*Media Imperialism in India and Pakistan* Farooq Sulehria, 2018-01-02 Examining anew the notions of media imperialism and globalization of media, this book disrupts the generalised consensus in media scholarship that globalization of media has put an end to media imperialism. One elemental aspect of media imperialism is the structural dependency of television systems in the global South on the imperial North. Taking India and Pakistan as its case studies, this book views globalization of media as the unleashing of processes that have translated into the liberalization of air waves and privatization of television systems whereby commercialization of television is privileged over public interest television. Additionally, it argues that the globalization of media has contributed to corruption, tabloidization, and marginalization of subaltern classes in the Indian and Pakistani media.

**Television in India** Nalin Mehta, 2008-06-03 This book examines the development of television in India since the early 1990s, and its implications for Indian society more widely. Until 1991, India possessed only a single state-owned television channel, but since then there has been a rapid expansion in independent satellite channels which came as a complete break from the statist control of the past. This book explores this transformation, explaining how television, a medium that developed in the industrial West, was adapted to suit Indian conditions, and in turn has altered Indian social practices, making possible new ways of imagining identities, conducting politics and engaging with the state. In particular, satellite television initially came to India as the representative of global capitalism but it was appropriated by Indian entrepreneurs and producers who Indianized it. Considering the full gamut of Indian television - from national networks in English and Hindi to the state of regional language networks - this book elucidates the transformative impact of television on a range of important social practices, including politics and democracy, sport and identity formation, cinema and popular culture. Overall, it shows how the story of television in India is also the story of India's encounter with the forces of globalisation.

**CBMs In India-Pakistan Relations** Surender Singh, 2021-08-09 About the Book India and Pakistan, the two important countries of the South Asian Sub-continent, have had a far from cordial relationship. It was in sum a love-hate relationship in which one is compelled to unwillingly coexist with the other and retain a constant but correct relationship on account of geography and historical circumstances. This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947. The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution. This study deals with India-Pakistan relations from 2003 to the present time. This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures (CBMs). This book provides a theoretical understanding of the South Asian region in general and India-Pakistan relations in particular. It analyses not only India's interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations. It has discussed not only the key issues between them, such as Kashmir, Terrorism, Siachen, Sir Creek, Drug Trafficking but also provides their likely solutions to these problems. Besides this, the process of CBMs and the steps taken by both nations are also discussed in it. Hence this book presents an overview of the contemporary nature of India-Pakistan relations after the start of the process of CBMs. The book may be beneficial for students, teachers, policymakers, diplomats, as well as, common readers engaged in understandings the current discourses on India-Pakistan relations in this changed international milieu.

**Indian Diplomacy** RAJENDRA M. ABHYANKAR, 2018-05-18 How has India's foreign policy evolved in the seventy years since Independence? For that matter, what is the country's foreign policy? And what are the aspects that determine and shape it? If you've had questions such as these, Rajendra Abhyankar's *Indian Diplomacy* is the foreign policy primer you've been looking for. Charting the country's interactions with other countries from the early days of independence to now, *Indian Diplomacy* reviews the changes in stance. Lucidly written and well argued, the book covers

these and other questions comprehensively, without fuss or bombast. A much-needed book in light of the sweeping changes on the global stage—and India's increasing role in them. General reader, politicians, historians, and journalists who specialize in foreign policy and contemporary politics as well as think tanks and policymakers

**Crossover Stars in the Hindi Film Industry** Dina Khdaire, 2020-05-11 This book explores the cultural politics of Pakistani crossover stardom in the Hindi film industry as a process of both assimilation and "Otherness". Analysing the career profiles of three crossover performers – Ali Zafar, Fawad Khan, and Mahira Khan – as a relevant case study, it unites critical globalization studies with soft power theory in exploring the potential of popular culture in conflict resolution. The book studies the representation and reception of these celebrities, while discussing themes such as the meaning of being a Pakistani star in India, and the consequent identity politics that come into play. As the first comprehensive study of Pakistani crossover stardom, it captures intersections between political economy, cultural representation, and nationalist discourse, at the same time reflecting on larger questions of identity and belonging in an age of globalization. *Crossover Stars in the Hindi Film Industry* will be indispensable to researchers of film studies, media and cultural studies, popular culture and performance, peace and area studies, and South Asian studies. It will also be of interest to enthusiasts of Indian cinematic history.

