**The Professional Home Inspectors Book of David Selman, 2016-10-20** In this book, there are more

than twelve hundred home inspection report writing best practices, report comments and special notes. These Report Writing Comments For Success have been developed based on experience and used in thousands of home inspection reports. They are based on Code Check building standards, International Residential Code (IRC), National Electric Code (NEC) and other sources. While my company inspects homes in Texas, these home inspection report-writing comments are about construction standards common to all professional home inspectors. However, these report comments do not include basements or seismic requirements since they are infrequent in our area. These home inspection report-writing comments are formatted in the same order as the Texas Real Estate Commission (TREC) promulgated Texas Standard report form. Your state format and report order may be different. This is a collection of the most commonly used comments and special notes from our experience as professional Texas home inspectors. When I first became a home inspector, there were few options for well-written home inspection report comments. This book is intended to be a guide that will improve your home inspection report writing skills, provide a base for new inspector's report comments and supplement veteran inspectors report comments. The possibilities for written home inspection report comments are endless. Purpose\*To expand the scope of and promote excellence in professional home inspection report writing with field tested proven verbiage that may be relevant to deficiencies revealed in the course of a home inspection.\*To be useful to

potential home inspectors as a study guide.\*To be useful as a refresher to veteran home inspectors. Whether you are a new home inspector or a veteran, I hope you find these Report Writing Comments For Success useful.

Is it okay to have shrubs close to the house? Are gutter guards the way to go? How about caulking around a toilet? As a seller, you'll save valuable time selling your home by being aware of the types of defects that a home inspector is likely to find in your home.
