Red Light Camera Systems Cynthia Munoz, 2015 Red light running is one of the major causes of crashes, deaths, and injuries at signalised intersections. The Federal Highway Administration (FHWA) and National Highway Traffic Safety Administration (NHTSA) support a comprehensive approach to intersection safety that incorporates engineering, education, and enforcement countermeasures to prevent red light running and improve intersection safety. Red light cameras can be a very effective countermeasure to prevent red light running. There are a number of studies that indicate reduction in crashes at signalised intersections due to red light cameras. The fundamental objective of the research in this book is to determine the effectiveness of RLC systems in reducing crashes. A description of all project efforts is described in this book.

Torn to Pieces Vincent Morrone, 2023-08-28 The exciting conclusion to the award-winning Torn series... Brooke Madison was a kid born on the wrong side of a corrupt town, unable to read and terrified to close his eyes at night. Now Brooke is a rising star in the FBI--a profiler who can look at a crime scene and see into the souls of murderers. Prolific serial killer Edward Hunter has operated in the shadows for decades, with the help of some powerful friends. But now he's been exposed, and it's Brooke's job to go back to

Ember Falls and uncover all of Hunter's secrets. That means talking to an emotionally scarred nine-year-old Cole Duncan, Hunter's former stepson, who is under the care of Lilly Danvers, the woman Brooke never got over. Everyone says Hunter is on the run, but Brooke believes in the end, he'll return for the stepson he once controlled.

Internet Television Eli M. Noam,Jo Groebel,Darcy Gerbarg,2003-09-12 Internet TV is the quintessential digital convergence medium, linking television, telecommunications, the Internet, computer applications, games, and more. Soon, venturing beyond the convenience of viewer choice and control, Internet TV will enable and encourage new types of entertainment, education, and games that take advantage of the Internet's interactive capabilities. What Internet TV is today and can be in the future forms the context for this book. Arising from collaboration between the Columbia Institute for Tele-Information (CITI) and the European Institute for the Media (EIM), this volume investigates the advent of widely available individual broadband Internet communications and their impact on the development of Internet TV. Editors Eli Noam, Jo Groebel, and Darcy Gerbarg have collected seminal papers by leaders from the U.S. and European media and technology industries that offer a critical look at the impact of interactivity on television content, and address the need for media organizations to create interactive programming in this untapped realm with unclear consumer interest and desires. Each section of the volume fleshes out key issues and concepts of television and the Internet:

- *Part I, Infrastructure Implications of Internet TV, discusses questions about the required network capacity for various quality grades to deliver individualized broadband to homes.
- *Part II, Network Business Models and Strategies, addresses the business challenges of

making Internet TV a financial success. *Part III, Policy, examines policy issues, including copyright and regulation. *Part IV, Content and Culture, reviews available content, those creating it, and how consumers view Internet TV content. *Part V, Future Impacts, considers future global prospects for Internet TV content creation and distribution. Internet Television is an essential resource for professionals and scholars in new technology and media studies, media policy, telecommunication, broadcasting, and related areas. It is also appropriate for graduate seminars in telecommunications, media and new technologies, and broadcasting and the Internet.

New South Wales Speed Camera Strategy Transport for NSW,2012 The NSW Auditor-General recently completed an audit of speed cameras in NSW that reaffirmed national and international evidence that speed cameras change driver behaviour and have a positive road safety impact, however recommended that an overarching strategy be developed, to ensure that the most appropriate camera type was being used to reduce the road safety risk. Transport for NSW has responded to this audit recommendation and developed an over arching evidence based speed camera strategy for NSW.--Introduction.

Never Tell Lisa Gardner,2019 While D. D. Warren investigates a pregnant woman's suspicious role in the murders of her father and husband, Flora draws on her own haunted past to identify an unsettling link to one of the victims

Disciple of the Wind Steve Bein,2016-03-01 Tokyo's only female detective fights to keep her city safe in the third novel in the fantasy series that "combines the best parts of police procedurals, buddy-cop films, historical fantasy, and intrigue-laden adventure."* After a deadly terrorist attack in Tokyo, Detective Sergeant Mariko Oshiro urges her

commanding officers to arrest an insane zealot who was just released from police custody. When her pleas fall on deaf ears, she loses her temper and then her badge. Armed with only her cunning and her famed Inazuma blade, Mariko must work outside the system to stop the terrorist. But going rogue draws the attention of the Wind—an underground syndicate that has controlled Japanese politics for centuries, using mystical relics to achieve their nefarious ends. Now, Mariko is left with a perilous choice: join an illicit insurgency to thwart a deadly villain, or remain true to the law. Either way, she cannot escape her sword's curse. As sure as the blade will bring her to victory, it also promises to destroy her...

High Ground Madelon Smid,2015-02-04 When Joshua Chandler identifies the hacker attempting to infiltrate his security software, he becomes a target for assassination. A genius, contracted to safeguard government secrets, he concludes a lot of people could see him as a threat. Various government agencies vie to protect him, but he prefers to hire his own bodyguard. When he falls in love with her, he has only one choice. Catch his assassin, so he can focus on winning her. Catriana Duplessiss, (Cat) hired to protect Josh, remains professional and distant in order to do her job. An ex-marine, she's well trained to keep him safe, but pretending to be his live-in-lover tests her rule "never get involved with a principal". She's lost too many loved ones to death and refuses to risk her heart again. When her feelings for Josh affect her ability to do her job, she insists on being replaced, so he has the best protection possible. It also allows her to run, but she can't hide from the truth. She's lost her heart to this brilliant man whose death seems imminent. Both the

assassin and Cat elude Josh's efforts to capture them. He doesn't know which is the greater threat losing his life or losing his love.

