Super Performing At Work and At Home Robert J. Cerfolio, 2014-05-27 A book about how to become a super performer in everything you do—and how to find the real reason for wanting to super perform. How do you handle a “no-win” situation? According to world-renowned cardiothoracic surgeon Robert J. Cerfolio—“the Michael Jordan of lung surgery”—there’s often no such thing. Sharing his own remarkable feats as a collegiate first-team academic all-American baseball player, his rise from a surgical resident at the Mayo Clinic to the recognized world authority in chest and robotic thoracic surgery, and anecdotes from his long career as a Little League coach and father, Cerfolio shows you how to think like a super performer in everything you do. Revealing the techniques, lessons, and strategies he himself learned through playing sports, he teaches you to attain what he calls “the athleticism of life”: the practice that elevates the mind and body of the good to the great and makes a star performer

into a super performer. Yet, as Dr. Cerfolio learns when his wife tests positive for breast cancer, this isn't the entire story—and what ultimately defines us is how well we can meet our obligations when placed under the most crushing pressure. In this provocative memoir/guidebook, Cerfolio sets you on your path to super performing—but teaches you, through his story, that your path is not complete without an honorable cause to steer toward and give your all.

Making the American Body Jonathan

Black,2020-04-01 If you thought the fitness craze was about being healthy, think again. Although Charles Atlas, Jack LaLanne, Jim Fixx, Jane Fonda, Richard Simmons, and

Jillian Michaels might well point the way to a better body, they have done so only if their brands brought in profits. In the first book to tell the full story of the American obsession with fitness and how we got to where we are today, Jonathan Black gives us a backstage look at an industry and the people that have left an indelible mark on the American body and the consciousness it houses. Spanning the nation's fitness obsession from Atlas to Arnold, from Spinning to Zumba, and featuring an outrageous cast of characters bent on whipping us into shape while simultaneously shaping the way we view our bodies, Black tells the story of an outsized but little-examined aspect of our culture. With insights drawn from more than fifty interviews and attention to key developments in bodybuilding, aerobics, equipment, health clubs, running, sports medicine, group exercise, Pilates, and yoga, *Making the American Body* reveals how a focus on fitness has shaped not only our physiques but also, and more profoundly, American ideas of what fitness is.
