## **We Don't Know Ourselves: A Personal History of Modern Ireland** Fintan

O'Toole, 2022-03-15 “[L]ike reading a great tragicomic Irish novel.” —James Wood, *The New Yorker*  
“Masterful . . . astonishing.” —Cullen Murphy, *The Atlantic* A landmark history . . . Leavened by the  
brilliance of O'Toole's insights and wit.” —Claire Messud, *Harper's Winner • 2021 An Post Irish Book*  
*Award — Nonfiction Book of the Year •* from the judges: “The most remarkable Irish nonfiction book  
I've read in the last 10 years”; “[A] book for the ages.” A celebrated Irish writer's magisterial,  
brilliantly insightful chronicle of the wrenching transformations that dragged his homeland into the  
modern world. Fintan O'Toole was born in the year the revolution began. It was 1958, and the Irish  
government—in despair, because all the young people were leaving—opened the country to foreign  
investment and popular culture. So began a decades-long, ongoing experiment with Irish national  
identity. In *We Don't Know Ourselves*, O'Toole, one of the Anglophone world's most consummate  
stylists, weaves his own experiences into Irish social, cultural, and economic change, showing how  
Ireland, in just one lifetime, has gone from a reactionary “backwater” to an almost totally open  
society—perhaps the most astonishing national transformation in modern history. Born to a working-  
class family in the Dublin suburbs, O'Toole served as an altar boy and attended a Christian Brothers  
school, much as his forebears did. He was enthralled by American Westerns suddenly appearing on  
Irish television, which were not that far from his own experience, given that Ireland's main export was  
beef and it was still not unknown for herds of cattle to clatter down Dublin's streets. Yet the Westerns  
were a sign of what was to come. O'Toole narrates the once unthinkable collapse of the all-powerful  
Catholic Church, brought down by scandal and by the activism of ordinary Irish, women in particular.  
He relates the horrific violence of the Troubles in Northern Ireland, which led most Irish to reject

violent nationalism. In O'Toole's telling, America became a lodestar, from John F. Kennedy's 1963 visit, when the soon-to-be martyred American president was welcomed as a native son, to the emergence of the Irish technology sector in the late 1990s, driven by American corporations, which set Ireland on the path toward particular disaster during the 2008 financial crisis. A remarkably compassionate yet exacting observer, O'Toole in coruscating prose captures the peculiar Irish habit of "deliberate unknowing," which allowed myths of national greatness to persist even as the foundations were crumbling. Forty years in the making, *We Don't Know Ourselves* is a landmark work, a memoir and a national history that ultimately reveals how the two modes are entwined for all of us.

*Hawk O'Toole's Hostage* Sandra Brown, 1997-10-01 From the one and only Sandra Brown comes a searing novel of romantic suspense. . . as a beautiful young mother falls victim to a brazen crime. . . and a seductive captor. . . . When her divorce was finally granted, Miranda Price thought the worst was behind her. Now she could get on with her life, far from the public scrutiny and private misery that went along with being Representative Price's wife. But when Miranda decides to take their young son on a vacation out West, she stumbles into a mother's worst nightmare. Snatched off a train full of vacationing sightseers, she and her son become the captives of an enigmatic stranger. Miranda knows she will do anything to save her child. . . even if it means fighting her own treacherous feelings for the man who holds her hostage. . . even if it means facing up to a shocking revelation that will make her question her past, her choices, and the woman she's become.

*Loitering With Intent* Peter O'Toole, 1992 The child: The actor's childhood in England.

**Peter O'Toole** Robert Sellers, 2015-09-10 Peter O'Toole was supremely talented, a unique leading man and one of the most charismatic and unpredictable actors of his generation. Described by Richard Burton as 'the most original actor to come out of Britain since the war', O'Toole regularly

seemed to veer towards self-destruction. With the help of exclusive interviews with colleagues and close friends, *Peter O'Toole: The Definitive Biography* paints the first complete picture of this much loved man and reveals what drove him to extremes, why he drank to excess and hated authority. But it also describes a man who was fiercely intelligent, with a great sense of humour and huge energy. Always insightful, at times funny, at times deeply moving, this is a fitting tribute to an iconic actor who made a monumental contribution to theatre and cinema.

