**El Niño Ready Nations and Disaster Risk Reduction** Michael H. Glantz, 2022-03-02 El Niño can have drastic effects on livelihoods in affected regions. As the climate changes, there will also be changes in El Niño behavior and therefore in its impacts around the globe on human activities such as agriculture, water resources and weather extremes. The country-specific studies covered in this book are undertaken by experts on climate, water and weather-related fields in the countries being studied. Furthermore, aspects from other disciplines, for example from social sciences have been drawn upon in order to cover crosscutting themes which are identified: depicting similarities and differences in responses to El Niño's impacts such as drought, floods, famines, health-related issues and the like.

*Disasters in the Philippines* Glenda Bonifacio, Roxanna Balbido Epe, 2023-04-28 Bringing together the voices of local scholars in the Philippines, this book offers critical insights into one of the world's most disaster-prone regions. The Asia-Pacific region is one of the most vulnerable regions in the world, with the effects of climate change contributing to rising sea levels and increasingly frequent typhoons and floods. Case studies in this book examine such disasters, including the aftermath of 2013 super typhoon Haiyan. Discussions are centered around four themes: women and empowerment, economics and recovery, community and resilience, and religion and spirituality. Through its analysis, the book demonstrates the scopes, inequities, and inefficiencies of policies and responses, as well as forms of empowerment and resilience, in meeting challenges in disaster-afflicted communities in the Philippines. Its conclusions provide a more nuanced and grounded perspective of policies, practices, and approaches in the sociology of disasters today.

*Routledge Handbook of the South China Sea* Zou Keyuan, 2021-06-28 The Routledge Handbook of the South China Sea presents a comprehensive and in-depth analysis of South China Sea issues. It evaluates the dynamics of the latest developments and identifies factors that contribute to dispute settlement and a cooperative management regime of one of the most important seas in the world – one which not only contains rich marine resources and distinctive biodiversity but is also a critical sea route for global trade and communications. The Handbook is divided into six parts, each representing a focused area of enquiry: • History and geostrategic landscape • Sovereignty and maritime entitlements • South China Sea policies of major claimants

- Natural resources and environment • Cooperation and institutions • Challenges and prospects

Written by world-renowned experts and scholars, with specialisms from geography to international law, the volume's 25 chapters contribute interdisciplinary perspectives, reflecting the impact of how South China Sea policies are shaped by national governments and international organizations. As such, the Handbook provides an authoritative reference to South China Sea Studies, useful for students and scholars of international relations, history, maritime and Asian studies.

Lipad! Mga Kwento Ng Pag-Asa Mula Sa Pilipinas Minnie Agdeppa, Violence, suffering, hunger, death, grief, and despair would be the regular content of social and mainstream media. The negatives are often highlighted. Rarely does one find something soothing and inspiring for the soul to read and celebrate with. The world needs to hear and read a lot of Good News more than ever. Lipad! Mga Kwento Ng Pag-asa Mula Sa Pilipinas (Fly! Stories Of Hope From The Philippines) aims to bring to the fore 13 stories of hope from my experiences and those of my friends' to a world that needs

to know of it so direly. It also aims to inspire readers to positively respond to those suffering from mental afflictions out of a true desire to understand their predicament and be a support towards their healing. After all, the illness of one affects the entirety of society. The healing of one, then, leads to the healing of all.

**Strengthening Disaster Risk Governance to Manage Disaster Risk** Jose Manuel Mendes,Gretchen Kalonji,Rohit Jigyasu,Alice Chang-Richards,2021-01-11 Strengthening Disaster Risk Governance to Manage Disaster Risk presents the second principle from the UNISDR Sendai Framework for Disaster Risk Reduction, 2015-2030. The framework includes discussion of risk and resilience from both a theoretical and governance perspective in light of the ideas that are shaping our common future and presents innovative tools and best practices in reducing risk and building resilience. Combining the applications of social, financial, technological, design, engineering and nature-based approaches, the volume addresses rising global priorities and focuses on strengthening the global understanding of risk governance practices, initiatives and trends. Focusing on disaster risk governance at the national, regional, and global levels, it presents both historic and contemporary issues, asking researchers and governments how they can use technological advances, risk and resilience metrics and modeling, business continuity practices, and past experiences to understand the disaster recovery process and manage risk. Follows the global frameworks for disaster risk reduction and sustainability, specifically the UNISDR Sendai Framework for DRR, 2015-2030 Addresses lessons learned and future paths in disaster risk governance models Integrates public and private interests in risk governance Presents methodologies dealing with risk uncertainty, ambiguity and complexity

Cooperative Development in the South China Sea Huaigao Qi,Song Xue,2020-10-28 Boundary disputes in the South China Sea have been a long-standing threat to peace and security in East and Southeast Asia. Without agreed definition of boundaries, provisional arrangements to develop resources in the disputed area have become the favored, and most effective, solution. Therefore, joint development between various countries has taken place in the form of ad hoc arrangements with the goal of achieving positive outcomes for all parties involved. Incorporating insights from ten authors from six countries (Brunei, China, Indonesia, Malaysia, the Philippines, and Vietnam), this book provides a comprehensive analysis of the incentives and policies to joint development in the South China Sea disputes. The authors also discuss the bottlenecks and proposed policy options. The authors ease doubts over joint development in South China Sea disputes and shed light on creative ways to promote cooperation. The book is a key reference for students and scholars in politics and international relations, Asian Studies, and maritime law.

**China and the Philippines** Phillip B. Guingona,2023-11-08 Foregrounding the entangled history of China and the Philippines, Guingona brings to life an array of understudied, but influential characters, such as Filipino jazz musicians, magnetic Chinese swimmers, expert Filipino marksmen, leading Chinese educators, Philippine-Chinese bankers, Filipina Carnival Queens, and many others. Through archival research in multiple languages, this innovative study advances a more nuanced reading of world history, reframing our understanding of the first half of the twentieth century by bringing interactions between Asian people to the fore and minimizing the role of those who historically dominated global history narratives. Through methodologically distinct case studies, Guingona presents a critique of Eurocentric approaches to world/global history, shedding light on the

interconnected history of China and the Philippines in a transformative period. This title is part of the Flip it Open Programme and may also be available Open Access. Check our website Cambridge Core for details.

**Media and Disaster Risk Reduction** Rajib Shaw, Suvendrini Kakuchi, Miki Yamaji, 2021-03-16 This book analyzes recent advances, trends, challenges and potentials of the role of media in disaster risk reduction. Collaboration, co-design and co-delivery with other stakeholders in science technology, private sectors, and civil society are found to be effective in reaching people and communities. The media is considered to be of utmost importance in all phases of disasters, before, during and after, with different types of media having different proactive roles to play in disaster risk reduction. Before disasters, they play essential roles not only in bringing early warning to people but also in enhancing their perception of the need to take action. At during- and post-disaster response recovery phases, community radio and social media are the key. These necessitate a resilient media infrastructure as the core of uninterrupted coverage. Media literacy has become an important issue for several stakeholders, including governments. In addition, more focus is placed on media governance to look at the priorities of disaster risk reduction initiatives within the media. All of these are considered to lead to trust in the media, which further improves people's disaster response actions based on information from the media, before and during disasters. Covering different aspects of media, this book is a valuable source for students, researchers, academics, policy-makers and development practitioners.
