Betty S. Anderson

The American University of Beirut Betty S. Anderson,2011-11-15 Since the American University of Beirut opened its doors in 1866, the campus has stood at the intersection of a rapidly changing American educational project for the Middle East and an ongoing student quest for Arab national identity and empowerment. Betty S. Anderson provides a unique and comprehensive analysis of how the school shifted from a missionary institution providing a curriculum in Arabic to one offering an English-language American liberal education extolling freedom of speech and analytical discovery. Anderson discusses how generations of students demanded that they be considered legitimate voices of authority over their own education; increasingly, these students sought to introduce into their classrooms the real-life political issues raging in the Arab world. The Darwin Affair of 1882, the introduction of coeducation in the 1920s, the Arab nationalist protests of the late 1940s and early 1950s, and the even larger protests of the 1970s all challenged the Americans and Arabs to fashion an educational program relevant to a student body constantly bombarded with political and social change. Anderson reveals that the two groups chose to develop a program that combined American goals for liberal education with an Arab student demand that the educational experience remain relevant to their lives outside the school's walls. As a result, in eras of both cooperation and conflict, the American leaders and the students at the school have made this American institution of the Arab world and of Beirut.

American Universities in the Middle East and U.S. Foreign Policy Pratik Chougule,2022-06-08 Using prominent American-style universities as case studies, American Universities in the Middle East and U.S. Foreign Policy explores how these institutions relate to U.S. foreign policy interests and how this relationship has evolved from the mid-19th century to today.

The American Contractor ,1916

American Arabists in the Cold War Middle East, 194675 Teresa Fava Thomas,2016-07-06 This book examines the careers of 53 area experts in the US State Department's Middle East bureau during the Cold War. Known as Arabists or Middle East hands, they were very different in background, education, and policy outlook from their predecessors, the Orientalists. A highly competitive selection process and rigorous training shaped them into a small corps of diplomatic professionals with top-notch linguistic and political reporting skills. Case studies shed light on Washington's perceptions of Israel and the Arab world, as well as how American leaders came to regard (and often disregard) the advice of their own expert advisors. This study focuses on their transformative role in Middle East diplomacy from the Eisenhower through the Ford administrations.

Arab Intellectuals and American Power M.D. Walhout,2020-10-01 Edward Said, the famous Palestinian American scholar and activist, was one of the twentieth century's most iconic public intellectuals, whose pioneering and – to some – controversial work on Orientalism shaped Middle Eastern and postcolonial studies and beyond. But how exactly did he arrive at his famous maxim to 'speak truth to power'? This dual biographical study examines the lives of Edward Said and the eminent Lebanese philosopher and diplomat Charles Malik, a distant relative 30 years his senior whom Said knew from childhood as "Uncle Charles." To Said, Malik was no ordinary relative; in his memoir, he called Malik "the great negative intellectual lesson of my life", and was to describe him as "an ideal as I was growing up" only to later claim Malik "went through an ugly transformation that I could never come to terms with". M.D. Walhout charts the development of these two remarkable figures, reconstructing in the process the way in which American power in the Middle East came to have a defining effect on Arab intellectuals in the twentieth century. Exploring issues of religion and nationalism, Walhout

shows how Said came to reject much of what Malik stood for: Christian faith, hardline anti-Communism and the benign nature of American power. He argues that the example of Malik was instrumental in the development of Said's later belief that the true vocation of the intellectual was not to compromise with power, but to resist it.

