Healthcare 3.0 Rubin Pillay, 2018-10-22 Over the coming years, health care will encounter some of the greatest transitions any generation has ever had to face. The convergence of exponential technologies will transform medicine and health care in ways that sounded like science fiction a mere decade ago and dramatically disrupt our very notion of patients, providers, and payers. This book takes a look at how technology is set to elevate patients to prosumers, help migrate care delivery from a pipeline-based approach to a platform-based one, and transform our current insurance-based payment system to an outsurance-based system.

Counting the Cost of COVID-19 on the Global Tourism Industry Godwell Nhamo, Kaitano Dube, David Chikodzi, 2020-09-19 This book profiles preliminary findings on the impact of COVID-19 on the travel, tourism and hospitality sector. Starting with a narrative relating COVID-19 to the global development agendas, the book proceeds with a focus on global tourism value chains and linkages between COVID-19 and the Sustainable Development Goals (SDGs). Other perspectives addressed in separate chapters include impacts of COVID-19 on various industries within the global tourism value chain including aviation, airports, cruise ships, car rentals as well as ride and share car services, hotels, restaurants, sporting,

pilgrimage and religious tourism, gaming and entertainment, and the stock market. The book also includes chapters on corporate, philanthropic and public donations, as well as tourism economic stimulus packages. It then concludes with a chapter focusing on building back a better tourism sector post-COVID-19 that strongly draws from the Sendai Framework on Disaster Risk Reduction (2015-2030) and the disaster cycle. To this end, this book is suitable as a read for several professionals in disciplines such as tourism and hospitality studies, economics, sustainable development, development studies, environmental sciences, geography, politics, planning and public health.

Financial Inclusion Regulatory Practices in SADC

Howard Chitimira, Tapiwa Victor Warikandwa, 2023-05-25

Against a background of calls to prioritise the improvement of financial inclusion in Africa, this book provides an analysis of current financial inclusion measures in Southern Africa. Evaluating the existing strengths and weaknesses of financial inclusion in Africa, it identifies opportunities to improve inclusive financial services and aid poverty reduction in the region. With a focus on South Africa, Namibia, Botswana, and Zimbabwe as case studies for assessing current financial inclusion in the context of particular challenges faced by unbanked and underbanked customers, who are easy targets for cybercriminals due to low levels of digital literacy, it looks into the regulation and promotion of financial inclusion in Southern Africa. The book explores financial inclusion in the context of digital transformation in the 21st century, examining the regulation and promotion of financial inclusion in the context of digital transformation, as well as the challenges related to financial inclusion. Suggesting improvements to aspects of company law, securities and financial markets in

the Southern African Development Community region, the book offers a comprehensive study on the regulation and promotion of financial inclusion in the Southern African Development Community region. It will be essential reading for students and academics researching financial inclusion, international economic law and development.

Carter v Boehm and Pre-Contractual Duties in Insurance Law Yong Qiang Han, Greg Pynt, 2018-06-28 Revisiting *Carter v Boehm*, the collected papers in this book are intended as a catalyst for rethinking the pre-contractual duties in insurance law and the related principle of utmost good faith at a critical time for insurance law. In so doing, it endeavours to provide insurance law students, academics, practitioners and judges with new perspectives for a keen understanding of this fundamental aspect of insurance law, which has become increasingly dynamic under both common law and civil law legal traditions. It will explore to what extent and why the doctrines of pre-contractual duties in insurance law under the two major legal traditions are converging, as well as the implications of such convergence. It will be of great interest to students, academics and practitioners in the field of insurance law.

Gqimm Shelele Mandy Wiener, 2022-10-03 As a young, soccer-mad boy living in rural KwaZulu-Natal, Robert Marawa listened to the commentary of local football derbies on a small, crackling FM radio. As a teenager, he spent hours practising his presenting skills on his family's home video recorder, reading from newspaper clippings his mother had carefully kept for him while he was at boarding school in Hilton. Marawa's dream was to be a sportscaster who would be beamed into the homes of South Africa's footballing fans. Robert Marawa's career has exceeded his wildest imagination. 'Madluphuthu' has become arguably South Africa's most popular and most recognisable sports

broadcaster. With his quick turn of phrase, his baritone voice and his direct, no-nonsense approach, he has earned a loyal following on radio and television over the past two decades. In Gqimm Shelele, his signature sign-off phrase, Marawa shares his broadcasting journey from hosting World Cups and interviewing presidents to his multiple firings, controversial suspensions and what he believes are the political forces behind attempts to end his career. He confronts the cabal that has repeatedly driven him off air, the tabloid reports about his personal life and his multiple near-death experiences and health scares. With his trademark passion, Marawa addresses issues of transformation, sports administration, mentorship, political leadership and why Bafana Bafana keeps failing to win. He also shares his insights on what has made him a successful and popular radio and television broadcaster, giving a much-anticipated, behind-the-scenes look at his career.

Fortunes Ebbe Dommissie, 2021-04-27 A handful of Afrikaners have risen to the very top of the business world in South Africa in the past three decades, some of them now dollar billionaires with vast global business interests. With Koos Bekker at its helm, media group Naspers grew to dominate the Johannesburg Stock Exchange and was transformed into a global consumer internet group. Johann Rupert boldly extended Richemont's share in the upper-end market of luxury goods, while Christo Wiese and Whitey Basson at Pepkor and Shoprite became Africa's largest clothing and food retailers. Based predominantly on personal interviews, *Fortunes* reveals why individuals such as Jannie Mouton, Michiel le Roux, Douw Steyn, Johan van Zyl, GT Ferreira, Hendrik du Toit, and several commercial farmers, turn whatever they touch to gold. Work ethic, astute alliances and an appetite for risk have catapulted them to great heights. The rise of the Afrikaner super-rich has coincided with the government's black economic empowerment programme, making it one of the unexpected features of the South African economy today. *Fortunes* is an unrivalled work that explains who these tycoons are, how they built their empires and how the sensational collapse of Steinhoff International, led by Markus Jooste, almost destroyed some of their fortunes. The book boldly interrogates their spirit of enterprise, faults and follies, but also their vast philanthropic contributions to the country.