Return Ian Houston,2024-01-31 It is the year 2312, and the City covers most of the planet. Street kid David North is a "Super," but his power – moving strings, wires, and similar things with his mind – isn't entirely under his control. During a violent altercation with one of the City's notorious gangs, he is saved from near death by a couple of Super teenagers who are students of an underground scientific research and training facility called Project Arete. David immediately feels a curious connection with one of his saviors—Sarah, a young woman with glowing green bionic eyes. During his recovery at Project Arete's hospital, David is given the opportunity to join PA and, warily, he takes it. Perhaps there, finally off the City's streets, he could learn more about his power and how to control it . . . and more about Sarah. But there is someone who doesn't want David to get too close to her. And even though he is making lasting friendships, as David spends more time at PA, he discovers things are not exactly what they seem. An ancient mystery is slowly unfurling, and when David finds himself caught up in a 3000-year-old betrayal, he must confront impossible choices to protect the ones he loves. But will his choices doom them all to repeat the mistakes of the ancient past? The first book in the action-packed Keystone Trilogy, Return takes you deep inside a world where no choice is easy, no answer is the right one, and every step you take comes with great responsibility.

The Damned Lovely Adam Frost,2022-05-02 "She wasn't pretty but she was ours..." Sandwiched between seedy businesses in the scorching east LA suburb of Glendale, The

Damned Lovely dive bar is as scarred as its regulars: ex-cops, misfits and loners. And for Sam Goss, it's a refuge from the promising life he's walked away from, a place to write and a hole to hide in. But when a beautiful and mysterious new patron to the bar turns up murdered, Sam can't stop himself from getting involved. Despite their fleeting interaction, or perhaps because of it, something about her ghost won't let go... Armed with the playbook from the burned-out ex-cops, Sam challenges the police's theory on the killing, butting heads with hardened detectives and asking questions nobody wants to answer. As his obsession takes hold so does his sense of purpose—as if uncovering the truth about the killer might heal some part of his own broken life. But the chase sets him on a collision course with a crooked charity, violent fundamentalists, corrupt cops, brazen embezzlers and someone dangerously close to home—all who want to make sure the truth never comes out. Praise for *The Damned Lovely*: “The Damned Lovely is the LA crime story born anew, an addictive mystery and a love letter to the careworn and forgotten places of Los Angeles – Los Angeles as it is right now. Adam Frost is a crime writer with a sharp new voice, telling a tale about the one thing everyone in Los Angeles has: desire. Desire for truth, for justice, for love, or maybe just a place to call home. Highly recommended.” —Jordan Harper, Edgar Award-winning author of *She Rides Shotgun* “Frost’s crackling debut novel belongs on the shelf right next to Joseph Wambaugh and Michael Connelly. Crisp prose. An intricate plot worthy of Raymond Chandler, packed with scruffy, lovable, and lived-in characters that leap off the page. Frost brings a fresh voice and much-needed new blood to LA crime fiction.” —Will Beall, author of *L.A. Rex* and creator of CBS’s *Training Day* “An unputdownable and suspenseful whodunnit: anchored in the quandary of

manifesting destiny in grief and lost opportunity.” —Blake Howard, producer and host of the One Heat Minute podcast and Film Critic “Every bourbon-soaked sentence in this endlessly entertaining first novel proves Joseph Wambaugh dipped Adam Frost by his ankle into the L.A. river. Roll over Michael Connelly, tell Raymond Chandler the news.” —Adam Novak, author of Rat Park and Take Fountain

Dominant Desire Linzi Basset, 2021-10-26 Some say I am a charmer. They aren't wrong. Some say I am a demon. They aren't wrong. As an ex-professional football player, and now the new owner of the Seattle Sharks, Matteo Caruso stood at a crossroads. Living a double life as a star athlete, as well as being the advisor to the Boss of The Mafia Commission, had been easy to juggle. Managing an all-stars club, however, brought new challenges. He wasn't fazed since he loved living on the edge. All he needed to do was make a couple of adjustments. Easier said than done! Jamari Hunter, daughter of the previous owner of the Seattle Sharks, was fast becoming a headache he could do well without, since she refused to accept the loss of her position as the CEO of the team. Unlucky for her, he recognized her at a masked auction at the Decadent Sin's club. True to his Dominant desires, Master Hercules taught her a lesson in submission that changed her entire view of the irritating football player who had taken away her birthright. Now, he had her in the palm of his hand and tightened the ropes with every meeting ... except he hadn't banked on her getting under his skin! The interference of the Colombian Mafia and a local drug cartel in family business put a strain on their tremulous relationship while Matteo's ability to keep her safe was viciously put to the test. Editor's note: What happens when you combine Alpha males and their bratty women with Mafiosos and turf wars then

sprinkle in hot hot sex like it's the main ingredient? Fiery Dominant Desires. And make no mistake, this book will dominate every desire for what you've come to know and love from the queen of BDSM romance.