**Security in South Asia** Vandana Asthana, Ashok Chandra Shukla, 2004 The Title Discuss And Analysis A Conceptual Synthesis Of Trends And Directions Vis-A-Vis Traditional And Non-Traditional Security Paradigm-Taking Into Account Of Vast Changes In The Concept Of Security In Contemporary Times.

*Pakistan's Tactical Nuclear Weapons* Inderjit Panjra, 2018-01-01 Amidst many developments in the constantly evolving Indo-Pak conflict paradigm, the latest and perhaps the most intriguing has been the induction of Tactical Nuclear Weapons (TNWs) by Pakistan. While nuclear sabre rattling is not new to Pakistan's strategy, this time around there seems to be a strong pitch among security analysts to project these as the proverbial 'Brahmastra' in its possession, foreclosing any sort of military retaliatory strike by India. This is significant at a time when sporadic Pak sponsored terror attacks on Indian soil continue unabated. For the Indian security analysts this raises some pertinent questions. • Is the threat of TNWs credible enough to deter India from launching a suitable military response to a Pakistan supported terror attack? • Does induction of TNWs by Pakistan materially alter the Indo-Pak nuclear balance and consequently, the direction any future conflict may assume? • What are the response options for India to retain/ restore the nuclear as well as overall security balance? This book is an endeavour to find answers to all these. In the process, the author attempts to explore how the two protagonists view nuclear deterrence, what is the relevance of nuclear weapons for both of them, how are the fundamental drivers of the ongoing conflict and the ever changing dynamics and influences in the region affecting it. Using these parameters and the technical capabilities of TNWs believed to be held by Pakistan, the author constructs five possible scenarios for the foreseeable future. The outcome is interesting as it answers the fundamental question – are Pakistan's TNWs indeed the game changer they are being touted as or are we giving the devil more than his due?

**Kashmir in India and Pakistan Policies** Piotr Balcerowicz, Agnieszka Kuszewska, 2022-05-26 This book examines the complex political structures of Pakistan and India that determine both the Kashmir conflict and the geostrategic environment underpinning it. Providing comprehensive knowledge on both historical and contemporary dynamics of Indo-Pakistani policies and relations, this book combines a brief history of the Kashmir conflict with thorough political analysis. Analyses range from strategic dynamics in the aftermath of bifurcation of Indian-administered Kashmir, to ideologically motivated and state-led narratives, security dilemmas, regional and geopolitical dynamics. The book ultimately aims to investigate which policies India and Pakistan develop vis-à-vis the territories of former Princely State of Jammu and Kashmir (PSJ&K) in a balanced and impartial manner. While placing the subject against the backdrop of Pakistan's and India's domestic and international policies, this book emphasises why Kashmir is so important to

