In his new book, HYPERGROWTH, serial entrepreneur and Drift co-founder/CEO David Cancel shares a modern approach for building products and structuring teams that makes customer communication a central priority. The book tells the story of how Cancel's customer-driven approach started out as a test with a product team (Performable), transformed an entire organization (HubSpot), and sparked a new movement (Drift). What's Inside: Practical Advice and Frameworks for Becoming Customer-Driven and Growing Your Business Responsive Development (RD): a new approach to building products that adds the customer back into the equation The Burndown Framework: a framework for implementing Responsive Development that's faster and more flexible than Agile. With the rise of SaaS and the on-demand economy, customer expectations have changed. Customers expect their voices to be heard. Construction Safety Rita Yi Man Li, Sun Wah

Poon, 2013-03-01 A close-to-ideal blend of suburb and city, speedy construction of towers of Babylon, the sparkling proportion of glass and steel buildings' facade at night showcase the wisdom of humans. They also witness the footsteps, sweats and tears of

architects and engineers. Unfortunately, these signatures of human civilizations are swathed in towering figures of construction accidents. Fretting about these on sites, different countries adopt different measures on sites. This book firstly sketches the construction accidents on sites, followed by a review on safety measures in some of the developing countries such as Bermuda, Egypt, Kuwait and China; as well as developed countries, for example, the United States, France and Singapore. It also highlights the enormous compensation costs with the courts' experiences in the United Kingdom and Hong Kong.

The Haunting Past Henry Rousso,2002-02-04 The Haunting Past is a brief but richly textured treatment of the role of the historian in dealing with information about contemporary political and legal matters.—Libraries and Culture

The Long Aftermath Manuel Bragança,Peter Tame,2015-12-01 In its totality, the “Long Second World War”—extending from the beginning of the Spanish Civil War to the end of hostilities in 1945—has exerted enormous influence over European culture. Bringing together leading historians, sociologists, and literary and film scholars, this broadly interdisciplinary volume investigates Europeans’ individual and collective memories and the ways in which they have shaped the continent’s cultural heritage. Focusing on the major combatant nations—Spain, Britain, France, Italy, Germany, Poland, and Russia—it offers thoroughly contextualized explorations of novels, memoirs, films, and a host of other cultural forms to illuminate European public memory.

Cities Into Battlefields Stefan Goebel,Derek Keene,2011-01-01 This book explores the cultural imprint of military conflict on metropolises worldwide in the First and Second World Wars. It brings together cultural and urban historians and scholars of anthropology, education, geography, and urban planning, and examines how the emergence of 'total' warfare blurred the boundaries between home and front and transformed cities into battlefields. The central contention of this volume, that total war in the twentieth century has a significant but often overlooked metropolitan dimension, is addressed, filling a gap in the currently available literature.

Hell-diver's Vengeance Buck Buchanan,2001 So traumatized by the attack on Pearl Harbour was the author, that he vowed to get a Japanese battleship in retaliation. On April 7th, 1945 he

fulfilled that vow!

The Algeria Hotel Adam Nossiter, 2001 The Algeria Hotel in Vichy was the sight of the Gestapo Headquarters in World War II: an emblem of the French cohabitation with the worst excesses of Nazism. This book aims to lift the veil of amnesia now shrouding France's collective memory of such collusion - in Bordeaux, Vichy and Tulle.

Difficult Heritage Sharon Macdonald, 2010-10-04 How does a city and a nation deal with a legacy of perpetrating atrocity? How are contemporary identities negotiated and shaped in the face of concrete reminders of a past that most wish they did not have? Difficult Heritage focuses on the case of Nuremberg – a city whose name is indelibly linked with Nazism – to explore these questions and their implications. Using an original in-depth research, using archival, interview and ethnographic sources, it provides not only fascinating new material and perspectives, but also more general original theorizing of the relationship between heritage, identity and material culture. The book looks at how Nuremberg has dealt with its Nazi past post-1945. It focuses especially, but not exclusively, on the city's architectural heritage, in particular, the former Nazi party rally grounds, on which the Nuremberg rallies were staged. The book draws on original sources, such as city council debates and interviews, to chart a lively picture of debate, action and inaction in relation to this site and significant others, in Nuremberg and elsewhere. In doing so, Difficult Heritage seeks to highlight changes over time in the ways in which the Nazi past has been dealt with in Germany, and the underlying cultural assumptions, motivations and sources of friction involved. Whilst referencing wider debates and giving examples of what was happening elsewhere in Germany and beyond, Difficult Heritage provides a rich in-depth account of this most fascinating of cases. It also engages in comparative reflection on developments underway elsewhere in order to contextualize what was happening in Nuremberg and to show similarities to and differences from the

ways in which other 'difficult heritages' have been dealt with elsewhere. By doing so, the author offers an informed perspective on ways of dealing with difficult heritage, today and in the future, discussing innovative museological, educational and artistic practice.

