Happymon Jacob

Line on Fire Happymon Jacob, 2018-12-24 The India–Pakistan border in Jammu & Kashmir has witnessed repeated ceasefire violations (CFVs) over the past decade. As relations between India and Pakistan have deteriorated, CFVs have increased exponentially. It is imperative to gain a deeper understanding of these violations owing to their potential to not only cause a crisis but also escalate an ongoing one. *Line on Fire*, part of the Oxford International Relations in South Asia series, postulates that the incorrect diagnosis of the reasons behind CFVs has led to wrong policies being adopted by both India and Pakistan to deal with the recurrent violations. Using fresh empirical data and first-hand accounts, the volume attempts to understand the reason why CFVs continue to take place between India and Pakistan despite consistent efforts to reduce the tension between the two nations. In doing so, it recontextualizes and enriches the prevailing arguments in contemporary literature on escalating dynamics and unending ceasefire agreements between the two South Asian nuclear rivals.

Crossover Stars in the Hindi Film Industry Dina Khadair, 2020-05-11 This book explores the cultural politics of Pakistani crossover stardom in the Hindi film industry as a process of both assimilation and "Otherness". Analysing the career profiles of three crossover performers – Ali Zafar, Fawad Khan, and Mahira Khan – as a relevant case study, it unites critical globalization studies with soft power theory in exploring the potential of popular culture in conflict resolution. The book studies the representation and reception of these celebrities, while discussing themes such as the meaning of being a Pakistani star in India, and the consequent

identity politics that come into play. As the first comprehensive study of Pakistani crossover stardom, it captures intersections between political economy, cultural representation, and nationalist discourse, at the same time reflecting on larger questions of identity and belonging in an age of globalization. *Crossover Stars in the Hindi Film Industry* will be indispensable to researchers of film studies, media and cultural studies, popular culture and performance, peace and area studies, and South Asian studies. It will also be of interest to enthusiasts of Indian cinematic history.

China's BRI in Different Regions of the World
Sanjeev Kumar, 2023-06-02 China's Belt and Road Initiative (BRI) is completing a decade. There have been varied responses to the Initiative from countries and regions besides the emergence of alternative initiatives and narratives. This sets the stage for evaluating the robustness of the Initiative, its implementation as well as its implications from the perspective of individual countries and regions across the globe. This book begins by examining China's domestic, economic, maritime and strategic interests as drivers for the Initiative. BRI has been analysed in country-specific, regional and continental contexts. It brings out the experiences and responses from South Asia, Eurasia, East Asia, Southeast Asia, the Arab world, Latin America, the Caribbean as well as from Europe and Africa. Further, BRI has been studied in the larger context of the US-China

competition. The final section explores BRI in the context of the twin challenges of recent times, i.e., the pandemic and Russia-Ukraine conflict. The book concludes with an epilogue which outlines the broad trends related to BRI that have emerged from this study of ICWA.

Hot Spots Amitai Etzioni, 2017-07-12 There are important reasons for the distinct yet significant course adjustments in American and Western foreign policy, which is currently focused on the Middle Eastern and Chinese hot spots. In early 2012, the United States pivoted to make the Far East its military and strategic first priority, thereby downgrading the Middle East. This change in priorities has been accompanied by a curtailed military budget and the end of the two-war doctrine. Amitai Etzioni argues that pivoting towards the Far East is premature and flawed in principle. China can and should be treated for the near future as a potential partner in a changing global order, rather than contained and made into an enemy. At the same time, he argues, the true hot spots continue to be in the Middle East, albeit not in Iraq or Afghanistan, but in Iran and Pakistan. Less urgent but of great importance are the ways the West deals with a complex and varied Muslim world, with political Islamic parties and social movements, and with future waves of Arab awaking. Here the distinction between security and nation building becomes essential for both normative and strategic reasons. Etzioni expects that we will see few armed humanitarian interventions of the kind we witnessed in 2011 in Libya. To this end, he examines policies that

threaten and favor the promotion of human rights. This timely book is written with Etzioni's customary deep appreciation for important issues.

Trade Liberalisation and Regional Disparity in Pakistan Muhammad Shoaib Butt, Jayatilleke S. Bandara, 2008-12-04 Pakistan's military, which has directly controlled the country's affairs for more than half of its post-independence history and which often retained real political power even during periods of democratic rule, has played a significant role in trade liberalisation. Regional disparities have increased since the beginning of major trade liberalisation attempts in the 1980s and at present, regional conflicts and the associated regional disparities are extremely high. The authors critically review the country's post-independence political economy of trade liberalisation, the resulting structural change and the story of regional disparities, identifying possible relations with political regimes. Using a regional computable general equilibrium (CGE) model, the effects of trade liberalisation on regional disparities are quantitatively examined, with an emphasis on the key export industries at a national level and on the relative output and employment growth at a regional level. In the first study to distinguish a possible link between trade liberalisation and regional disparities under dissimilar political regimes, such as autocracy and democracy, Butt and Bandara use Pakistan as a case study to draw broader lessons for other developing countries. This book will be of interest to academics, economists, political analysts and policymakers interested in

development economics in general and South Asia in particular.

