Say Yes to Yourself Loretta M. Calvert JD,2021-09-23 During a low point in her younger life, author Loretta M. Calvert, JD, married a grandiose narcissist. That marriage ended in divorce. In Say Yes to Yourself, she doesn't talk about that chapter, but she offers a series of stories about what happened after her break up. In this, her second book, Calvert narrates the wild ride of her year dating after divorce. Each chapter outlines an encounter and what was learned from her mistakes. She tells about her experiences with everyone from the Patio Furniture Guy, to Mr. Ex-Chippendale Dancer, the Future Dateline Story, Mama's Boy, and more. Say Yes to Yourself shares how Calvert realized she was attracting the wrong men. She needed to get clearer in terms of what she wanted, what her deal breakers were, and what her boundaries were. That meant turning inward and figuring out who she was. Her experiences, while humorous, led to a fundamental principle every single person on the dating scene should know: you do not need to pair up. You can be happily single instead of unhappily married.

Grow a Pair Larry Winget,2014-08-05 The straight-talking, New York Times bestselling author and Pitbull of Personal Development® is back with a pithy and prescriptive guide to success. A five-time bestselling author and one of the country's leading business speakers, Larry has made a reputation for being the first to challenge the positive-attraction gurus and the law-of-attraction bozos with his commonsense approach to success. Larry doesn't sugar-coat, and he isn't afraid to make people uncomfortable, because he wants us to stop making excuses, and start getting results. In the New York Times and Wall Street Journal bestseller Grow a Pair, Larry takes on entitlement culture, the self-help movement, political correctness, and more. We've all heard the phrase "grow a pair," but Larry's advice isn't about anatomy—it's about attitude. To get the success we want, we need to reject victimhood in favor of being assertive and finally taking some responsibility. With prescriptive advice on goal achieving, career, personal finance, and more, Grow a Pair will give the readers the kick in the pants they need.

Happier at Home Gretchen Rubin,2012-09-04 Tolstoy wrote, Happy families are all alike; every unhappy family is unhappy in its own way. This is the statement that inspired bestselling author Gretchen Rubin to wonder whether she could foster an even greater happiness in her home. During The Happiness Project, the same questions kept tugging at her. How can I raise happy children? How can I maintain a tender, romantic relationship with my spouse--after fifteen years of marriage? How do I keep my Blackberry from taking over my private life? How can I foster a well-ordered, light-hearted atmosphere in my

house, when no one else will lift a finger to cooperate? This book is Gretchen's account of her second journey in pursuit of happiness. Prescriptive, easy-to-follow, and anecdotal, *Happier at Home* offers readers a way of thinking and being that is positive and life-affirming. With specific examples following the calendar year, an intimate voice, and drawing from science and pop culture, this book will resonate with anyone looking to strengthen the bonds of family.

Creepy Pair of Underwear! Aaron Reynolds, 2017-08-15 From the celebrated team behind *Creepy Carrots!*, Aaron Reynolds and Caldecott Honor winner Peter Brown, comes a hilarious (and just a little creepy) story of a brave rabbit and a very weird pair of underwear. Jasper Rabbit is NOT a little bunny anymore. He's not afraid of the dark, and he's definitely not afraid of something as silly as underwear. But when the lights go out, suddenly his new big rabbit underwear glows in the dark. A ghoulish, greenish glow. If Jasper didn't know any better he'd say his undies were a little, well, creepy. Jasper's not scared obviously, he's just done with creepy underwear. But after trying everything to get rid of them, they keep coming back!

Essentials of Energy Technology Jochen Fricke, Walter L. Borst, 2013-12-19 An in-depth understanding of energy technology, sources, conversion, storage, transport and conservation is crucial for developing a sustainable and economically viable energy infrastructure. This need, for example, is addressed in university courses with a special focus on the energy mix of renewable and depletable energy resources. Energy makes our lives comfortable, and the existence of amenities such as heaters, cars, warm water, household appliances and electrical light is characteristic for a developed economy. Supplying the industrial or individual energy consumer with energy 24 hours a day is a non-trivial challenge, especially in times where the energy is coming from very diverse resources such as oil, gas, nuclear fuels, wind, sun, or waves. This book gives physics, chemistry, engineering, and materials science students insights in the basics of energy and energy technology. It was developed along a successful course for advanced bachelor or graduate students and is written in a didactic style. The problems and solutions at the end of each chapter are ideal for exams and make self-study easy. Topics covered include energy from fossil and nuclear fuels, renewable sources, energy transport, storage, and conservation.

Positive Intervention for Pupils who Struggle at School Helen Sonnet, 2009-12-16 *Positive Intervention for Pupils who Struggle at School* provides the resources and information primary teachers need to ensure a happy and effective school experience for all children, particularly those who are seriously struggling. This tried and tested intervention is designed specifically for those children who have been through all the standard interventions, to no avail, and who are now in danger of being excluded. Explaining the

thinking behind the suggested modified curriculum, this innovative book considers the reasons why certain children experience difficulties and looks at how this curriculum addresses their needs and enables them to develop personal, social and emotional skills. The activities are chosen to develop and enhance skills for learning, including listening, speaking, concentrating, a positive disposition and a willingness to take on new challenges. Helen Sonnet demonstrates how success has been achieved through this strategy and provides valuable information to help teachers to set up similar groups in their own schools, including how to: ensure firm foundations for the group select the children who will benefit most establish the structures and routine of a successful group assess the children's progress reintegrate children into their mainstream classes effectively.
