Palmistry Peter Hazel, 2001 Your hand is a map reflecting your personality, your past, and your personal potential. This book's unique illustrated and interactive format is designed to give you instant access to the ancient art of palmistry. As you answer a series of simple questions, you'll discover how easy it really is--even the novice can begin reading hands immediately! You'll learn how to interpret the length of the palm and fingers, the four hand types, thumbs, marks on the fingers, the lines, fingernails, the mounts, timing in the palm, and even the meaning of rings. Palmistry Quick & Easy also includes information not found in other palmistry books. Notes for lovers, parents, managers, and astrologers will add depth and additional insights into the important relationships in your life. Without saying a word, your hands speak volumes about your personality. For example, the shape and size of your hand can help you gain insight into your strengths and weaknesses. Do you have a long palm with long, slender fingers? If so, you have a water hand, which means you are a sensitive, sympathetic, and intuitive person who probably relies on emotions to make decisions. You may have to be careful of being overly self-critical. Do you have a short palm with short fingers? Then you've got an earth hand, and you are practical, reliable, and productive, although you may have to watch out for becoming too single-minded or authoritarian. Palmistry is also fun--in any social gathering, mention that you read palms and you'll soon have a crowd of people eager to find out more about themselves. Palmistry Quick & Easy is just that: quick and easy. With its detailed question-and-answer format, you'll gain a deeper understanding of yourself and the people around you--just by listening to what their hands have to say.

The New Fortune in Your Hand Elizabeth Daniels Squire,1968

The Palmistry Bible Jane Struthers,2005 Discover in this illuminating volume how you can use palm reading for self-exploration and personal growth.

The Hand Reveals Dylan Warren-Davis,2021-03-31 Cheiromancy is the art of handreading in which all aspects of a person's hand are considered in order to gain an accurate picture of their inner nature. Cheiromancy is distinct from the fortune telling of palmistry. What has come down to us as palmistry today is a rather degenerate and effete form of this ancient discipline. The word cheiromancy comes from the Greek chir meaning 'hand' and manteia meaning 'divination', literally meaning 'divination through the hand'. The Hand Reveals is written as a practical guide to reading hands; it is not merely theoretical. As various points are described, through out the book, try to apply this knowledge at every opportunity to find confirmation of the ideas. There is a considerable amount of knowledge and information compressed into these pages, and even the most diligent student would have difficulty in digesting it in one reading. It is recommended that you refer back as often as necessary to go the material you have read, to allow your understanding of cheiromancy to grow gradually. Originally published in 1990 this edition has been revised and updated with new material.

Indian Palmistry J. B. Mrs. Dale,2022-06-02 Palmistry, chiromancy, or palm reading is practiced worldwide with roots in Indian astrology and gypsy fortune-telling. The goal is to assess a person's character and elements of their life by examining the palm of their hand. This invaluable booklet on Indian palmistry describes everything in simple and easy words with symbols, marks, and illustrations concerning the placement of planets and their respective mounts. The author of this work does not claim that there is anything new in this work, but the way of translating, setting, and presenting the information is original. It's a helpful book for beginners or those curious about palmistry.

Book Of Fate And Fortune: Palmistry Cheiro,2005-03 Just as the face is the index of the mind, the palm is the index of one's future. Palmistry is a fascinating science of knowing the future by reading the lines on the palm. It has been proved that the lines on the hand have a normal and natural position, just as the nose or the eyes on the face. The slightest deviation, break or curve from the normal denotes unusual qualities or tendencies. With full knowledge of these qualities or tendencies, proper precautions can be taken. A reasoned interpretation of the lines of the hand can produce a complete and an accurate assessment of the temperament, health, love, romance, and marriage, travel and fortune. This complete, unabridged and authorized edition of Cheiro's practical handbook has long been accepted as the classic of palmistry.

May I See Your Hand? Myrna L Goldbaum,1997-06

Palm Reading Bridget Giles,Jane Johnson,2005 Collins Gem Palm Reading reveals the ancient art of palm reading. With easy-to-follow diagrams accompanying clear and concise text, this book lays bare the complexities of hand reading. The book provides an introduction to how to read palms so that a beginner will soon be able to uncover the hidden truths of the hand. It first examines the whole hand, analysing the variety of hand shapes, including the compatibility of different hand shapes and the influences of

hand shape on health and careers. It then examines the fingers and thumb in detail. Palmists look at the shape of the fingers, their flexibility and their position in relation to one another and make predictions about an individual and their compatibility with others. This examination is followed by looking at the 'mounts' (the fleshy pads on the palm) and their predictive power and then studying the lines on the palm (an important aspect of palm reading but not the sole element, as suggests by popular myth). By pulling all these aspects of palm reading together this book will enable you to start drawing up predictions from studying palms. To help you the book is heavily illustrated with diagrams and photographs.