The Nine Lives of Pakistan: Dispatches from a Precarious State Declan Walsh, 2020-11-17 Winner of the 2021 Overseas Press Club of America Cornelius Ryan Award The former New York Times Pakistan bureau chief paints an arresting, up-close portrait of a fractured country. Declan Walsh is one of the New York Times's most distinguished international correspondents. His electrifying portrait of Pakistan over a tumultuous decade captures the sweep of this strange, wondrous, and benighted country through the dramatic lives of nine fascinating individuals. On assignment as the country careened between crises, Walsh traveled

from the raucous port of Karachi to the salons of Lahore, and from Baluchistan to the mountains of Waziristan. He met a diverse cast of extraordinary Pakistanis—a chieftain readying for war at his desert fort, a retired spy skulking through the borderlands, and a crusading lawyer risking death for her beliefs, among others. Through these “nine lives” he describes a country on the brink—a place of creeping extremism and political chaos, but also personal bravery and dogged idealism that defy easy stereotypes. Unbeknownst to Walsh, however, an intelligence agent was tracking him. Written in the aftermath of Walsh’s abrupt deportation, *The Nine Lives of Pakistan* concludes with an astonishing encounter with that agent, and his revelations about Pakistan’s powerful security state. Intimate and complex, attuned to the centrifugal forces of history, identity, and faith, *The Nine Lives of Pakistan* offers an unflinching account of life in a precarious, vital country.

Iran and Pakistan Alex Vatanka, 2015-07-28 The respective policies of the governments of Iran and Pakistan pose serious challenges to US interests in the Middle East, Asia and beyond. These two regional powers, with a combined population of around 300 million, have been historically intertwined in various cultural, religious and political ways. Iran was the first country to recognise the emerging independent state of Pakistan in 1947 and the Shah of Iran was the first head of state to visit the new nation. While this relationship shifted following the 1979 Iranian Revolution, and tensions do exist between

Sunni Pakistan and Shi'i Iran, there has nevertheless been a history of cooperation between the two countries in fields that are of great strategic interest to the US: Afghanistan, nuclear proliferation and terrorism. Yet much of this history of cooperation, conflict and ongoing interactions remains unexplored. Alex Vatanka here presents the first comprehensive analysis of this long-standing and complex relationship.

Terror Financing in Kashmir Abhinav

Pandya, 2023-12-06 This book analyses the layered and complex web of terror financing in Kashmir. It examines the role of multiple actors – including formal and informal, state and non-state, profit

and non-profit, and local and international – to delineate the various strands of an intricate financial system. It shows how, over time, these sophisticated networks have largely remained elusive to Indian counter-terrorism agencies and the need for a specialised and focused effort to understand it. Drawing on interviews with confidential sources within terror networks, as well as inputs and intel from security agencies on the ground, the author lays the groundwork for a robust counter-terrorism strategy in Kashmir. This book will be a must read for professionals and researchers in security studies, military and strategic studies, politics and international relations, and South Asian studies.

I Am Malala Malala Yousafzai, 2013-10-08 A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman I come from a country that was created at midnight. When I almost died it was just after midday. When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM

MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

Cricket Today September 2017 CT Team,2017-08-28

Unstoppable is the only word which can define Shikhar Dhawan at the moment. Going hard at the bowlers, scoring runs freely and making sure of his team's triumph are Dhawan's tirades in international cricket. If his performance in the Champions Trophy was exceptional, the batting display in Sri Lanka is beyond explanation. Pretty much like him, his captain is also making headlines because of his habit of winning games for India while chasing any total. Michael Bevan was arguably the most feared finisher in the game during his career but Virat Kohli has not just simply taken the art of the chase to another level, but he is playing a completely different sport. Moving on from him, there is good news for Pakistan after the ICC gave them a green signal to the proposed World Series in Pakistan. With the arrival of World Series, there is every chance of seeing some action in Pakistan. There is much more to read from cricket in this issue.

Pakistan's Security and the India-US Strategic Partnership Syed Shahid Hussain Bukhari,2020-09-15

This book explores the relationship between the developing India-US strategic Partnership and Pakistan's security. It assesses India and the US's areas of cooperation to show that the partnership will bring drastic changes for India's military capabilities and modernization of its forces. The book shows that, in addition to enhancing India's domestic nuclear stockpiles through the nuclear cooperation agreement, collaboration in high-tech areas such as space and innovative technologies will enable India to acquire sophisticated delivery systems as well as surveillance capacity. The author argues that these advancements will enable India to destabilize the strategic balance in the region. The book also briefly explores the nuclear doctrines of India and Pakistan that provide an insight into the role of nuclear weapons in maintaining deterrence in the region. To understand the power dynamics caused by the strategic partnership and their impact on strategic stability in South Asia, the author utilizes the Balance of Power and Power Transition theories. A timely analysis of the India-US Strategic Partnership with a Pakistan angle, the book will be of interest to academics working in the fields of Asian security, Asian politics, especially South Asia, strategic studies, international relations, political science, nuclear non-proliferation, conflict studies, arms control, and security studies.