**Tim O'Toole and the Wee Folk** Gerald McDermott, 1992-02 When the evil McGoons trick Tim O'Toole out of his fortune, he teams up with his benefactors, the Little People, to regain his treasure. McDermott's illustrated books (including Caldecott winner *Arrow to the Sun*) and animated films have earned him international recognition. Full-color illustrations throughout.

The Moralist Patricia O'Toole, 2019-04-16 Acclaimed author Patricia O'Toole's "superb" (The New York Times) account of Woodrow Wilson, one of the most high-minded, consequential, and controversial US presidents. A "gripping" (USA TODAY) biography, The Moralist is "an essential

contribution to presidential history” (Booklist, starred review). “In graceful prose and deep scholarship, Patricia O’Toole casts new light on the presidency of Woodrow Wilson” (Star Tribune, Minneapolis). The Moralist shows how Wilson was a progressive who enjoyed unprecedented success in leveling the economic playing field, but he was behind the times on racial equality and women’s suffrage. As a Southern boy during the Civil War, he knew the ravages of war, and as president he refused to lead the country into World War I until he was convinced that Germany posed a direct threat to the United States. Once committed, he was an admirable commander-in-chief, yet he also presided over the harshest suppression of political dissent in American history. After the war Wilson became the world’s most ardent champion of liberal internationalism—a democratic new world order committed to peace, collective security, and free trade. With Wilson’s leadership, the governments at the Paris Peace Conference in 1919 founded the League of Nations, a federation of the world’s democracies. The creation of the League, Wilson’s last great triumph, was quickly followed by two crushing blows: a paralyzing stroke and the rejection of the treaty that would have allowed the United States to join the League. Ultimately, Wilson’s liberal internationalism was revived by Franklin D. Roosevelt and it has shaped American foreign relations—for better and worse—ever since. A cautionary tale about the perils of moral vanity and American overreach in foreign affairs, The Moralist “does full justice to Wilson’s complexities” (The Wall Street Journal).

note: This is a summary & not the original book. *Turtles All The Way Down* critically examines the safety testing of vaccines, challenging the assertion that they are exceptionally safe and supported by robust scientific evidence. It highlights the disconnect between the medical establishment's portrayal of vaccine skeptics and the informed concerns of these individuals. The book scrutinizes the thoroughness of vaccine safety testing, revealing that clinical trials often underreport side effects, and control groups are frequently given active substances instead of neutral placebos, skewing safety profiles...

*Summary of Fintan O'Toole's Heroic Failure* Everest Media, 2022-07-24T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Brexit makes sense for a nation that feels sorry for itself. The more highly we think of ourselves, the sorrier we feel for ourselves when we do not get what we know we deserve. Self-pity is the only emotion that can bring these two things together. #2 The British were entitled to a national grudge after they had been on the winning side in the two great twentieth-century wars, and they had suffered economic stagnation. They had lost their empire, become bankrupt, and had their pretensions as a world power brutally exposed in the Suez Crisis of 1956. #3 When the six countries of the Iron and Steel Community met at Messina on 7 November 1955, Britain was invited to join them. It sent a minor official, Russell Bretherton, under-secretary of the Board of Trade. He delivered his verdict: the future treaty had no chance of being agreed, and if it was agreed it would have no chance of being ratified. #4 The English Kingdom of Europe did not come into being. The country was not superior morally or culturally, and yet it still felt it was superior. Brexit was meant to resolve this conflict by fusing these two contradictory moods into a single emotion: the pleasurable self-pity in which one can feel both horribly hard done by and exceptionally grand.

*Summary of Jennifer Cook O'Toole's Autism in Heels* Everest Media, 2022-06-13T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 I had thought I was the link between my children's Asperger's and their diagnoses, but it was actually my husband who had the condition. It didn't matter anyway, because I wasn't a total failure at being human. #2 The last year had been difficult for me. My best friend had been diagnosed with aggressive, stage IV breast cancer. My daughter had been a Make-A-Wish kid after seven years in and out of hospitals. And my two eldest children had been diagnosed with Asperger Syndrome. #3 I began to realize that my father, who had died a few years before, had been my children's genetic twin. He was a brilliant, beloved man, but he was also awkward and anxious in social settings. I never doubted that he loved me and my mother, but I wondered why I wasn't enough to keep his interest. #4 I was looking for a mirror image of myself, but I couldn't find anyone who matched my way of moving through the world. I was constantly on hypervigilant meltdown prevention duty with my kids.