Lebanon in Strife Halim Barakat,2014-06-23 In this study, an eminent sociologist of the Arab world analyzes student politics in Lebanon and their relationship to the civil war. This focus is part of a larger concern with upheaval in Arab society and with political and social integration in mosaic societies in general. Professor Barakat provides a clear, thorough, and comprehensive analysis of late twentieth century Lebanese society and the dominant ideological veins within it. Lebanon in Strife is a comparative study of Lebanese youth with special emphasis on their alienation from society and politics and their place at the vanguard of social change. The study is set in the context of the continual confrontation between forces for change and the established order in Lebanon, viewed from both a local and an international perspective. The author argues that vertical loyalties (based on religious, ethnic, or regional ties) are more significant than horizontal loyalties (based on socioeconomic class) in determining Lebanese student political behavior and attitudes. However, vertical loyalties are explained in socioeconomic terms, for the two forms of cleavages coincide; and the whole society is composed of religious communities arranged in a hierarchy of power and status. The author shows that these ties conflict with and undermine orderly social change and national unity and that they could account for conditions that have led to civil war in Lebanon. In an epilogue, Professor Barakat relates his analysis of student politics to political developments in Lebanon during the civil war of 1975–1976, including an assessment of the role of Syria and the prospects for a negotiated end to armed struggle in the country. This is the first empirical study of Lebanese political life viewed from the standpoint of its central force for change, the students. It is an invaluable resource for students of the modem Middle East as well as for specialists in sociology, politics, and history. Lebanon in Strife has special relevance to problems of political change and development in the Third World countries, providing a sociopolitical model for the analysis of student politics in traditional and transitional societies.

Kyrgyz Republic International Monetary Fund,2010-10-29 The Kyrgyz government faces challenges of political turmoil and inter-ethnic flare-ups. The fiscal policy response to the economic crisis is appropriate, but there are limits to the expansion. The balances between revenue and expenditure choices as well as a shortfall in donor budget financing have to be maintained. Debt sustainability requires near and medium-term fiscal consolidation. Monetary policy has to support the post-crisis economic recovery while guarding against signs of exchange rate or inflation pressures. The emphasis on improving governance, transparency, and safeguards is commended.

Regional Economic Outlook, November 2012, Middle East and Central Asia International Monetary Fund. Middle East and Central Asia Dept.,2012-11-09 The outlook for the Middle East and North Africa region is mixed. Oil-importing countries are witnessing tepid growth, and the moderate recovery expected in 2013 is subject to heightened downside risks. For the Arab countries in transition, ongoing political transitions also weigh on growth. With policy buffers largely eroded, the need for action on macroeconomic

stabilization and growth-oriented reforms is becoming increasingly urgent. Countries will need to put in place safety nets to protect the poor and build consensus for some difficult fiscal choices. The region's oil exporters are expected to post solid growth in 2012, in part due to Libya's better-than-expected postwar recovery. In the countries of the Gulf Cooperation Council, robust growth is supported by expansionary fiscal policies and accommodative monetary conditions. In the Caucasus and Central Asia, the outlook remains favorable, reflecting high oil prices that are benefiting oil and gas exporters, supportive commodity prices and remittance inflows benefiting oil and gas importers, and, for both groups, moderate direct exposure to Europe. The positive outlook provides an opportunity to strengthen policy buffers to prepare for any downside risks.

The Global Transformation of Time Vanessa Ogle,2015-10-12 As railways, steamships, and telegraph communications brought distant places into unprecedented proximity, previously minor discrepancies in local time-telling became a global problem. Vanessa Ogle's chronicle of the struggle to standardize clock times and calendars from 1870 to 1950 highlights the many hurdles that proponents of uniformity faced.

Higher Education in the Arab World Adnan Badran,Elias Baydoun,Sandra Hillman,Joelle Mesmar,2023-09-26 This book provides a comprehensive insight into the benefits and advantages of adopting technology-driven learning as a central pillar of the universities' teaching, learning, research, and social-responsibility strategies. Despite the importance of adopting technology-enhanced learning within higher education institutions, Arab countries are still slow to change. Arab Universities are facing the need to adopt new methods of learning to serve the demands of a changing demography in the higher education community as well as the requirements of Industry 4.0 and Society 4.0. E-Learning and distance education are not just about technology, but they are about education, pedagogy, curriculum design, research, and innovation. The book also discusses the best methods to implement these modes of learning while taking into consideration all the hurdles and challenges specific to the Arab world. The needs of students (undergraduate and postgraduate), faculty, and the university at large are considered while drawing on the best quality-assurance practices to ensure the quality of education remains uncompromised. Also featured in this book are experiences from Arab Universities and recommendations for improvements that facilitate the use of education technology tools as part the university's pedagogy to harness the full potential for implementing e-learning and distance education.