both countries and how it is manifested in their policies. Kashmir in India and Pakistan policies will appeal to students and scholars of peace and conflict studies, international relations, political science, and South Asian studies. **The Longest August** Dilip Hiro, 2015-02-24 The partitioning of British India into independent Pakistan and India in August 1947 occurred in the midst of communal holocaust, with Hindus and Sikhs on one side and Muslims on the other. More than 750,000 people were butchered, and 12 million fled their homes -- primarily in caravans of bullock-carts -- to seek refuge across the new border: it was the largest exodus in history. Sixty-seven years later, it is as if that August never ended. Renowned historian and journalist Dilip Hiro provides a riveting account of the relationship between India and Pakistan, tracing the landmark events that led to the division of the sub-continent and the evolution of the contentious relationship between Hindus and Muslims. To this day, a reasonable resolution to their dispute has proved elusive, and the Line of Control in Kashmir remains the most heavily fortified frontier in the world, with 400,000 soldiers arrayed on either side. Since partition, there have been several acute crises between the neighbors, including the secession of East Pakistan to form an independent Bangladesh in 1971, and the acquisition of nuclear weapons by both sides resulting in a scarcely avoided confrontation in 1999 and again in 2002. Hiro amply demonstrates the geopolitical importance of the India-Pakistan conflict by chronicling their respective ties not only with America and the Soviet Union, but also with China, Israel, and Afghanistan. Hiro weaves these threads into a lucid narrative, enlivened with colorful biographies of leaders, vivid descriptions of wars, sensational assassinations, gross violations of human rights -- and cultural signifiers like cricket matches. *The Longest August* is incomparable in its scope and presents the first definitive history of one of the world's longest-running and most intractable conflicts.

**The Geopsychology Theory of International Relations in the 21st Century** B. M. Jain, 2021-02-15 This book introduces an innovative theoretical construct of geopsychology to navigate the complex dynamics of international politics in the 21st century. It explains how geopsychology is different from mainstream international relations theories in terms of primary actors, human behavior, spatial application, instruments, and key issues. It argues that peace and stability in the troubled parts of the world warrants an imperative need for understanding psychological dispositions of non-state actors and authoritarian regimes. In *The Geopsychology Theory of International Relations in the 21st Century: Escaping the Ignorance Trap*, B.M.Jain unfolds that neither a global hegemon nor a cohort of powers could weaken their resolve and break their morale, as proven in the cases of Iraq, Afghanistan, and North Korea. Importantly, the regional case studies —India and Pakistan in South Asia; North Korea and China in Northeast Asia; and the U.S. involvement in the Middle East — reveal how the psyche and thought processes of national and regional actors have been the driving force in triggering interstate conflicts and civil wars. The book brilliantly illuminates how America became a conscious victim of the ignorance trap in Asia's volatile regions. This must book offers easy solutions to complex conflicts to induce a peaceful change in world politics.

**India's Pakistan Conundrum** Sharat Sabharwal, 2022 Historically, the relationship between India and Pakistan has been mired in conflicts, war, and lack of trust. Pakistan has continued to loom large on India's horizon despite the growing gap between the two countries. This book examines the nature of the Pakistani state, its internal dynamics, and its impact on India. The text looks at key issues of the India-Pakistan relationship, appraises a range of India's policy options to address the Pakistan conundrum, and proposes a way forward for India's Pakistan policy. Drawing on the author's experience of two diplomatic stints in Pakistan, including as the High Commissioner of India, the book offers a unique insider's perspective on this critical relationship. A crucial intervention in diplomatic history and the analysis of India's Pakistan policy, the book will be of as much interest to the general reader as to scholars and researchers of foreign policy, strategic studies, international relations, South Asia studies, diplomacy, and political science--

**Television at Large in South Asia** Aswin Punathambekar, Shanti Kumar, 2015-09-25 This book explores the empirical and theoretical significance of understanding television as a dynamic technology, a creative industry, and a vibrant cultural form that is at large in South Asia. Bringing together prominent scholars who have shaped television studies in South Asia, as well as emerging scholars who address new topics, this book decisively positions television as a key site in the study of South Asian History and Culture. In doing so, it also positions the study of television in South Asia and the South Asian diaspora as crucial in the rethinking of global television history and opens up new directions for the future of television studies. This volume will be essential reading for scholars and teachers of media and communication studies, media history, anthropology, and sociology, besides being of great interest to policymakers and media professionals. This book was originally published as a special issue of South Asian History and Culture.

