Nestled at the end of a box canyon, surrounded by jagged 13,000 and 14,000-foot peaks--this tiny, yet charming, community boasts endless opportunities for outdoor adventures. Dozens of trails, ideal for hiking and mountain biking, are easily accessible from town and allow visitors to explore the forests, fields, and high country of the San Juan Mountains--the longest mountain chain in the Rockies. With so many outdoor recreation options, visitors to Telluride have an enviable problem, where should they start? This map is a combination of a standard trail map on the front with a helpful guide on the back that has a selection of recommended hikes, from the moderate 1.6 mile Ridge Trail to the strenuous 2,900 foot climb up to Liberty Bell Basin. Each selected trail includes a brief description, specs such as elevation gain and length as well as a detailed elevation profile to track your progress up and down the numerous peaks and valleys. Each Local Trails map includes detailed trail maps at 1 inch = 1/2 mile. At this scale every turn of the trail is clearly visible and when covering steep terrain the contours are clearly visible. In addition to the standard features like trailheads and parking areas the maps also show difficulties for each trail segment so you can tell if the entire trail is moderate or if there is only a single short section of difficult on an otherwise easy trail. Every Local Trails map is printed on Backcountry Tough waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Map Scale = 1:31,680 Sheet Size = 26.25 x 19.5 Folded Size = 4 x 7.5

Outdoor Kids in an Inside World Steven Rinella, 2023-05-23 NEW YORK TIMES BESTSELLER • "An imperative call to action" (Nick Offerman) to get children off their screens and into nature, with tips for bonding activities that teach the importance of outside time and build tough, curious, competent kids—from the New York Times bestselling author and host of the TV series and podcast MeatEater "A revelation for families struggling to get kids to GO OUTSIDE, or to just stop using the darn smartphone."—Michaeleen Doucleff, PhD, New York Times bestselling author of Hunt, Gather, Parent In the era of screens and devices, the average American spends 90 percent of their time indoors, and children are no exception. Not only does this phenomenon have consequences for kids' physical and mental health, it jeopardizes their ability to understand and engage with anything beyond the built environment. Thankfully, with the right mind-set, families can find beauty, meaning, and connection in a life lived outdoors. Here, outdoors expert Steven Rinella shares the parenting wisdom he has garnered as a father whose family has lived amid the biggest cities and wildest corners of America. Throughout, he offers practical advice for getting kids radically engaged with nature in a muddy, thrilling, hands-on way, with the ultimate goal of helping them see their own place within the natural ecosystem. No matter their location—rural, suburban, or urban—caregivers and kids will bond over activities such as: • Camping to conquer fears, build tolerance for dirt and discomfort, and savor the timeless pleasure of swapping stories around a campfire. • Growing a vegetable garden to develop a capacity to nurture and an appreciation for hard work. • Fishing local lakes and rivers to learn the value of patience while grappling with the possibility of failure. • Hunting for sustainably managed wild game to face the realities of life, death, and what it really takes to obtain our food. Living an outdoor lifestyle fosters in kids an insatiable curiosity about the world around them, confidence and self-sufficiency, and, most important, a lifelong sense of stewardship of the natural world. This book helps families connect with nature—and one another—as a joyful part of everyday life.
