Dandy Ahuruonye

Pet Paradise Dandy Ahuruonye, 2024-01-29 What if you could see your pets again, even after they die? If you could hug them, play with them, and love them forever, what would you be willing to give to make that happen? If there was a place where your pets could live happily, healthily, and peacefully with you and other animals, would you agree to go there? Well, that's what Didi, a clever engineer, dreamed of when she lost her beloved dog. She had a brilliant idea: to use a powerful computer program to resurrect dead pets and return them to life. She called her pet return to life program Pet Paradise. Didi created an AI supercomputer called Groccolli, a smart robot that could run and maintain the pet paradise. She gave him a mission: to bring back to life as many pets and animals as possible and to make them happy and healthy. Groccolli did his best, and he brought back to life many creatures, including monarch butterflies and praying mantises. The intelligent robot taught them how to talk, and he made them friends and families, as well as a home and a garden. However, Pet Paradise was not perfect. There were still problems that the pets and animals had to face, like blood-sucking mosquitoes, pollution, fear, and even death. Didi and Groccolli wanted to make Pet Paradise a proper paradise, where no pet or animal would ever get sick, grow old, or die. They wanted it to be a place of happiness, peace, and love for everyone, forever. Consequently, they worked on a new and improved program, a program that would make the place a real paradise, a program that would solve all the problems and a program that would make everyone happy, healthy, and immortal. They called it The Real Pet Paradise. The engineer and Groccolli hoped to someday take the pets and animals to this better environment; where no one would ever have to worry about anything again, never again had to say goodbye. They had everything they ever wanted, and more. They had a true paradise, and they had Didi and Groccolli. But there was one more thing they needed,

one more thing that would make their paradise complete. Yes, they needed humans, humans who would adopt them, love them, and care for them; humans who would be their friends, their families, their companions. That's where you come in. Could you be one of those humans? Could you adopt one of those pets or animals? You can be their friend, their family, and their companion. All you have to do is read this book and find out how. This book will tell you the amazing story of Didi, Groccolli, and the pets and animals of Pet Paradise. It will show you the wonders of both Pet Paradise and The Real Pet Paradise. This book will inspire you to use your imagination and your dreams and to create your own happiness and love. It will make you think, and it will make you better. Pet Paradise is waiting for you; don't miss this chance to discover the mystery, the adventure and the fun, the beauty and the joy of Pet Paradise. Seize this chance to meet the amazing characters, the clever engineer, the smart robot, the monarch butterflies, the mantises, and many more; those who made Pet Paradise a dream come true. Don't miss this chance to be part of the story. By reading on, you too could enter Pet Paradise with these adorable little friends!

A Beginner's Guide to Paradise Alex Sheshunoff, 2015-09-01 So You Too Can: - Move to a South Pacific Island - Wear a Loincloth - Read a Hundred Books - Diaper a Baby Monkey - Build a Bungalow And Maybe, Just Maybe, Fall in Love! ** Individual results may vary. The true story of how a quarter-life crisis led to adventure, freedom, and love on a tiny island in the Pacific. From the author of a lot of emails and several Facebook posts comes A Beginner's Guide to Paradise, a laugh-out-loud, true story that will answer your most pressing escape-from-it-all questions, including: 1. How much, per pound, should you expect to pay a priest to fly you to the outer islands of Yap? 2. Classic slumber party stumper: If you could have just one movie on a remote Pacific island, what would it definitely not be? 3. How do you blend fruity drinks without a blender? 4. Is a free, one-hour class from Home Depot on "Flowerbox Construction" sufficient training to build a house? From Robinson Crusoe to Survivor, Gilligan's Island to The Beach, people have fantasized about living on a remote tropical island. But when facing a quarter-life crisis, plucky desk slave Alex Sheshunoff actually did it. While out in Paradise, he learned a lot. About how to make big choices and big changes. About the less-than-idyllic parts of paradise. About tying a loincloth without exposing the tender bits. Now, Alex shares his incredible story and pretty-hard-won wisdom in a book that will surprise you, make you laugh, take

you to such unforgettable islands as Yap and Pig, and perhaps inspire your own move to an island with only two letters in its name. Answers: 1) \$1.14 2) Gas Attack Training Made Simple 3) Crimp a fork in half and insert middle into power drill 4) No.

Pawpaw Andrew Moore, 2015-08-05 The largest edible fruit native to the United States tastes like a cross between a banana and a mango. It grows wild in twenty-six states, gracing Eastern forests each fall with sweet-smelling, tropical-flavored abundance. Historically, it fed and sustained Native Americans and European explorers, presidents, and enslaved African Americans, inspiring folk songs, poetry, and scores of place names from Georgia to Illinois. Its trees are an organic grower's dream, requiring no pesticides or herbicides to thrive, and containing compounds that are among the most potent anticancer agents yet discovered. So why have so few people heard of the pawpaw, much less tasted one? In *Pawpaw*—a 2016 James Beard Foundation Award nominee in the Writing & Literature category—author Andrew Moore explores the past, present, and future of this unique fruit, traveling from the Ozarks to Monticello; canoeing the lower Mississippi in search of wild fruit; drinking pawpaw beer in Durham, North Carolina; tracking down lost cultivars in Appalachian hollers; and helping out during harvest season in a Maryland orchard. Along the way, he gathers pawpaw lore and knowledge not only from the plant breeders and horticulturists working to bring pawpaws into the mainstream (including Neal Peterson, known in pawpaw circles as the fruit's own "Johnny Pawpawseed"), but also regular folks who remember eating them in the woods as kids, but haven't had one in over fifty years. As much as *Pawpaw* is a compendium of pawpaw knowledge, it also plumbs deeper questions about American foodways—how economic, biologic, and cultural forces combine, leading us to eat what we eat, and sometimes to ignore the incredible, delicious food growing all around us. If you haven't yet eaten a pawpaw, this book won't let you rest until you do.

We Band of Angels Elizabeth Norman, 2013-10-29 In the fall of 1941, the Philippines was a gardenia-scented paradise for the American Army and Navy nurses stationed there. War was a distant rumor, life a routine of easy shifts and dinners under the stars. On December 8 all that changed, as Japanese bombs began raining down on American bases in Luzon, and this paradise became a fiery hell. Caught in the raging battle, the nurses set up field hospitals in the jungles of Bataan and the tunnels of Corregidor, where they tended to the most devastating injuries of war, and suffered the terrors of shells and shrapnel. But the worst was yet to come. After Bataan and Corregidor fell, the nurses were herded into internment camps where they would endure three years of fear, brutality, and starvation. Once liberated, they returned to an America that at first celebrated them, but later refused to honor their leaders with the medals they clearly deserved. Here, in letters, diaries, and riveting firsthand accounts, is the story of what really happened during those dark days, woven together in a deeply affecting saga of women in war. Praise for We Band of Angels “Gripping . . . a war story in which the main characters never kill one of the enemy, or even shoot at him, but are nevertheless heroes . . . Americans today should thank God we had such women.”—Stephen E. Ambrose “Remarkable and uplifting.”—USA Today “[Elizabeth M. Norman] brings a quiet, scholarly

voice to this narrative. . . . In just a little over six months these women had turned from plucky young girls on a mild adventure to authentic heroes. . . . Every page of this history is fascinating.”—Carolyn See, The Washington Post “Riveting . . . poignant and powerful.”—The Dallas Morning News Winner of the Lavinia Dock Award for historical scholarship, the American Academy of Nursing National Media Award, and the Agnes Dillon Randolph Award
