Head-word and Rhyme-word Concordances to Des Minnesangs Frühling Clifton D. Hall,Samuel S. Coleman,1997 The works of twenty-three German poets are contained in Des Minnesangs Fruhling (The Blossomings of Courtly Love Poetry), a collection of medieval songs dating from about 1150 to 1220, during which time the genre of courtly love poetry developed from its beginnings to and through its zenith. Although this anthology is one of the most significant collections of pre-modern love poetry, in the German language, until now no lexicographic reference tools have yet been published for the study of its form and language.Des Minnesangs Fruhling will make possible the kinds of study of the Middle High German lyrics that have heretofore been impossible. The 512-page work contains a head-word concordance including both principal and high-frequency words, a ranking frequency list, and a reverse sort list. The rhyme-word index organizes the rhyming words of all twenty-three poets within a single section. This concordance is indeed a groundbreaking new tool in the study of Middle High German lyrics.

**Fama** Thelma Fenster,Daniel Lord Smail,2018-08-06 In medieval Europe, the word fama denoted both talk (what was commonly said about a person or event) and an individual's ensuing reputation (one's fama). Although talk by others was no doubt often feared, it was also valued and even cultivated as a vehicle for shaping one's status. People had to think about how to manage their fama, which played an essential role in the medieval culture of appearances.At the same time, however, institutions such as law courts and the church, alarmed by the power of talk, sought increasingly to regulate it. Christian moral discourse, literary and visual representation, juristic manuals, and court records reflected concern about talk. This book's authors consider how talk was created and entered into memory. They address such topics as fama's relation to secular law and the preoccupations of the church, its impact on women's lives, and its capacity to shape the concept of literary authorship.
