Beyond Aviation Human Factors Daniel E. Maurino,James Reason,Neil Johnston,Rob B. Lee,2017-03-02 The authors believe that a systematic organizational approach to aviation safety must replace the piecemeal approaches largely favoured in the past, but this change needs to be preceded by information to explain why a new approach is necessary. Accident records show a flattening of the safety curve since the early Seventies: instead of new kinds of accident, similar safety deficiencies have become recurrent features in accident reports. This suggests the need to review traditional accident prevention strategies, focused almost exclusively on the action or inaction's of front-line operational personnel. The organizational model proposed by the authors is one alternative means to pursue safety and prevention strategies in contemporary aviation; it is also applicable to other production systems. The model argues for a broadened approach, which considers the influence of all organizations (the blunt end) involved in aviation operations, in addition to individual human performance (the sharp end). If the concepts of systems safety and organizational accidents are to be advanced, aviation management at all levels must be aware of them. This book is intended to provide a bridge from the academic knowledge gained from research, to the needs of practitioners in aviation. It comprises six chapters: the fundamentals, background and justification for an organizational accident causation model to the flight deck, maintenance and air traffic control environments. The last chapter suggest different ways to apply the model as a prevention tool which furthermore enhances organizational effectiveness. The value of the organizational framework pioneered by Professor Reason in analyzing safety in high-technology production systems is felt by his co-authors to have an enduring role to play, both now and in coming decades. Applied now in this book, it has been adopted by ICAO, IFATCA, IMO, the US National Transportation Safety Board, the Transportation Safety B

Aviation Disasters David Gero,2009-05-29 Flying as an airline passenger is, statistically, one of the safest forms of travel. Even so, the history of civil aviation is littered with high-profile disasters involving major loss of life. This new edition of the authoritative work on the subject brings the grim but important story of air disasters right up to date. David Gero assembles a list of major air disasters since the 1950s across continents. He investigates every type of calamity, including those caused by appalling weather, mechanical failure, pilot error, inhospitable terrain and hostile action. The first incident of sabotage involving a commercial jetliner is covered, as is the first, much-feared crash of the jumbo jet era. Examined alongside less well-known disasters are high-profile episodes such as that of Pan American Flight 103 at Lockerbie in 1988, the Twin Towers tragedy of 11 September 2001 and, more recently, the disappearance of Malaysia Airlines Flight 370 in 2014 – the greatest mystery of the commercial jet age. Aviation Disasters is the authoritative record of air disasters worldwide, fully illustrated with a fascinating selection of photographs.

Pakistan Mary Anne Weaver,2010-02-22 An eyewitness account by an acclaimed New Yorker reporter Wedged between India and Afghanistan, Pakistan is the second-largest nation in the Islamic world, and is situated in what is currently one of the most volatile regions on earth. It has assumed a commanding role in militant Islam, a frightening portent being its creation of Afghanistan's bizarre fundamentalist student militia, the Taliban; and with some fifteen private Islamist armies and at least twenty nuclear weapons, it is considered to be one of the most terrifying places in the world. Its disintegration would pose an unthinkable threat to the United States and the West, and the man who will determine Pakistan's future course is the little-known, enigmatic General Pervez Musharraf. Mary Anne Weaver presents her personal journey through a country in turmoil, reconstructing, largely in the voices of the key participants themselves--Generals Musharraf and Zia, and Benazir Bhutto--the legacies now haunting Pakistan in the aftermath of the U.S.-sponsored jihad of the 1980s in Afghanistan. Fusing geopolitical choices with a vivid portrait of a land--of its people, its mystery, and its clans--Pakistan: In the Shadow of Jihad and Afghanistan, provides an essential background for those seeking to understand the problems the international community now faces, and poses some deeply disturbing questions about the future of conflict in South Asia.

Failure to Fire Marc Liebman,2023-09-18 Failure to Fire takes place in 2015 - 2016 when al Qaeda smuggles teams of terrorists into the United States by crossing the southern border and by coming ashore in the Northeast. Their goal, shut down the U.S. air transportation system using man-portable air defense systems (MANPADS). The president of the U.S. does not believe, now that his administration has eliminated Osama bin Laden, that al Qaeda is capable

of such an attack despite prima facie evidence that MANPADS have been found in the U.S. Derek Almer’s contacts at the CIA arranged for him to create a small think tank to operate under the radar and identify who is bringing the missiles into the country and develop a plan to prevent their use. Almer must deal with an administration more interested in maintaining its narrative that “Osama is dead, the war on terror is over.” The attorney general decides to go after Derek and his organization rather than hunt the terrorists already in the U.S. Failure to Fire is the second book in the Derek Almer Counterterrorism series. The first was called Flight of the Pawnee. Each novel in the series has a plot based on a threat to the U.S. homeland that the U.S. government does not want to discuss publicly. A third novel called Insidious Dragon will be released in the fall of 2023.

Dateline Islamabad Amit Baruah,2007-06-06 It was an assignment that was at once challenging and intimidating. I was going to be setting foot on --enemy'' territory.' Amit Baruah was one of only two Indian journalists allowed to be based in Islamabad during three tumultuous years of Pakistan's history. The author recounts with some amusement his family's experience of life in Islamabad society between April 1997 and June 2000all of it conducted under the suspicious gaze of Pakistani intelligence agents who shadow Baruah, his wife and daughters everywhere, including into friends' living rooms. He records his frustration at being disallowed from reporting freely on the ground many events that defined Indo-Pak relations, even as death or kidnapping forever stalks him. Three incidents haunt Baruah the most: not being cleared to attend the funeral, in 1998, of John Joseph, the bishop of Faisalabad who committed suicide in protest against Pakistan's -blasphemy' laws; being forbidden to view the wreckage of an Indian Air Force plane shot down during the Kargil conflict of 1999; and being prevented from entering Afghanistan from Pakistan to report on the Kandahar hijacking later that year. And yet, says Baruah, despite all the personal and professional difficulties he faced in Pakistan, his stint in Islamabadand his exchanges with so many friends he cannot nameproved to be the most exciting and enriching in his career. While admitting the difficult nature of his job as a foreign correspondent in a hostile nation, Baruah recalls the joys of meeting generous, like-minded people in a country whose regimented stance on Indiaand its pressis less than friendly.

IC 814 Hijacked: The Inside Story Anil K. Jaggia,Saurabh Shukla,2021-06-07 What was the intelligence failure that led to the hijacking of Indian Airlines’ flight IC-814 from Kathmandu on 24 December 1999? Could the aircraft have been stopped at Amritsar airport? Was a commando raid planned on the aircraft? How was Rupin Katyal killed? Was the plane’s destination always intended to be Kandahar? Was it merely prophetic that the hijackers had predicted the end of all negotiations on the millennium eve? These and other questions are answered in this blow-by-blow eyewitness account by Flt. Engineer Anil K. Jaggia, who breaks the silence around the hijacking with investigative journalist Saurabh Shukla of the Indian Express.
