Reader's Digest, Reader's Digest Editors, Robert Dolezal

Real Art! Douglas Brenner, Nancy Stahl, 2004 Yes you can! Give the gift of art. Give the gift of creativity. Give the gift of fun. Because now we can all paint with the best of them. Drawn from the annals of America's fondly remembered pastimes, Real Art! is an all-new, cleverly designed paint by number kit and the coolest gift of the season. Open the box and discover everything an artist needs to create a gallery of paintings suitable for framing--ten white canvas boards, 18 oversized pots of acrylic paint, and two brushes, one narrow and one medium. The images, newly created by artist Nancy Stahl, are iconic: a still life of luscious pears. A clipper ship in full sail. Tropical parrots in a study of exuberant hue. The geisha. The bustling street scene. And two bona fide masterpieces: van Gogh's Sunflowers and, yes, the Mona Lisa. Plus, pulling the full experience together is a 64-page full-color book of history, appreciation, and instruction. Illustrated throughout, it traces the canon of PBN subjects and artists, including the original brouhaha over its place in the culture; and provides a how-to-paint primer--including how to improvise, from choosing a varied color palette to leaving parts of the canvas blank, à la Warhol; plus tips on displaying your work and, ultimately, becoming a PBN collector.

Games Magazine Presents Paint by Numbers Games Magazine, 1994-07-15 Paint by Numbers is the most exciting new kind of puzzle to come along in many years. These picture logic puzzles already have a following of millions of devoted fans in Japan, where they were invented five years ago. And now Games, the magazine that introduced Paint by Numbers to the United States last year, proudly brings you an English-language version of the Japanese book that started the craze. The concept is brilliantly simple. You start with an empty grid; numbers above and to the side tell you how many squares in each row and column should be filled in. The trick is that the numbers don't tell you which squares to fill in -- that's for you to determine through logical reasoning and by working back and forth between the rows and columns. When you complete the puzzle correctly, you'll find you've made a picture! Complete instructions and some time-saving tips are included at the front of this book, along with 123 puzzles ranging from easy to very challenging. This book will give every puzzle fan many satisfying hours of entertainment.

Historical information for each painting is also included as well as a colored reproduction of each piece for reference.

The Official Paint By Numbers Guide: Master the Secrets to Paint By Numbers Logan Ransley, 2018-10-23 Paint By Numbers is fun. Plain and simple. It allows a new stress-reducing approach for expressing ourselves - using a method of painting invented by Leonardo da Vinci. (Legend has it that he created this method because he was too busy to teach his disciples and pupils how to paint.) After years of suffering enormous social anxiety, and surviving countless (and frightening) panic attacks, Logan Ransley found out about Paint By Numbers - a popular kid's game that anyone can use to paint true pieces of fantastic art. The concept of Paint By Numbers is simple: Each artist is given a canvas with the outline of a graphic. The outline is separated by mini outlines, each one designated with a number. The artist then paints in those assigned numbers with a colour that corresponds with the number. (So #1 is orange, #2 is red, #3 is green, and so on.) Reaching the pinnacle of his expression, he created a complete guidebook on Paint By Numbers. The Official Paint By Numbers Guide takes you by the hand and shows you how to maneuver and overcome the many problems both he and his friends encountered. Among those include thickening paint, smudging areas, unrolling the canvas without destroying the outline, and a lot more. Using the techniques and skills that helped him cope with the stress of everyday living, Logan gives you the tactics and strategies you can use in your own life to manage stress single-handedly and how to transform Paint By Numbers from being a game for kids into a therapeutic art form so you can become a happier, less-stressed and a more creative version of yourself.

Van Gogh Starry Night Vincent van Gogh, Federico Castelli Gattinara, 2004 This title is one in a series presenting four masterpieces by four immortal nineteenth-century French painters. Each miniature book faithfully reproduces its title painting on the front cover, and is packaged in a handsome slipcase that doubles as a picture frame. The frame can stand up on a desk or tabletop or be hung on the wall to display the book cover's striking painting. Each book's interior discusses its title painting, describing the artist's approach to his work, analyzing the picture's fine points, and showing close-up details from the painting. A final two-page spread presents a timeline capsule biography that lists significant events in the painter's life. Van Gogh--Starry Night shows and discusses Vincent Van Gogh's masterpiece, which is a mystically glowing nighttime landscape, and ranks today as one of the artist's most popular and beloved paintings.