**Pakistan's National Security Approach and Post-Cold War Security** Arshad Ali, 2021-03-31 This book analyzes the paradox that despite being a national security state, Pakistan has become even more insecure in the post-Cold War era. It provides an in-depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy and security, proxy wars and the hyper-military-industrial complex, the author illustrates how the vanguard role of the military created considerable structural, sociopolitical, economic, and security problems in Pakistan. Furthermore, the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military-industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and Security, South Asian Foreign and Security Policy, International Relations, Asian Security, and Cold War Studies.

**Rethinking New Womanhood** Nazia Hussein, 2018-04-09 Covering India, Bangladesh, Pakistan and Nepal, Rethinking New Womanhood effectively introduces a 'new' wave of gender research from South Asia that resonates with feminist debates around the world. The volume conceptualises 'new womanhood' as a complex, heterogeneous and intersectional identity. By deconstructing classification systems and highlighting women's everyday ongoing negotiations with boundaries of social categories, the book reconfigures the concept of 'new woman' as a symbolic identity denoting 'modern' femininity at the intersection of gender, class, culture, sexuality and religion in South Asia. The collection maps new sites and expressions on women and gender studies around nationhood, women's rights, transnational feminist solidarity, 'new girlhoods', aesthetic and sexualised labour, respectability and 'modernity', LGBT discourses, domestic violence and 'new' feminisms. The volume will be of interest to students and scholars across a range of disciplines including gender studies, sociology, education, media and cultural studies, literature, anthropology, history, development studies, postcolonial studies and South Asian studies.

**Shooting for a Century** Stephen P. Cohen, 2013 The India-Pakistan rivalry is one of the five percent of international conflicts that has been labeled as intractable. Cohen draws on his varied experiences in South Asia as he develops a comprehensive theory of why the dispute is intractable and suggests ways in which it may be ameliorated.

**Facets of India's Security** P.R. Kumaraswamy, 2021-08-26 This volume brings together established and emerging scholars from academia and think tanks to reflect on important, conceptual, strategic and developmental issues in India's national security. It provides a comprehensive understanding of national security through a more open approach, covering both traditional and non-traditional concerns that have a bearing on the survival and well-being of humanity. It discusses key themes such as perceptions about China, civil-military relations, gender and military, nuclear safety, arms trade and cybersecurity, human security, food and water security,

soft power and the media's role in covering security issues. As a festschrift for Commodore C. Uday Bhaskar, it highlights and adds to his scholarly contributions to the national security debate in the country for the past three decades. A unique contribution, this volume will be indispensable for students and researchers of politics and international relations, national security, human security, geopolitics, non-traditional security, military and strategic studies, and South Asian studies.

*Enduring and Emerging Issues in South Asian Security* Šumit Ganguly, Dinshaw Mistry, 2022-02-08 Analyzing regional challenges and their implications for U.S. foreign policy This book is an impressive overview of security and governance issues in South Asia and their implications for U.S. foreign policy in the region. The focus is on major enduring issues that include India-Pakistan relations, India-China relations, conventional forces, and nuclear weapons. The book's contributors also tackle a number of often underexplored issues, including democratic backsliding in India, authoritarian hardening in China, and the international ramifications of both. The impact of Pakistan's political culture on democracy, and the insurgency in Pakistan's Baluchistan province, along with examinations of the internal security challenges in Nepal, Bangladesh, and the Maldives provide lessons for other states on how to counterviolent extremism and insurgencies related to identity and marginalization. Anyone interested in South Asian security and U.S. policy toward the region will be rewarded with new insights on these topics, written by academics and analysts specializing in the issues. The chapter authors were close colleagues or advisees of long-time Brookings Institution senior fellow Stephen Philip Cohen. Cohen was the first American scholar to work on South Asian security studies. He largely defined the field, trained and mentored many of its leading analysts, and was himself its most experienced and insightful scholar-practitioner until his death in 2019. This book is dedicated to Cohen in recognition of his contributions to scholarship and policymaking on South Asia.
