilliantly, capturing with seeming effortlessness the bright, contradictory hormone rush of teenage life.” —Sam Sifton, The New York Times

‘Ndrangheta of Calabria: Exploring a Pragmatic Approach to Confronting Organized Crime Vincent C. Figliomeni PhD,2019-06-30 The persistence of ‘Ndrangheta activities around the world show that deterrence efforts alone directed against organized crime fall short in significantly reducing or preventing ‘Ndrangheta organized crime. Additional approaches derived from the Rational Choice Perspective (RCP) are discussed, which include Routine Activities (RA) and Situational Crime Prevention (SCP). These practical approaches are applied to ‘Ndrangheta for the purpose of identifying required changes in the environment i.e., political, economic, social, technological, legal that are inclusive of environmental (PESTLE) in a framework using Dynamic Operational Design Planning and Assessment Approach (DODPAA). This approach offers a process for designing actions and measuring results for confronting ‘Ndrangheta organized crime. An example framework model using cocaine transiting through the port of Gioia Tauro is created as an illustration to assist in developing a law enforcement, judicial and legislative plans of action in order to measure, evaluate, and have results integrated into more detailed comprehensive plans of action for reducing and eventually preventing overall ‘Ndrangheta organized crime. This book presents a unique practical method, process, and model for security practitioners, criminologists and policy makers to consider for designing plans of action to confront, challenge, and assess future counter ‘Ndrangheta efforts.

ZeroZeroZero Roberto Saviano,2016-08-30 An electrifying, internationally bestselling investigation of the global cocaine trade now a series on Prime Video starring Andrea Riseborough, Dane DeHaan, and Gabriel Byrne, from the author of the #1 international bestseller Gomorrah “Zero zero zero” flour is the finest, whitest available. It is also the nickname among narcotraffickers for the purest cocaine on the market. And it is the title of Roberto Saviano’s unforgettable exploration of the inner workings of the global cocaine trade—its rules and armies, and the true depth of its reach into the world economy. Saviano’s Gomorrah, his explosive account of the Neapolitan mob, the Camorra, was a worldwide sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four-hour police protection for more than eight years. During this time he has come to know law enforcement agencies and officials around the world. With their cooperation, Savaiano has broadened his perspective to take in the entire global “corporate” entity that is the drug trade and the complex money-laundering operations that allow it to function, often with the help of the world’s biggest banks. The result is a harrowing and groundbreaking synthesis of literary narrative and geopolitical analysis exploring one of the most powerful dark forces in our economy. Saviano tracks the shift in the cocaine trade’s axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances with crime syndicates across the globe. He charts the increasing sophistication of these criminal entities as they diversify into other products and markets. He also reveals the astonishing increase in the severity of violence as they have fought to protect and extend their power. Saviano is a writer and journalist of rare courage and a thinker of impressive intellectual depth, able to see connections between far-flung phenomena and bind them into a single epic story. Most drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. Both heart-racing and eye-opening, ZeroZeroZero is an investigative story like none other. Praise for ZerZeroZero: “[Saviano] has developed a literary style that switches from vivid descriptions of human depravity to a philosophical consideration of the meaning of violence in the modern world. . . . Most important of all is the hope Saviano gives to countless victims of criminal violence by standing up to its perpetrators.” —Financial Times

Demystifying ‘Ndrangheta: Challenging the Organized Crime Phenomenon of Calabria Vincent C. Figliomeni PhD,2023-03-29 This book is focused on demystifying ‘Ndrangheta, which includes unraveling ‘Ndrangheta’s behavioral elements that exploit criminal opportunities through conspiracy, collusion, and corruption, common among most mafia’-type groups, reinforced by ‘mafia-mystique’. The ‘Ndrangheta phenomenon has evolved over time by exploiting critical supporting elements of power present within the cultural, socio-economic, and political environments of Calabria, which in turn perpetuates, protects, and sustains 'Ndrangheta's presence and

persistence. A comprehensive and practical anti-/ counter-‘Ndrangheta overarching campaign plan model is presented to assist policy makers, security practitioners, and criminologists in developing a method and a process for taking actions that neutralize essential elements of power and prestige that besides wealth, are primary objectives of ‘Ndrangheta.

Why I Left the Amish Saloma Miller Furlong,2011-01-01 There are two ways to leave the Amish—one is through life and the other through death. When Saloma Miller Furlong’s father dies during her first semester at Smith College, she returns to the Amish community she had left twenty four years earlier to attend his funeral. Her journey home prompts a flood of memories. Now a mother with grown children of her own, Furlong recalls her painful childhood in a family defined by her father’s mental illness, her brother’s brutality, her mother’s frustration, and the austere traditions of the Amish—traditions Furlong struggled to accept for years before making the difficult decision to leave the community. In this personal and moving memoir, Furlong traces the genesis of her desire for freedom and education and chronicles her conflicted quest for independence. Eloquently told, Why I Left the Amish is a revealing portrait of life within—and without—this frequently misunderstood community.

Evolution of Italian Enterprises in the 20th Century Renato Giannetti,Michelangelo Vasta,2009-06-10 During the first two-thirds of the 20th century the themes of sectorial structure and compared performance prevail in Italian economic historiography. In contrast, in the last part of the century attention is focused on the behavior of single economic actors and their micro-economic strategies. This book intends to act as a bridge between the two approaches, and reconstructs the secular journey of Italian industrial enterprise through an original study.