The Enlightened Capitalists James O'Toole, 2019-02-26 An expert on ethical leadership analyzes the complicated history of business people who tried to marry the pursuit of profits with virtuous organizational practices—from British industrialist Robert Owen to American retailer John Cash Penney and jeans maker Levi Strauss to such modern-day entrepreneurs Anita Roddick and Tom Chappell. Today's business leaders are increasingly pressured by citizens, consumers, and government officials to address urgent social and environmental issues. Although some corporate executives remain deaf to such calls, over the last two centuries, a handful of business leaders in America and Britain have attempted to create business organizations that were both profitable and socially responsible. In *The Enlightened Capitalists*, James O'Toole tells the largely forgotten stories of men and women who adopted forward-thinking business practices designed to serve the needs of their employees,

customers, communities, and the natural environment. They wanted to prove that executives didn't have to make trade-offs between profit and virtue. Combining a wealth of research and vivid storytelling, O'Toole brings life to historical figures like William Lever, the inventor of bar soap who created the most profitable company in Britain and used his money to greatly improve the lives of his workers and their families. Eventually, he lost control of the company to creditors who promptly terminated the enlightened practices he had initiated—the fate of many idealistic capitalists. As a new generation attempts to address social problems through enlightened organizational leadership, O'Toole explores a major question being posed today in Britain and America: Are virtuous corporate practices compatible with shareholder capitalism?

### **Summary of Fintan O'Toole's *A History of Ireland in 100 Objects* Everest**

Media,2022-05-18T22:59:00Z Please note: This is a companion version & not the original book.

Sample Book Insights: #1 The story of human beings in Ireland is very short. The first evidence of people living in Ireland goes back only to c. 8000 BC, to the era known as the Mesolithic or middle stone age. The first Irish settlers, at sites such as Mount Sandel in Co. Derry and Lough Boora in Co. Offaly, seem to have depended on wild boar and fish for their non-plant foods. #2 The island of Ireland was not isolated from the rest of Europe, and was constantly changed and influenced by it. The people there made objects that suited their own conditions, and they responded to the pressures of their environment as best they could.

**Fading Scars** Corbett Joan O'Toole, 2015 Uncovering stories about disability history and life, O'Toole shares her firsthand account of some of the most dramatic events in Disability History, and gives voice to those too often yet left out. From the 504 Sit-in and the founding of the Center for Independent Living in Berkeley, to the Disability Forum at the International Woman's Conference in Beijing; through dancing, sports, queer disability organizing and being a disabled parent, O'Toole explores her own and the disability community's power and privilege with humor, insight and honest observations. Corbett Joan O'Toole's *Fading Scars: My Queer Disabled History* is like a song-an anthem, a lullaby, a ballad, a love lyric and a chant all at once. This book of essays chronicles one person's life, but also the 40 years that disability rights and disability justice shaped American history. Its first-person accounts of historical events, fierce focus on disabled identities, and consistently accessible language and structure make it unusual-perhaps even unique-among disability memoirs. Bursting with ideas, stories, and arguments, *Fading Scars* is a book in which experience accrues into knowledge and emerges through the written word as wisdom. *Fading Scars* combines razor-sharp organization with passages of lyrical beauty. It establishes a new standard, perhaps even the beginning of a new aesthetic, for disability writing. - Margaret Price, author of *Mad at School: Rhetorics of Mental Disability and Academic Life*. Illuminating disability history with clear and funny stories, this book builds a home where those of us who have lived on the sidelines can seek shelter. - Naomi Ortiz,

Writer, Artist and Disability Justice Activist Fading Scars is a must read for those interested in disability community, activism, and scholarship. - Kim Nielsen, author of A Disability History of the United States (ReVisioning American History)