Choices in Vichy France John Sweets, 1986-03-13 Basing his work on French and German archives as well as on interviews and private correspondence, Sweets examines the French response to the Vichy government and Nazi occupation by studying Vichy's application of their experiment to the city of Clermont-Ferrand.

Remembering the Second World War Patrick Finney, 2017-07-14 Remembering the Second World War brings together an international and interdisciplinary cast of leading scholars to explore the remembrance of this conflict on a global scale. Conceptually, it is premised on the need to challenge nation-centric approaches in memory studies, drawing strength from recent transcultural, affective and multidirectional turns. Divided into four thematic parts, this book largely focuses on the post-Cold War period, which has seen a notable upsurge in commemorative activity relating to the Second World War and significant qualitative changes in its character. The first part explores the enduring utility and the limitations of the national frame in France, Germany and China. The second explores transnational transactions in remembrance, looking at memories of the British Empire at war, contested memories in East-Central Europe and the transnational campaign on behalf of Japan's former 'comfort women'. A third section considers local and sectional memories of the war and the fourth analyses innovative practices of memory, including re-enactment, video gaming and Holocaust tourism. Offering insightful contributions on intriguing topics and illuminating the current state of the art in this growing field, this book will be essential reading for all students and scholars of the history and memory of the Second World War.

Of Books And Sloths Moody Video,1955-01-01 The sloth. Nature's champion sluggard. One of the most misunderstood animals in the world. As recent as a century ago the sloth was regarded as a 'blunder of nature.' To capture this story, the Moody Institute of Science did research in the laboratory and in the jungles of Panama.The message Of Books and Sloths points out the dependability and the accuracy of the Scriptures as compared with man's writings which must be constantly revised to correct inaccuracies.Approximate Running Time: 29 minutes Age Group:Elementary and Up

Shattered Spaces Michael Meng,2011-11-29 After the Holocaust, the empty, silent spaces of bombed-out synagogues, cemeteries, and Jewish districts were all that was left in many German and Polish cities with prewar histories rich in the sights and sounds of Jewish life. What happened to this scarred landscape after the war, and how have Germans, Poles, and Jews encountered these ruins over the past sixty years? In the postwar period, city officials swept away many sites, despite protests from Jewish leaders. But in the late 1970s church groups, local residents, political dissidents, and tourists demanded the preservation of the few ruins still standing. Since the collapse of the Soviet Union in 1989, this desire to preserve and restore has grown stronger. In one of the most striking and little-studied shifts in postwar European history, the traces of a long-neglected Jewish past have gradually been recovered, thanks to the rise of heritage tourism, nostalgia for ruins, international discussions about the Holocaust, and a pervasive longing for cosmopolitanism in a globalizing world. Examining this transformation from both sides of the Iron Curtain, Michael Meng finds no divided memory along West-East lines, but rather a shared memory of tensions and paradoxes that crosses borders throughout Central Europe. His narrative reveals the changing dynamics of the local and the

transnational, as Germans, Poles, Americans, and Israelis confront a built environment that is inevitably altered with the passage of time. *Shattered Spaces* exemplifies urban history at its best, uncovering a surprising and moving postwar story of broad contemporary interest.--book jacket.

Place and Locality in Modern France Philip Whalen, Patrick Young, 2014-10-23 *Place and Locality in Modern France* analyses the significance and changing constructions of local place in modern France. Drawing on the expertise of a range of scholars from around the world, this book provides a timely overview of the cross-disciplinary thinking that is currently taking place over a central issue in French history. The contributed chapters address a range of subjects that include: the politics of administrative reform, decentralization, regionalism and local advocacy; the role of commerce in engendering narratives and experience of local place; the importance of ethnic, class, gender and race distinctions in shaping local connection and identity; the generation and transmission of knowledge about local place and culture through academia, civic heritage and popular memory. As a reconsideration of the 'local' in French history, *Place and Locality in Modern France* bridges the divide between micro- and macro-history for all those interested in ideas of locality and culture in modern French and European history.

From Ruins to Reconstruction Karl D. Qualls, 2009 Based on extensive research in archives in both Moscow and Sevastopol, architectural plans and drawings, interviews, and his own extensive experience in Sevastopol, Qualls tells a unique story in which the periphery bests the Stalinist center.
